

GOBOULT AmpVault v10

Boult AmpVault v10 Powerbank User Manual

Model: AmpVault v10 | Brand: GOBOULT

INTRODUCTION

The Boult AmpVault v10 is a high-capacity 10,000 mAh power bank designed to provide portable charging for your electronic devices. Featuring 22.5W fast charging, multiple output ports, and an LED digital display, it ensures your devices remain powered throughout the day. This manual provides essential information on how to set up, operate, maintain, and troubleshoot your power bank.

PRODUCT OVERVIEW

Key Features

- **10,000 mAh Capacity:** Provides multiple charges for smartphones and other small devices.
- **22.5W Fast Charging:** Delivers rapid power to compatible devices.
- **Triple Output Ports:** Includes USB-A and Type-C ports for versatile charging.
- **LED Digital Display:** Shows real-time battery percentage.
- **Multiple Safety Protections:** Built-in overcharge, over-voltage, and short-circuit protection.
- **Compact and Lightweight Design:** Easy to carry for on-the-go use.

Components

Familiarize yourself with the main components of your Boult AmpVault v10 Powerbank:

- **USB-A Output Port:** For charging devices with a standard USB cable.
- **Type-C Input/Output Port:** For charging the power bank or charging devices with a Type-C cable.
- **Micro USB Input Port:** For charging the power bank with a Micro USB cable.
- **LED Digital Display:** Indicates the remaining battery percentage.
- **Power Button:** Activates the LED display and initiates charging.

SETUP

Initial Charging of the Power Bank

1. Upon first use, fully charge your Boulton AmpVault v10 Powerbank.
2. Connect the power bank to a power source (e.g., wall adapter, computer USB port) using a compatible USB-C or Micro USB cable.
3. The LED digital display will show the charging progress, indicating the battery percentage.
4. Once the display shows 100%, the power bank is fully charged and ready for use.

Premium metallic finish

OPERATING INSTRUCTIONS

Charging Your Devices

1. Connect your device (smartphone, tablet, smartwatch, earbuds) to the power bank using a compatible charging cable.
2. Use either the USB-A output port or the Type-C input/output port.
3. The power bank will automatically begin charging your device. If not, press the power button once to activate charging.
4. The LED display will show the remaining battery percentage of the power bank.
5. Disconnect your device once it is fully charged.

Note: For optimal fast charging, ensure your device and cable support 22.5W fast charging.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the power bank. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, fully charge and discharge the power bank at least once every three months if not in regular use.
- **Avoid Drops:** Do not drop or subject the power bank to strong impacts, as this can damage internal components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Power bank not charging	Cable issue, power source issue, power bank depleted.	Try a different charging cable. Ensure the power source is active. Check if the power bank is completely drained; it may take a few minutes to show charging.
Device not charging from power bank	Power bank low on charge, cable issue, device not compatible, power button not pressed.	Ensure power bank is charged. Try a different charging cable. Press the power button once to initiate charging.
Slow charging	Cable not fast-charging compatible, device not fast-charging compatible, multiple devices charging simultaneously.	Use a fast-charging compatible cable and device. Charging multiple devices may reduce individual charging speed.
LED display not working	Power bank off, fault.	Press the power button. If the issue persists, contact customer support.
