ZIPCIDE 64GB

ZIPCIDE 64GB Digital Voice Recorder User Manual

Model: 64GB

Introduction

Thank you for choosing the ZIPCIDE 64GB Digital Voice Recorder. This device is designed for high-fidelity audio recording with advanced features such as intelligent noise cancellation and voice activation. Please read this manual carefully to ensure proper use and to maximize the performance of your recorder.

What's in the Box

Please check the package contents upon unboxing:

- 1x ZIPCIDE Digital Voice Recorder
- 1x Headphone Cable
- 1x USB-C Charging Cable

- 1x C-to-C Cable
- 1x User Manual

Product Overview

The recorder features a compact design with intuitive controls and a 1.44-inch color TFT screen for easy navigation. It includes dual microphones for 360° surround sound pickup and a DSP chip for intelligent noise reduction.

Setup

1. Initial Charging

Before first use, fully charge the device. Connect the recorder to a USB power adapter (not included) or a computer using the provided USB-C charging cable. The device fully recharges in approximately 2 hours.

Image: Recorder screen showing charging status and battery specifications.

2. Power On/Off

- To power on: Press and hold the Power button until the screen lights up.
- To power off: Press and hold the Power button until the screen turns off.

3. Language Settings

Navigate through the menu to 'Settings' and then 'Language' to select your preferred language. The device supports multiple languages.

Operating Instructions

1. One-Touch Recording

To start recording quickly, simply slide the 'REC' button or press the dedicated record button. Press it again to save the recording. This allows for immediate audio capture without missing details.

3. Playback

To play recordings, navigate to the 'Recordings' folder. Select the desired file and press the 'PLAY/PAUSE' button. You can adjust the volume using the side buttons.

4. File Management & Transfer

Connect the recorder to your computer using the provided USB-C cable. The device will appear as a removable disk. You can then drag and drop files to transfer them to your computer.

5. Advanced Functions

- **A-B Repeat:** Allows you to loop a specific segment of an audio file.
- **Password Protection:** Set a password to prevent unauthorized access to your recordings.
- **Timed Recording:** Schedule recordings to start and stop at specific times.
- **Automatic Shutdown:** Configurable auto-power off to save battery.
- **Line-in Recording:** Connect external audio sources via a 3.5mm audio cable (not included) for direct recording.
- **Recording Monitoring:** Listen to your sound while recording to make adjustments.

- **Variable Speed Playback:** Adjust playback speed for easier transcription or review.

Maintenance

1. Battery Care

- Avoid fully discharging the battery frequently.
- Charge the device regularly, even if not in use, to maintain battery health.
- Store the device in a cool, dry place when not in use for extended periods.

2. Cleaning

- Use a soft, dry cloth to clean the exterior of the device.
- Do not use liquid cleaners or solvents, as they may damage the device.
- Keep the microphone and speaker grilles free from dust and debris.

3. Data Backup

Regularly back up your important recordings to a computer or cloud storage to prevent data loss.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Device does not power on.	Low battery; device frozen.	Charge the device for at least 30 minutes. If still unresponsive, perform a reset (refer to manual for reset pinhole location, if any, or hold power button for 10-15 seconds).
Cannot record.	Insufficient storage; recording mode not selected; microphone blocked.	Check available memory. Ensure you are in recording mode. Clear any obstructions from the microphone.
Poor recording quality.	Distance from source; high background noise; incorrect settings.	Move closer to the sound source. Enable noise cancellation. Adjust microphone sensitivity settings.
Files not transferring to PC.	Faulty cable; incorrect USB mode; driver issue.	Try a different USB-C cable. Ensure the recorder is in data transfer mode (if prompted). Try connecting to a different USB port or computer.
