AOGUERBE C01

AOGUERBE Wireless CarPlay Adapter C01 User Manual

Model: C01

1. INTRODUCTION

The AOGUERBE Wireless CarPlay Adapter C01 is designed to convert your vehicle's factory-wired CarPlay system into a wireless experience. This adapter provides a seamless and convenient connection for Apple iPhone users (iOS 10+), allowing access to navigation, music, calls, and voice assistants without the need for a physical cable connection to your car's infotainment system. It is compatible with most vehicles equipped with wired CarPlay from 2017 onwards.

2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- AOGUERBE Wireless CarPlay Adapter C01
- USB-A to USB-C Adapter (for compatibility with various car USB ports)
- User Manual (this document)

3. COMPATIBILITY

The AOGUERBE Wireless CarPlay Adapter C01 is compatible with:

- **Vehicles:** Most cars equipped with factory-wired CarPlay from the year 2017 onwards.
- **Mobile Devices:** Apple iPhones running iOS 10 or later.
- **Car USB Ports:** Supports both USB-A and USB-C ports in your vehicle using the included adapter.

Fit for Cars with Wired Carplay

Support iPhone 6 and later iPhone models with
iOS 10 and above

4. SETUP INSTRUCTIONS

Follow these three simple steps to set up your AOGUERBE Wireless CarPlay Adapter:

1. **Plug In the Adapter:** Connect the AOGUERBE Wireless CarPlay Adapter into your car's USB port that supports wired CarPlay. Use the provided USB-A to USB-C adapter if your car has a USB-C port. The adapter's indicator light will illuminate.
2. **Enable Wi-Fi and Bluetooth on iPhone:** On your iPhone, go to Settings and ensure both Wi-Fi and Bluetooth are turned ON. Do not connect to any Wi-Fi network at this stage.
3. **Pair Bluetooth:** On your iPhone, open Bluetooth settings and search for available devices. Select the device named 'SmartBox-xxxx' (or similar, as displayed on your car's screen) and pair with it. Once paired, your car's screen should automatically switch to the CarPlay interface.

Plug & Play

3 Steps Easy Setup

5. OPERATING INSTRUCTIONS

Once successfully set up, the adapter will automatically connect to your iPhone each time you start your vehicle, provided your iPhone's Bluetooth and Wi-Fi are enabled.

5.1 Automatic Reconnection

After the initial pairing, the adapter is designed to automatically reconnect to your iPhone within approximately 3 seconds when you enter your vehicle, ensuring a hassle-free experience.

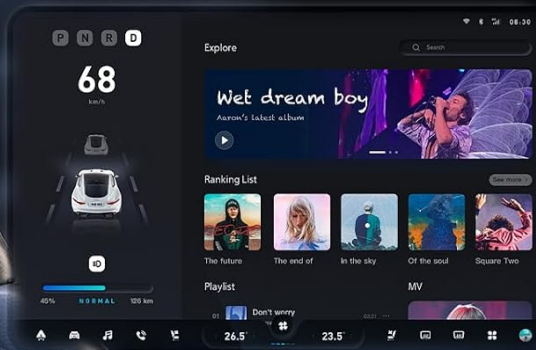

Image 5.1: Illustration of the automatic reconnection feature when entering the car.

5.2 CarPlay Functionality

The adapter enables full access to CarPlay features on your car's display, including:

- Navigation (Maps)
- Music and Audio Playback
- Phone Calls
- Siri Voice Assistant
- Calendar and other compatible applications

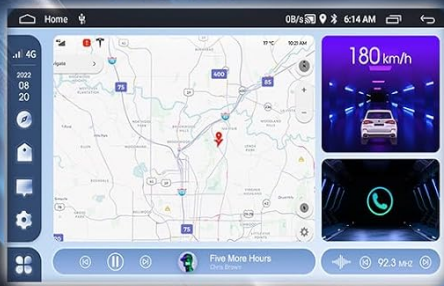

Support All Original Carplay APP

Music

Siri

Map

Call

5.3 Control Methods

You can interact with CarPlay using your vehicle's original control methods:

- **Touchscreen:** Directly interact with the car's display.
- **Knob Control:** Use your car's rotary knob or joystick.
- **Steering Wheel Controls:** Utilize buttons on your steering wheel for audio, calls, and voice commands.
- **Voice Assistant (Siri):** Activate Siri for hands-free control by saying "Hey Siri" or pressing the voice command button.

6. MAINTENANCE

The AOGUERBE Wireless CarPlay Adapter C01 requires minimal maintenance. To ensure optimal performance and longevity:

- Keep the adapter clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the adapter to extreme temperatures, direct sunlight, or moisture.
- Handle the adapter and its cable gently to prevent damage to the connectors.
- Ensure the adapter is securely plugged into the USB port to prevent accidental disconnections.

7. TROUBLESHOOTING

If you encounter issues with your AOGUERBE Wireless CarPlay Adapter, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Adapter not connecting or frequently disconnecting.	Weak signal, incorrect pairing, car USB port issue, phone settings.	◦ Ensure your iPhone's Wi-Fi and Bluetooth are both ON. ◦ Forget the device from your iPhone's Bluetooth settings and re-pair. ◦ Try a different USB port in your car, if available. ◦ Restart your iPhone and the car's infotainment system. ◦ Ensure the adapter is firmly plugged in.
Audio cutting out or lagging.	Interference, phone processing, software issue.	◦ Check for other active Bluetooth or Wi-Fi devices that might cause interference. ◦ Ensure your iPhone's operating system is up to date. ◦ Restart the adapter by unplugging and re-plugging it.
CarPlay interface not appearing on screen.	Incorrect connection, car not recognizing adapter.	◦ Verify that your car supports wired CarPlay and that the USB port is functional for data transfer. ◦ Ensure the adapter's indicator light is on. ◦ Follow the setup steps carefully, especially the Bluetooth pairing.
