6. MAINTENANCE

- **Cleaning:** Use a soft, damp cloth to clean the device. Avoid harsh chemicals or abrasive materials.
- **Software Updates:** Regularly check for and install software updates to ensure optimal performance, security, and access to new features. Go to Settings > System > System update.
- **Battery Care:** To prolong battery life, avoid extreme temperatures and do not leave the device fully charged or fully discharged for extended periods.

7. TROUBLESHOOTING

Issue	Possible Solution
Device does not power on	Ensure the battery is charged. Connect to the charger for at least 30 minutes. If still unresponsive, perform a force restart by holding the Power button for 10-15 seconds.
Poor network signal	Check if SIM card is properly inserted. Try restarting the device. Ensure you are in an area with network coverage.
Apps crashing or freezing	Clear the cache of the problematic app (Settings > Apps > [App Name] > Storage > Clear cache). Update the app or the phone's operating system.
Battery drains quickly	Reduce screen brightness, disable unused features (Wi-Fi, Bluetooth, GPS), close background apps, and check for power-intensive apps in battery settings.
Touchscreen unresponsive	Restart the device. If the issue persists, consider a factory reset (backup data first).
