## Nashi Ovian SE F

# Nashi Ovian SE F Smart Japanese Toilet User Manual

## 1. INTRODUCTION

Thank you for choosing the Nashi Ovian SE F Smart Japanese Toilet. This advanced toilet system integrates innovative features for enhanced hygiene, comfort, and convenience. This manual provides essential information for the safe installation, operation, and maintenance of your new smart toilet. Please read it thoroughly before use and retain it for future reference.

## 2. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Ensure the product is installed by a qualified professional to prevent electrical or plumbing hazards.
- Do not immerse the product in water or spray water directly onto electrical components.
- Keep children and individuals with reduced physical, sensory, or mental capabilities away from the product unless supervised.
- Use only the specified power supply (220V) and ensure the electrical outlet is properly grounded.
- Do not attempt to repair or modify the product yourself. Contact qualified service personnel for assistance.
- Disconnect power before performing any maintenance or cleaning.

## 3. SETUP AND INSTALLATION

The Nashi Ovian SE F Smart Japanese Toilet is designed for floor mounting. Proper installation requires a cold water inlet and an electrical outlet.

### 3.1 Pre-installation Requirements

- **Power Supply:** 220V, Type F plug, 1.5m power cable.
- **Water Supply:** Cold water inlet required. The water hose is 51 cm long.

- **Drainage:** Floor drain outlet.
- **Dimensions:** L58 x W38 x H45 cm.
- **Weight:** Approximately 38 kg.

**Note:** Professional installation is recommended. The product package does not include installation services by Nashi certified installers.

### 3.2 Filter Installation

The Ovian SE F includes a washable metal mesh filter for maximum hygiene. This filter should be installed in the water supply line to purify the water entering the toilet system.

#### **4.2 Heated Seat and Integrated Deodorizer**

The toilet features a heated seat with 4 temperature levels and an occupancy sensor. An integrated bamboo charcoal deodorizer eliminates odors, maintaining bathroom freshness.

#### **4.3 Automatic Lid and Seat Operation**

The toilet includes an automatic lid and seat opening and closing system. The automatic flush system is designed for quiet operation.

#### **4.4 Cyclonic Flushing System**

The innovative cyclonic system and Rimless technology improve cleaning efficiency. Water flows cleanly, effectively, and ecologically without splashing.

#### **4.5 Enhanced Autonomy**

The integrated bidet promotes proper hygiene for all family members, including children and the elderly, enhancing their independence. The toilet seat and lid are soft-closing to prevent shocks and noise.

### **5. MAINTENANCE**

Regular maintenance ensures the longevity and optimal performance of your Nashi Ovian SE F Smart Japanese Toilet.

## 5.1 Self-Washing and UV Sterilization

The retractable stainless steel injector features a UV light head that sterilizes and disinfects the toilet when the lid is closed. The injector has 5 positions and performs an oscillating movement for better water distribution and cleaning. The Ovian SE also includes a dense anti-splash foam device that eliminates the need for a brush and perfumes the room with each use.

## 5.2 Water Filter Maintenance

The washable metal mesh filter helps purify the water, removing viruses, bacteria, chlorine, and other chemicals, which contributes to skin care and extends the life of the equipment. The filter has a lifespan of up to 6 months and should be cleaned or replaced periodically.
