Realspace Sensi Mesh/Fabric Low-Back Task Chair Instruction Manual

Model: Sensi
Brand: Realspace

1. INTRODUCTION

The Realspace Sensi Mesh/Fabric Low-Back Task Chair is designed for comfort and functionality in office environments. It features a breathable mesh back, a cushioned fabric seat, and flexible lumbar support. This manual provides essential information for the proper use, adjustment, and care of your chair.

Key Features:

- Black mesh back with cushioned fabric seat.
- Comfortable fixed T-arms.
- Flexible lumbar support.
- One-touch seat-height and tilt-lock adjustability.
- ANSI/BIFMA Compliant, meeting rigorous performance and safety standards.

2. SAFETY INFORMATION

This chair has a weight capacity of 275 pounds (124.7 kg). Improper use may lead to injury. Ensure the chair is used in a stable environment and is not subject to excessive weight or stress beyond its stated capacity.

The product meets/exceeds Flammability Standard TB117-2013.

3. SETUP

This Realspace Sensi Task Chair requires no assembly. The chair comes already assembled and ready for immediate use.

4. OPERATING INSTRUCTIONS

4.1. Adjusting Seat Height

To adjust the seat height, locate the lever on the right side, beneath the seat. While seated, pull the lever up to raise the seat. To lower the seat, remain seated and pull the lever up. Release the lever at the desired height to lock it in place.

4.2. Adjusting Tilt and Tilt Lock

The chair features a tilt mechanism that allows the backrest and seat to recline together. To activate the tilt, pull the lever on the left side, beneath the seat, outwards. To lock the chair in an upright position, push the lever inwards.

4.3. Lumbar Support

The chair is equipped with flexible lumbar support integrated into the mesh backrest, designed to conform to your lower back for comfort.

5. MAINTENANCE

5.1. Cleaning

- **Fabric Seat:** For general cleaning, vacuum the fabric regularly to remove dust and loose particles. For spills, blot immediately with a clean, dry cloth. For tougher stains, use a mild fabric cleaner following the product instructions, testing on an inconspicuous area first.
- **Mesh Back:** Wipe the mesh with a damp cloth and mild soap solution. Avoid harsh chemicals that may damage the mesh material.

- **Frame and Base:** Wipe down the chair frame, arms, and base with a soft, damp cloth. Avoid abrasive cleaners.

5.2. General Care

- Periodically check all screws and bolts to ensure they are tight. Retighten if necessary.
- Avoid exposing the chair to direct sunlight for extended periods, as this can cause fading of the fabric and mesh.
- Do not stand on the chair or use it as a ladder.

6. TROUBLESHOOTING

6.1. Chair Squeaks

If the chair squeaks, check all bolts and screws for tightness. Lubricating moving parts with a silicone-based spray may also help, but ensure it does not come into contact with fabric or mesh.

6.2. Difficulty Adjusting Height

Ensure the height adjustment lever is fully engaged. If the gas lift cylinder is not responding, it may need replacement. Contact customer support for assistance.

6.3. Chair Does Not Roll Smoothly

Check the casters for any accumulated debris such as hair or lint. Clean the casters thoroughly. If a caster is damaged, it may need to be replaced.

7. SPECIFICATIONS

Image 7.1: Diagram illustrating the dimensions of the Realspace Sensi chair, including overall width, seat width, seat back height, seat depth, overall height range, seat height range, and base diameter. It also indicates a weight capacity of up to 275 lbs.
