anyloop ALW9

anyloop Smart Watch ALW9 User Manual

Model: ALW9

1. PRODUCT OVERVIEW

The anyloop Smart Watch ALW9 is a versatile fitness tracker and communication device designed for both men and women. Featuring a vibrant AMOLED display, built-in GPS, and comprehensive health monitoring capabilities, it seamlessly integrates with iOS and Android devices to enhance your daily life and fitness journey.

2. GETTING STARTED: INITIAL SETUP

2.1. Charging the Device

Before first use, fully charge your anyloop Smart Watch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a compatible power adapter (not included). A full charge typically takes approximately 2 hours. The battery indicator on the watch screen will show charging progress.

2.2. Powering On/Off

To power on the watch, press and hold the side button until the screen illuminates. To power off, navigate to the settings menu on the watch, select 'System' or 'Power Off', and confirm.

2.3. App Installation and Pairing

To unlock the full potential of your smartwatch, download the **Fitbeing** app from your smartphone's app store (iOS App Store or Google Play Store). Once installed:

1. Open the Fitbeing app and create an account or log in.
2. Ensure Bluetooth is enabled on your smartphone.
3. In the app, navigate to 'Device' or 'Add Device' and select your ALW9 Smart Watch from the list of nearby devices.
4. Follow the on-screen prompts to complete the pairing process. A confirmation message will appear on both your watch and phone.

3. OPERATING THE SMART WATCH

3.1. Display and Customization

The ALW9 features a 1.78-inch AMOLED display with a resolution of 368x448 pixels and a 60 FPS refresh rate, providing clear and vivid visuals. The watch supports an Always-On display mode for continuous time visibility.

1.78" AMOLED Screen

AMOLED screens offer a superior visual experience compared to conventional LCDs, providing a wider viewing angle, enhanced color reproduction and crisper, more vivid images.

3.3. Health Monitoring

The ALW9 Smart Watch is equipped with advanced sensors for comprehensive health tracking:

- **Heart Rate Monitoring:** Provides real-time heart rate data.
- **Blood Oxygen Monitoring:** Measures blood oxygen levels.
- **Sleep Tracking:** Automatically monitors sleep stages (awake, light, deep, REM) and provides detailed analysis for improved sleep quality.
- **Stress Level Monitor:** Helps you understand and manage your stress throughout the day.

3.4. Fitness Tracking and GPS

Track your workouts and daily activities with precision. The watch includes a built-in GPS for accurate route tracking during outdoor activities. It monitors calories burned, steps taken, distance covered, and exercise duration.

Know better about your workouts

Easily track your fitness progress by monitoring calories burned, steps taken, and heart rate, allowing you to plan your workouts effectively!

The ALW9 supports over 30 sport modes, including outdoor running, cycling, swimming, hiking, and more. Its 30-meter waterproof rating allows for use during swimming and other water activities.

30 Sport Modes (Built-in GPS)

The built-in GPS can automatically measure the distance and route for various sports, promoting health awareness and exercise habits.

Waterproof up to 30 metres

The exceptional 3ATM water resistance enables the watch to endure splashes from showering or washing your face, while its 30-meter water resistance ensures safety during water activities like swimming.

5. CARE AND MAINTENANCE

- **Cleaning:** Regularly clean your watch and strap with a soft, dry cloth. If necessary, use a slightly damp cloth and mild soap, then rinse and dry thoroughly.
- **Water Resistance:** The watch is 30M waterproof. It is suitable for shallow-water activities like swimming. Avoid hot water, steam, or prolonged submersion in deep water. Do not press buttons underwater.
- **Avoid Chemicals:** Do not expose the watch to strong chemicals, detergents, or solvents, as

these can damage the materials.

- **Temperature:** Avoid exposing the watch to extreme temperatures (very hot or very cold) for extended periods.
- **Storage:** When not in use for a long time, store the watch in a cool, dry place.

6. TROUBLESHOOTING COMMON ISSUES

- **Watch not turning on:** Ensure the watch is fully charged. If it still doesn't turn on, try resetting it by pressing and holding the side button for 10-15 seconds.
- **Unable to pair with phone:** Make sure Bluetooth is enabled on your phone and the watch is within range. Restart both the watch and your phone, then try pairing again. Ensure the Fitbeing app is updated to the latest version.
- **Inaccurate health/fitness data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors on the back of the watch. Update the Fitbeing app and watch firmware if available.
- **Notifications not appearing:** Check notification permissions for the Fitbeing app in your phone's settings. Ensure the watch is connected via Bluetooth and 'Do Not Disturb' mode is not active on the watch.
- **Short battery life:** Reduce screen brightness, disable Always-On display, limit frequent heart rate monitoring, and turn off unnecessary notifications to extend battery life.
