- Fluted Drawer Assembly
- Hardware Pack (screws, dowels, cam locks, drawer slides, etc.)

Assembly Instructions

Assembly is straightforward and typically takes about 30 minutes. Follow these steps carefully:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface (like a rug or blanket) to prevent scratches. Identify each part using the provided parts list in your hardware pack.
2. **Attach Legs:** Locate the attachment points on the underside of the main table body. Securely attach the five solid wood legs to these points using the provided screws and assembly tool. Ensure each leg is firmly tightened but do not overtighten.
3. **Insert Drawer:** Gently slide the pre-assembled fluted drawer into its designated compartment. Ensure the drawer slides smoothly along its tracks. If the drawer is not pre-assembled, follow the specific instructions in your hardware pack for drawer assembly and slide installation before inserting.
4. **Final Check:** Once all components are assembled, carefully lift the table and place it upright. Gently rock the table to ensure it is stable and all connections are secure. Adjust the legs if necessary to ensure even balance.
