

Premium 2 Raspberry

Premium 2 Raspberry User Manual

Model: Premium 2 Raspberry | Brand: Generic

INTRODUCTION

The Premium 2 Raspberry is an advanced personal massager designed for enhanced pleasure and comfort. Featuring innovative Pleasure Air Technology, it provides gentle, non-contact stimulation through air vibrations. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your device.

PACKAGE CONTENTS

- Premium 2 Raspberry Device
- Charging Cable
- Extra Stimulator Head (two sizes included)
- User Manual (this document)

SETUP

Charging the Device

1. Before first use, fully charge your Premium 2 Raspberry.
2. Locate the charging port on the device.
3. Connect the provided charging cable to the device and a suitable USB power source.
4. A full charge provides approximately 4 hours of runtime.

Attaching the Stimulator Head

1. Your Premium 2 Raspberry comes with two sizes of stimulator heads. Choose the one that provides the most comfortable fit for your body.
2. Gently align the chosen stimulator head with the device's opening.
3. Press firmly until it clicks securely into place. Ensure it is properly seated to prevent air leakage during use.

OPERATING INSTRUCTIONS

Basic Operation

1. **Power On/Off:** Press and hold the power button for 2 seconds to turn the device on or off.
2. **Smart Silence Technology:** The device will only begin to operate when the stimulator head makes contact with your skin. When removed from skin, it will enter standby mode to conserve battery and reduce noise.
3. **Adjusting Intensity:** Use the '+' and '-' buttons to cycle through the 14 available intensity levels. Start with a low setting and gradually increase to find your preferred level.

Pleasure Air Technology

The Premium 2 Raspberry utilizes Pleasure Air Technology to provide indirect clitoral stimulation. Position the stimulator head over the desired area without direct contact. The gentle air vibrations will create a unique suction and massage sensation.

Autopilot Mode

To activate Autopilot mode, press the dedicated Autopilot button. In this mode, the device will automatically alternate between various intensity levels, offering a dynamic and unpredictable experience. Press the button again to exit Autopilot mode.

Waterproof Use (IPX7)

The Premium 2 Raspberry is IPX7 waterproof, meaning it can be submerged in up to 1 meter of water for 30 minutes. It is safe for use in baths, showers, or other wet environments. Ensure the charging port

cover is securely closed before water exposure.

MAINTENANCE

Cleaning

1. Always clean your device before and after each use.
2. Wash the stimulator head and the device's exterior with warm water and a mild, toy-safe soap or a specialized toy cleaner.
3. Rinse thoroughly with clean water.
4. Dry completely with a lint-free cloth before storing.
5. Do not use alcohol, petroleum-based cleaners, or abrasive materials, as these can damage the silicone.

Storage

- Store the device in a clean, dry, and cool place, away from direct sunlight and extreme temperatures.
- Keep it separate from other toys made of different materials to prevent material degradation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Battery is depleted.	Charge the device fully.
Device turns off unexpectedly.	Low battery or Smart Silence activated.	Recharge the device. Ensure continuous skin contact during use to prevent Smart Silence from activating.
Weak or no air vibrations.	Stimulator head not properly attached or device not making full contact with skin.	Ensure the stimulator head is securely attached. Adjust position to ensure full contact with skin.
Device not charging.	Faulty cable or power source.	Try a different USB cable or power adapter. Ensure the charging port is clean and free of debris.
