HOOBRO BK28BJ01

HOOBRO Wall Mounted Wine Rack 2 Pack

Model: BK28BJ01

INTRODUCTION

Thank you for choosing the HOOBRO Wall Mounted Wine Rack. This 2-pack set (Model BK28BJ01) is designed to offer a practical and elegant storage solution for your wine bottles and stemware. Each rack features a 2-tier design with a metal fence for secure bottle placement and a dedicated holder for wine glasses. This manual provides essential information for safe assembly, installation, operation, and maintenance of your new wine racks.

SAFETY INFORMATION

- Install in strict accordance with the instruction steps provided in this manual.
- Do not place items that exceed the specified weight limit of 40 lb (18.1 kg) per rack.
- Position the product away from fire sources and excessive heat.
- Ensure the wall is suitable for mounting and can support the weight of the racks and their contents.
- Keep small parts and packaging materials away from children.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly.

- 2 x Wall Mounted Wine Rack Units (Engineered Wood Shelf with Metal Frame)

- Assembly Hardware (screws, expansion screws for concrete walls, expansion screws for hollow walls)
- Assembly Tools (e.g., Allen wrench)
- Instruction Manual

SPECIFICATIONS

Brand	HOOBRO
Model Number	BK28BJ01
Color	Black
Material	Engineered Wood, Metal
Product Dimensions (each)	15"L x 5.9"W x 5.5"H (38cm L x 15cm W x 14cm H)
Mounting Type	Wall Mount
Weight Capacity (each)	Up to 40 lb (18.1 kg)
Bottle Capacity (each)	2 standard wine bottles
Glass Capacity (each)	Up to 4 stemware glasses

SETUP AND INSTALLATION

This section outlines the general steps for assembling and mounting your HOOBRO Wall Mounted Wine Racks. Refer to the detailed instruction sheet included in your package for specific diagrams and hardware identification.

Tools Required (Not Included):

- Pencil
- Measuring Tape
- Level
- Drill
- Hammer (for wall anchors)
- Screwdriver (Phillips head recommended)

Installation Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and compare them with the parts list in your included instruction manual. Ensure no parts are missing or damaged.
2. **Assemble the Rack Units:** Follow the step-by-step diagrams in your manual to attach the metal frame components to the engineered wood shelf. Ensure all screws are securely tightened.
3. **Choose Mounting Location:** Select a suitable wall location, considering height, accessibility, and proximity to fire sources. Ensure the wall material (e.g., concrete, drywall) is appropriate for wall mounting.
4. **Mark Drill Points:** Hold the assembled rack against the wall at the desired height. Use a level to ensure it is perfectly horizontal. Mark the positions for the mounting holes with a pencil. Repeat for the second rack if installing both.
5. **Drill Holes:** Using a drill bit appropriate for your wall type and the provided expansion screws, drill holes at the marked positions.
6. **Insert Wall Anchors:** Insert the correct expansion screws (for concrete walls or hollow walls) into the drilled holes. Tap gently with a hammer if necessary until flush with the wall surface.
7. **Mount the Racks:** Align the mounting holes on the back of the wine rack with the installed wall anchors. Insert and tighten the screws to secure the rack firmly to the wall. Do not overtighten.
8. **Verify Stability:** Gently test the stability of the mounted racks to ensure they are securely attached before placing any items on them.

OPERATING INSTRUCTIONS

Once properly installed, your HOOBRO Wall Mounted Wine Racks are ready for use.

- **Placing Wine Bottles:** Carefully place wine bottles on the wooden shelf, ensuring they rest securely against the metal retention bar. The design accommodates standard wine bottle sizes.
- **Hanging Stemware:** Slide the base of your wine glasses into the slots of the metal stemware holder located underneath the shelf. Ensure glasses are stable and do not interfere with bottles above.
- **Utilizing Top Shelf:** The top surface of the wooden shelf can be used for displaying small decorative items, additional bottles, or other bar accessories, provided the total weight does not exceed the 40 lb (18.1 kg) capacity.

MAINTENANCE

Proper care will ensure the longevity and appearance of your wine racks.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the finish.
- **Regular Inspection:** Periodically check all mounting screws and assembly hardware to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Overloading:** Always adhere to the maximum weight capacity of 40 lb (18.1 kg) per rack to prevent damage or instability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Shelf is not level after installation.	Inaccurate marking or drilling during installation.	Remove the rack, re-measure and re-mark drill points using a level. Ensure holes are drilled precisely.
Rack feels unstable or wobbly.	Screws are not fully tightened; incorrect wall anchors used; wall material is too weak; overloaded rack.	Ensure all assembly and mounting screws are securely tightened. Verify that the correct wall anchors were used for your specific wall type. Do not exceed the maximum weight capacity. If the wall is too weak, consider a different mounting location or reinforcement.
Difficulty assembling components.	Parts misaligned; incorrect hardware used; unclear instructions.	Refer to the detailed instruction manual provided with the product. Ensure all parts are correctly oriented and the correct hardware is used for each step. Do not force components together.

WARRANTY AND SUPPORT

For warranty information, product support, or to inquire about replacement parts, please contact HOOBRO customer service directly. Refer to the contact details provided on the product packaging or the official HOOBRO website.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
