BrickBling Classic Version Light

BrickBling LED Light Kit Instruction Manual for LEGO Jabba's Sail Barge 75397 (Classic Version)

Model: Classic Version Light

1. PRODUCT OVERVIEW

This BrickBling LED Light Kit is designed to enhance your LEGO Jabba's Sail Barge (LEGO Set 75397) by adding dynamic lighting. This kit transforms your static model into a vibrant display piece, bringing the iconic scene to life with carefully placed LED lights. Please note that this product includes only the light kit and does not come with the LEGO model itself.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

- Keep all small components out of reach of young children.
- Ensure proper handling of wires to prevent damage or short circuits.
- This product operates on a 5V low voltage DC adapter. Do not use power sources with higher voltage.
- Do not attempt to modify the LED lights or wiring, as this may cause damage to the product or pose a safety risk.

3. PACKAGE CONTENTS

Before beginning installation, please verify that all components listed below are present in your package. If any parts are missing or damaged, please contact BrickBling customer support.

Image: Detailed view of the BrickBling LED Light Kit components.

- LED Light Kits (various individual lights)
- Light Strips (Warm White and Red)
- Connecting Cables (10CM, 30CM, 50CM)
- Expansion Boards (1x6, 1x2, 5x4)
- Power Cable (USB compatible)
- Electronic Instruction Guide (access details below)

4. SETUP & INSTALLATION

This light kit is designed for easy installation. A detailed electronic instruction manual, including both PDF and video guides, is provided online to assist you step-by-step. There is no paper manual included in the package.

Accessing the Electronic Manual:

1. Locate the website address printed in the small booklet included with your package.
2. Visit the website and enter the characters from the label on the back of your package.
3. Follow the on-screen instructions to access the PDF and video installation guides specific to your light kit.

No Paper Manual

- Log in the website printed in the booklet coming with package
- Type all the characters of the label on the back of the package
- Get our PDF and Video Instructions

Installation Video Guide:

Your browser does not support the video tag.

Video: An official BrickBling video demonstrating the lighting effects of the kit on the LEGO Jabba's Sail Barge model. This video provides a visual overview of the installed lights and their appearance.

5. OPERATING INSTRUCTIONS

Once the light kit is fully installed according to the electronic manual, connect the provided USB power cable to a compatible 5V USB power source (e.g., a USB wall adapter, power bank, or computer USB port). The lights will illuminate, bringing your LEGO Jabba's Sail Barge to life.

- Ensure the power source provides stable 5V output.
- Avoid bending or pulling the wires excessively during operation.
- Disconnect power when not in use for extended periods.

6. MAINTENANCE

To ensure the longevity and optimal performance of your BrickBling LED Light Kit, follow these simple maintenance guidelines:

- **Cleaning:** Gently dust the LED lights and wires with a soft, dry cloth. Avoid using liquid cleaners directly on the electrical components.
- **Storage:** If disassembling the kit for storage, carefully disconnect all wires and store components in a dry, cool place away from direct sunlight.
- **Wire Management:** Periodically check wires for any signs of wear or damage. Ensure they are not pinched or stretched.

7. TROUBLESHOOTING

If you encounter any issues with your light kit, please refer to the following common troubleshooting steps:

- **Lights Not Turning On:**

- Check if the USB power cable is securely connected to both the light kit and the power source.
- Ensure the power source is functional and providing 5V output.
- Verify that all individual light connectors are properly seated into the expansion boards.
- Inspect wires for any visible damage or breaks.

- **Some Lights Not Working:**

- Check the connection of the specific non-working light to its expansion board.
- Ensure the wire for that light is not damaged.
- If using multiple expansion boards, ensure they are correctly connected to each other and the main power source.

- **Flickering Lights:**

- Ensure the power supply is stable. Try a different USB power source.
- Check for loose connections at any point in the circuit.

If these steps do not resolve the issue, please consult the detailed electronic manual or contact BrickBling customer support for further assistance.
