## ZIPCODE 64GB

# ZIPCODE 64GB Digital Voice Recorder User Manual

Model: 64GB | Brand: ZIPCODE

## INTRODUCTION

Thank you for choosing the ZIPCODE 64GB Digital Voice Recorder. This device is designed for high-quality audio recording, offering features such as voice activation, noise reduction, and extensive storage capacity. This manual provides detailed instructions to help you set up, operate, and maintain your voice recorder for optimal performance.

## PRODUCT OVERVIEW AND KEY FEATURES

The ZIPCODE 64GB Digital Voice Recorder is a compact and versatile recording device. Its key features include:

- **64GB Memory Capacity:** Stores up to 4800 hours of audio recordings.
- **Voice Activated Recording (VAR/VOX):** Automatically starts and stops recording based on sound detection, saving memory and power.
- **AI Intelligent Noise Reduction:** Equipped with a professional noise cancellation chip for clear audio quality.
- **Long Battery Life:** Up to 40 hours of continuous recording on a single charge.
- **1.44-inch TFT Colour Screen:** Provides clear display for navigation and settings.
- **One-Click Operation:** Simple and intuitive controls for recording and playback.
- **File Playback & Transfer:** Easy connection to PC for managing and transferring audio files.
- **Password Protection:** Secure your recordings from unauthorized access.
- **Low Battery Auto-Save:** Automatically saves recordings before the battery runs out.

## PACKAGE CONTENTS

Please check the package for the following items:

- 1 x ZIPCIDE 64GB Digital Voice Recorder
- 1 x USB-C Charging Cable

- 1 x Wired Headphones
- 1 x User Manual (this document)

## SETUP

### 1. Charging the Device

Before first use, fully charge the voice recorder. Connect the included USB-C cable to the recorder's USB-C port and the other end to a USB power adapter (not included) or a computer's USB port.

- A full charge typically takes approximately 2 hours.
- The battery indicator on the screen will show charging status.
- A fully charged battery provides up to 40 hours of continuous recording.

## 2. Initial Power On/Off

To power on the device, slide the power switch to the 'ON' position. To power off, slide it to the 'OFF' position. The screen will illuminate upon power-on.

## 3. Connecting to a Computer

To transfer or manage files, connect the recorder to your computer using the provided USB-C cable. The device will appear as a removable disk drive. You can then drag and drop files as needed.

Saving time and space

Image: Visual explanation of the voice-activated recording feature, showing how recording pauses and starts based on sound levels, with examples of 7 levels of voice sensitivity.

## 3. Playback

Navigate through your saved recordings using the navigation buttons. Press the **PLAY/PAUSE** button to start or pause playback. You can listen through the built-in speaker or connect the included headphones to the 3.5mm jack.

## 4. File Management

Connect the recorder to a computer to access and manage your audio files. Recordings are typically saved in a designated folder. You can copy, move, or delete files directly from your computer.

- **Deleting Files:** Select the file on the device or computer and choose the delete option.

- **Organizing Files:** Create new folders on the device via your computer to categorize recordings.

## 5. Advanced Settings

Access the device's menu using the **MODE** button to adjust various settings:

- **Date and Time:** Set the correct date and time for accurate file timestamps.
- **Noise Reduction:** Enable or disable the intelligent noise reduction feature.
- **A-B Repeat:** For playback, set start and end points to loop a specific section of an audio file.
- **Password Protection:** Set a password to prevent unauthorized access to your device and recordings.
- **Timed Recording:** Schedule recordings to start at a specific time.
- **Variable Speed Playback:** Adjust playback speed for faster review or detailed listening.

Image: Depiction of A-B Repeat function for detailed playback, Password Protection for device security, and Files Protection with low battery auto-save feature.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or solvents.

- **Storage:** Store the recorder in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.
- **Data Backup:** Regularly back up important recordings to your computer to prevent data loss.

## TROUBLESHOOTING

Problem	Possible Solution
Device does not power on.	Ensure the battery is charged. Connect to a power source and try again. Check if the power switch is fully in the 'ON' position.
Cannot record.	Check if the device has sufficient memory. Ensure the 'REC' button is pressed firmly. The device might be in playback or menu mode.
Poor sound quality.	Ensure the microphone is not covered. Try enabling the noise reduction feature. Record in a quieter environment.
Device not recognized by computer.	Try a different USB port or cable. Restart both the recorder and the computer. Ensure the recorder is powered on when connected.
Voice Activated Recording (VAR) not working as expected.	Adjust the VAR sensitivity level in the settings. A higher sensitivity might be needed for quieter environments.
