KEY FEATURES

- **International Compatibility:** Covers over 200 countries, including Type C (France, Germany, Italy, Spain), Type G (UK, Ireland), Type I (China, Australia, New Zealand), and Type A (USA, Japan, Canada).
- **Multi-Port Charging:** Features 1 built-in USB-C cable (35W max), 2 additional USB-C ports (15W max each), and 2 USB-A ports (12W max each).
- **6-in-1 Functionality:** Simultaneously charge up to 6 devices using the universal AC outlet, 3 USB-C ports, and 2 USB-A ports.
- **Compact and Portable:** Dimensions of 3.34 × 2.28 × 2.09 inches and a weight of 6.93 oz, making it highly convenient for travel.
- **Safety Features:** Equipped with double 10A fuse protection for enhanced device safety.

SETUP AND OPERATION

Selecting the Correct Plug Type

The TESSAN Universal Travel Adapter features retractable pins for various international outlets. To deploy the correct plug type:

1. Identify the required plug type for your destination (e.g., Type A for USA, Type C for EU, Type G for UK, Type I for Australia).
2. Locate the corresponding slider on the side of the adapter.
3. Push the slider button in and slide it forward until the pins fully extend and lock into place. Ensure the pins are fully extended to make a secure connection.
4. To retract the pins, push the slider button in and slide it backward until the pins are fully recessed.

Figure 3: Illustration of the different plug types (Type A, C, I, G) supported by the adapter and how they extend.

Charging Your Devices

The adapter provides multiple options for charging your electronic devices:

- **Universal AC Outlet:** Plug in your device's power adapter into the universal AC outlet on the front of the

TESSAN adapter. This outlet is compatible with US, EU, UK, and AU plugs.

- **Built-in USB-C Cable:** Pull out the integrated USB-C cable from the side of the adapter. This cable provides up to 35W max charging when used alone.
- **USB-C Ports (C2/C3):** Use your own USB-C cables with the two additional USB-C ports, each offering up to 15W max charging.
- **USB-A Ports (A1/A2):** Use your own USB-A cables with the two USB-A ports, each offering up to 12W max charging.

6 IN 1 Travel Adapter Worldwide

Charge 6 devices at the same time

Figure 5: The adapter in use, demonstrating its ability to charge up to six devices concurrently.

Important Note: Not a Voltage Converter

This universal travel adapter is NOT a voltage converter.

It only adapts the shape of the plug to fit different wall outlets. It does not change the voltage. Ensure that your electronic devices support dual voltage (100V-250V) before plugging them into the adapter, especially high-power appliances like hair dryers, straighteners, or curling irons. Using devices that do not support the local voltage can cause damage to the device and the adapter, and may pose a safety risk.

SAFETY USE INSTRUCTION

Double 10A fuse protection for your devices

Note: This is **NOT** a voltage converter.

Figure 6: Visual reminder that the adapter does not convert voltage. Always check your device's voltage compatibility.

MAINTENANCE AND SAFETY

- **Fuse Protection:** The adapter is equipped with double 10A fuse protection. If the adapter stops working, check if the fuse needs replacement. Refer to the product diagram for fuse location.
- **Cleaning:** Clean the adapter with a dry, soft cloth. Do not use liquid cleaners or aerosols.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and moisture when not in use.
- **Avoid Overloading:** Do not exceed the maximum power rating of the adapter (e.g., 100V-250V, 10A Max, 2500W Max).
- **Children Safety:** Keep out of reach of children.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Adapter not powering devices.	Blown fuse, incorrect plug selection, device not compatible with local voltage.	Check and replace fuse. Ensure correct plug type is fully extended. Verify device voltage compatibility.
Pins retracting when plugging into outlet.	Pins not fully locked into place.	Ensure the slider button is pushed in and the pins are slid completely forward until they click and lock.
Slow charging speed.	Multiple devices connected, using lower wattage ports, device charging limitations.	For fastest charging, use the built-in USB-C cable (35W max) with a single device. Disconnect other devices if necessary. Ensure your device supports fast charging.

SPECIFICATIONS

Model Number: 668DFW

Dimensions: 3.28 x 2.28 x 2.09 inches

Weight: 4.6 ounces

AC Input: 100V-250V, 50/60Hz

AC Output: 10A Max, 2500W Max

USB-C1 Output: 35W Max (single port use)

USB-C2/C3 Output: 15W Max (per port)

USB-A1/A2 Output: 12W Max (per port)

Total DC Output: 35W Max

Fuse: Double 10A

Color: Grey & White

Manufacturer: Dongguan Best Travel Electronics Co., Ltd
