Onaneag P110

Onaneag P110 Smart Watch User Manual

Model: P110

Introduction

The Onaneag P110 Smart Watch is a versatile fitness tracker designed for men, offering a robust set of features including call making/answering, comprehensive health monitoring, and a wide array of sports modes. Its military-grade durability ensures performance in various environments, making it an ideal companion for daily use and outdoor activities. This manual provides detailed instructions to help you set up, operate, and maintain your smart watch.

Setup

A: Connecting the Smart Watch via FitCloudPro App

1. **Turn on Bluetooth:** Ensure the Bluetooth function on your mobile phone is enabled.
2. **Download FitCloudPro App:** Open the Google Play Store (for Android) or the App Store (for iOS) on your phone. Search for "FitCloudPro" and download the application.
3. **Connect Device:** Open the FitCloudPro app. Tap on "Please connect device" or a similar option, then select "Select device." Locate and select "P110" from the list of available devices to initiate the binding process.

B: Enabling Answer/Call Functionality

1. **Pairing Request:** After selecting "P110" to connect, a pairing request will appear on your mobile phone's system. Select "Pair" to confirm the connection.
2. **Activate Call Bluetooth:** On the watch, locate and turn on the call Bluetooth switch. This is necessary for making

calls and playing media sound directly through the watch.

3. **Grant Permissions:** In your phone's settings, navigate to the system Bluetooth settings. Find "P110" and ensure all necessary permissions are enabled for the watch to function correctly, especially for call features.
4. **Ready for Calls:** Once these steps are completed, your watch is connected and ready to answer or make calls at any time. If the call function is not needed, it can be turned off to conserve battery life.

Operating the Smart Watch

Bluetooth Call and Message Reminders

The P110 Smart Watch features a built-in high-fidelity speaker and noise reduction microphone, allowing you to make and answer calls directly from your wrist. You can also receive notifications for SMS, WhatsApp, Facebook, Twitter, and other social media messages. This ensures you stay connected without needing to constantly check your phone.

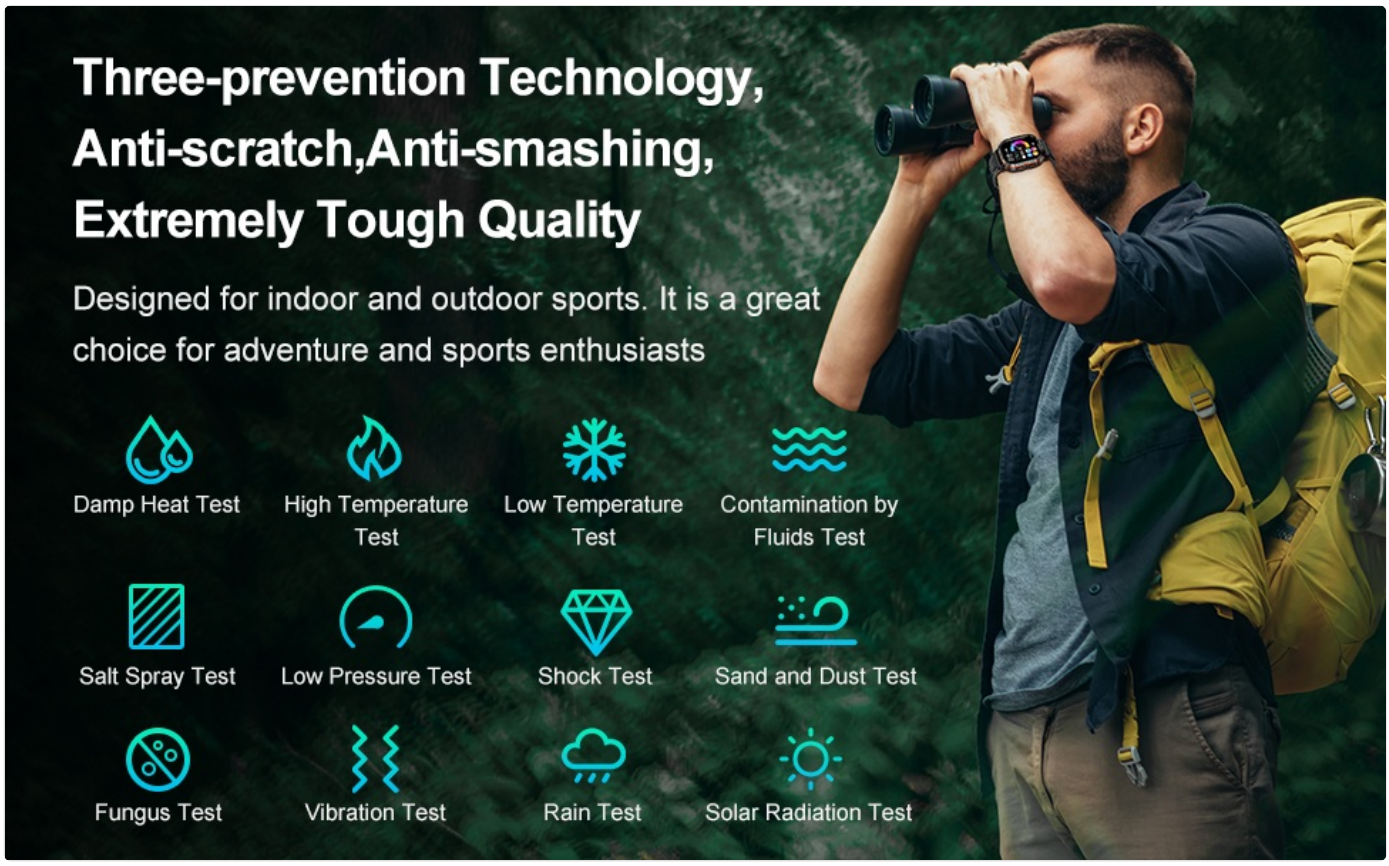

Figure 3: Illustration of the Bluetooth call and message notification capabilities.

Health Monitoring

The smart watch is equipped with advanced sport optical sensors for accurate health data collection. It monitors your heart rate, blood oxygen (SpO2) levels, and sleep patterns (deep sleep, light sleep, and awakening). This data helps you understand your health status and make informed adjustments to your lifestyle.

Figure 5: Sleep tracking display, showing deep and light sleep.

Fitness Tracking and Sports Modes

The P110 accurately tracks your steps, distance, and calories burned throughout the day. It supports over 120 sports modes, including running, cycling, badminton, and hiking, providing detailed insights into your activity. You can review your exercise data (time, average heart rate, distance, steps, calories) through the watch or the connected app to optimize

your fitness plan.

Figure 6: Overview of the 120+ sports modes and activity tracking.

Additional Functions

The smart watch includes a variety of practical features to enhance your daily life:

- **Camera Control:** Remotely control your phone's camera from your watch.
- **Music Playback/Control:** Manage music playback on your phone directly from your wrist.
- **Weather Information:** Get real-time weather updates.
- **Alarm Clock:** Set multiple alarms.
- **Stopwatch & Timer:** Utilize precise timing functions.
- **Sedentary Reminder:** Receive alerts to encourage movement after periods of inactivity.
- **AI Voice Assistant:** Use voice commands for various tasks (e.g., setting alarms, checking weather).

Maintenance

Water Resistance (IP68)

The P110 Smart Watch is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. You can wear it during daily activities such as washing hands, in the rain, or during workouts. However, it is not recommended for hot water baths, saunas, or diving, as steam and high temperatures can affect the seal.

Figure 9: IP68 waterproof rating illustration.

Cleaning and Care

- Regularly clean the watch screen and strap with a soft, dry cloth.
- If the watch comes into contact with sweat, soap, or other liquids, rinse it with clean water and dry it thoroughly.
- Avoid exposing the watch to extreme temperatures or direct sunlight for prolonged periods.

Charging

The watch is equipped with a long-lasting battery, typically providing 7-15 days of use on a single charge, depending on usage. Use the provided charging cable to charge the device. Ensure the charging pins align correctly with the watch's charging contacts.

Troubleshooting

Problem	Possible Cause	Solution
Watch not connecting to phone	Bluetooth off, app not running, watch not discoverable, incorrect pairing steps.	Ensure phone Bluetooth is on. Restart both watch and phone. Re-open FitCloudPro app. Follow connection steps in Section 2 carefully.
Cannot make/answer calls	Call Bluetooth off on watch, insufficient phone permissions.	Check the call Bluetooth switch on the watch. Verify phone permissions for the P110 in your phone's settings.

Problem	Possible Cause	Solution
Inaccurate health data (HR, SpO2)	Watch not worn correctly, excessive movement during measurement, sensor obstruction.	Ensure the watch is snug on your wrist (not too tight or loose). Remain still during measurements. Clean the sensor on the back of the watch.
Short battery life	Frequent use of power-intensive features (calls, GPS), high screen brightness.	Reduce screen brightness. Limit continuous heart rate monitoring. Turn off call function if not needed. Charge fully before use.
Notifications not received	App notification permissions disabled, watch not connected.	Check notification settings in FitCloudPro app and phone system settings. Ensure watch is connected via Bluetooth.

For further assistance, refer to the FitCloudPro app's help section or contact customer support.
