## AIRTHEREAL M1

# AIRTHEREAL M1 Mattress Vacuum Cleaner Instruction Manual

Model: M1 | Brand: AIRTHEREAL

## INTRODUCTION

Thank you for choosing the AIRTHEREAL M1 Mattress Vacuum Cleaner. This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your device. Please read it thoroughly before first use and keep it for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- Do not use outdoors or on wet surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use with damaged cord or plug. If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce air flow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not use without dust cup and/or filters in place.
- Turn off all controls before unplugging.
- Use extra care when cleaning on stairs.
- Store your appliance indoors in a cool, dry area.

## PRODUCT OVERVIEW

The AIRTHEREAL M1 Mattress Vacuum Cleaner is designed for deep cleaning mattresses, upholstery, and other fabric surfaces. It features advanced technologies to effectively remove dust, allergens, and mites.

## Key Features:

- **Powerful Performance:** 400W motor with 14 KPa suction.
- **Dual Brushroll Rotation:** 80,000 RPM high-frequency vibration for deep cleaning.
- **Multi-Function Technology:** UV-C light for sterilization, ultrasonic waves, and heating tech (up to 140°F).
- **Smart Dust Sensor:** Automatically adjusts suction based on dust levels.
- **Efficient Filtration:** 0.25L visible dual dust cup with 3-stage filtration (Sponge, HEPA, Stainless Steel filters).
- **User-Friendly Design:** Lightweight (4.85 lbs), 16.4 ft power cord, two adjustable suction settings (MAX and AUTO).

## SETUP

### Unboxing and Initial Inspection:

1. Carefully remove all components from the packaging.
2. Check for any signs of damage during transit. If damaged, do not use and contact customer support.
3. Ensure all included components are present: M1 Mattress Vacuum Cleaner, cleaning brush, and user manual.

## Power Connection:

- The M1 is a corded electric device. Plug the power cord into a standard AC120V 60Hz electrical outlet.
- Ensure the power cord is not tangled or obstructed during operation.

## OPERATING INSTRUCTIONS

### Powering On/Off:

- To power on, press the power button located on the handle.
- To power off, press the power button again.

### Suction Modes:

The M1 offers two suction settings:

- **AUTO Mode:** The device's smart dust sensor detects dust levels and automatically adjusts suction power. The "Dust Mite" light is blue by default and turns red when significant dust is detected, increasing suction. It returns to blue when the area is clean.
- **MAX Mode:** Provides maximum suction for deep cleaning areas with dense dust and skin flakes.

## TWO SUCTION MODES

Image: The AIRTHEREAL M1 Mattress Vacuum Cleaner illustrating its two suction modes: AUTO for automatic adjustment based on dust levels, and MAX for deep cleaning.

### Advanced Cleaning Technologies:

- **UV-C Light:** The UVC light activates automatically upon contact with surfaces for enhanced sanitation. It turns off when lifted to ensure user safety.
- **Heating Tech:** The built-in heating feature reaches up to 140°F to eliminate dust mites and moisture.
- **Ultrasonic Waves:** Combines with other technologies for comprehensive cleaning.

# DUST SENSOR & VISIBLE DUST CUP

## SMART DUST SENSOR

Real-time Monitoring

## VISUAL DUAL DUST CUP

Long-lasting, Clog-resistant

## Usage:

- Place the vacuum cleaner flat on the surface to be cleaned (e.g., mattress, sofa).
- Gently glide the device back and forth across the surface. The dual brushrolls and high-frequency vibration will dislodge embedded dust and debris.
- Observe the dust sensor light in AUTO mode to monitor cleaning effectiveness.

## MAINTENANCE

### Emptying the Dust Cup:

- The 0.25L dust bin is designed for easy emptying.
- Locate the release button for the dust cup, typically near the handle.
- Press the button and detach the dust cup.
- Empty the contents into a trash receptacle.

## 80000 RPM VIBRATION

Double roller brushes with high-frequency vibration to dislodge dust deep in fabrics

### Cleaning the Filters:

- The device features a 3-stage filtration system: Sponge Filter, HEPA Filter, and Stainless Steel Filter.
- Remove the filters from the dust cup.
- Tap off loose debris from the filters.
- Rinse the filters under running water. Ensure they are completely dry before reinserting to prevent damage and maintain suction power.

### Brushroll Maintenance:

- Regularly check the dual brushrolls for tangled hair or debris.
- Use the provided cleaning brush or scissors to carefully remove any obstructions.
- Ensure the brushrolls spin freely after cleaning.

### TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on	Not plugged in; Power outlet malfunction; Power button not pressed.	Ensure plug is securely in outlet; Test outlet with another device; Press power button firmly.
Low suction power	Dust cup full; Filters clogged; Brushrolls obstructed.	Empty dust cup; Clean or replace filters; Remove debris from brushrolls.
UV-C light not activating	Device not in contact with surface; Sensor malfunction.	Ensure the device is pressed firmly against the cleaning surface; Contact support if issue persists.
Dust sensor light always red/blue	Sensor dirty; Consistent high/low dust levels.	Clean the dust sensor window; Continue cleaning until light turns blue (if red).

## SPECIFICATIONS
