

ieGeek ZY C2

ieGeek Solar Security Camera User Manual

Model: ZY C2

1. INTRODUCTION

Thank you for choosing the ieGeek Solar Security Camera. This manual provides essential information for the proper installation, operation, and maintenance of your new security system. Please read this manual thoroughly before use and retain it for future reference.

Product Overview

The ieGeek Solar Security Camera is a 100% wire-free, battery-powered outdoor surveillance solution featuring 2K QHD resolution, 360° pan/tilt capabilities, color night vision, and smart PIR motion detection. It is designed for easy installation and reliable performance in various outdoor environments, powered by an integrated solar panel to ensure continuous operation.

Image: Two ieGeek solar security cameras, showing the main unit and the attached solar panel for each camera.

2. SAFETY INFORMATION

- Ensure the camera is installed securely to prevent falling.
- Do not expose the camera to extreme temperatures outside the operating range of -4°F to 140°F (-20°C to 60°C).
- Avoid placing the camera directly facing strong light sources, which may affect image quality.
- Keep the camera and its components away from children.
- Use only the provided or recommended charging cables and accessories.
- The camera is IP65 waterproof, but avoid submerging it in water.

3. PACKAGE CONTENTS

Please check the package contents upon opening to ensure all items are present:

- 2 x PTZ Security Camera
- 2 x 1.6W Solar Panel
- 10 x Screws
- 2 x Type-C Cable
- 1 x User Manual

4. SETUP GUIDE

4.1 Charging the Camera

Before initial use, fully charge the camera's built-in battery using the provided Type-C cable. Connect the cable to the camera and a standard USB power adapter (not included). The charging indicator will show the status.

4.2 App Installation and Account Creation

Download the "ieGeek Cam" app from the App Store (iOS) or Google Play Store (Android). Create an account and log in.

Image: Screenshots of the ieGeek Cam app interface on a smartphone, demonstrating app download and usage.

4.3 Connecting to Wi-Fi

The camera supports 2.4GHz Wi-Fi only. Ensure your router is broadcasting a 2.4GHz network. Follow the in-app instructions to add your camera. This typically involves scanning a QR code displayed on your phone with the camera lens.

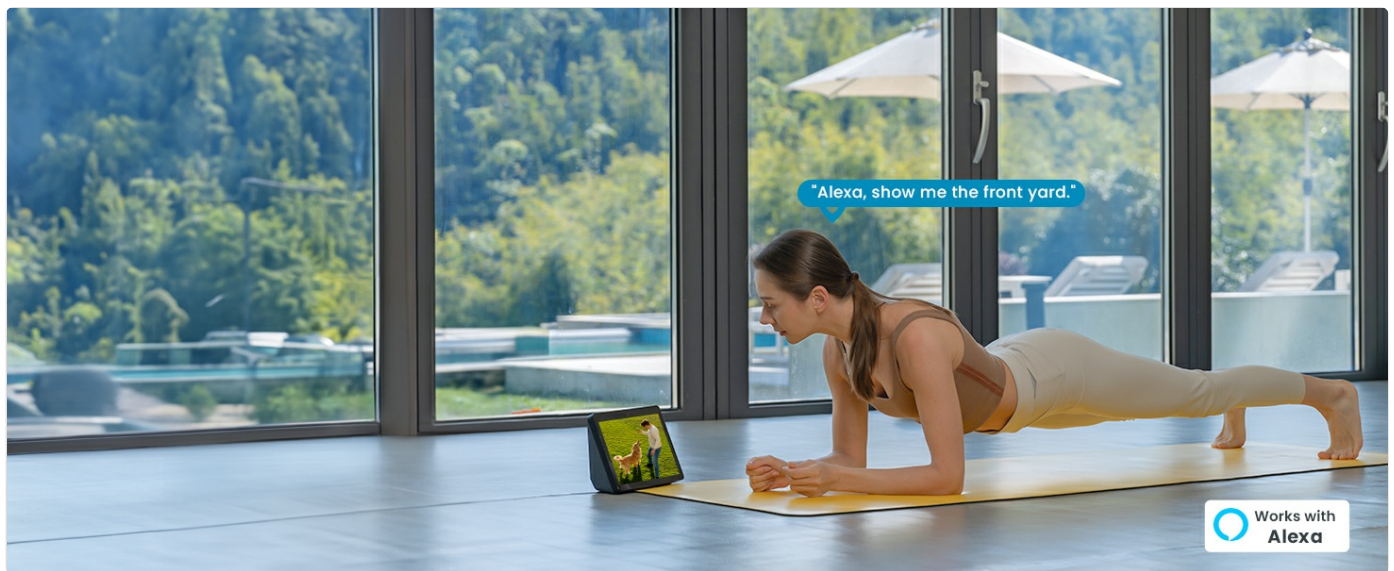

Image: A three-step diagram illustrating the quick Wi-Fi connection process: Download ieGeek Cam APP, Connect to 2.4Ghz WiFi, and Start Monitoring.

4.4 Mounting the Camera

The camera can be wall-mounted or ceiling-mounted. Choose a location with good Wi-Fi signal and direct sunlight exposure for the solar panel. Use the provided screws to fix the bracket, then snap the camera into place.

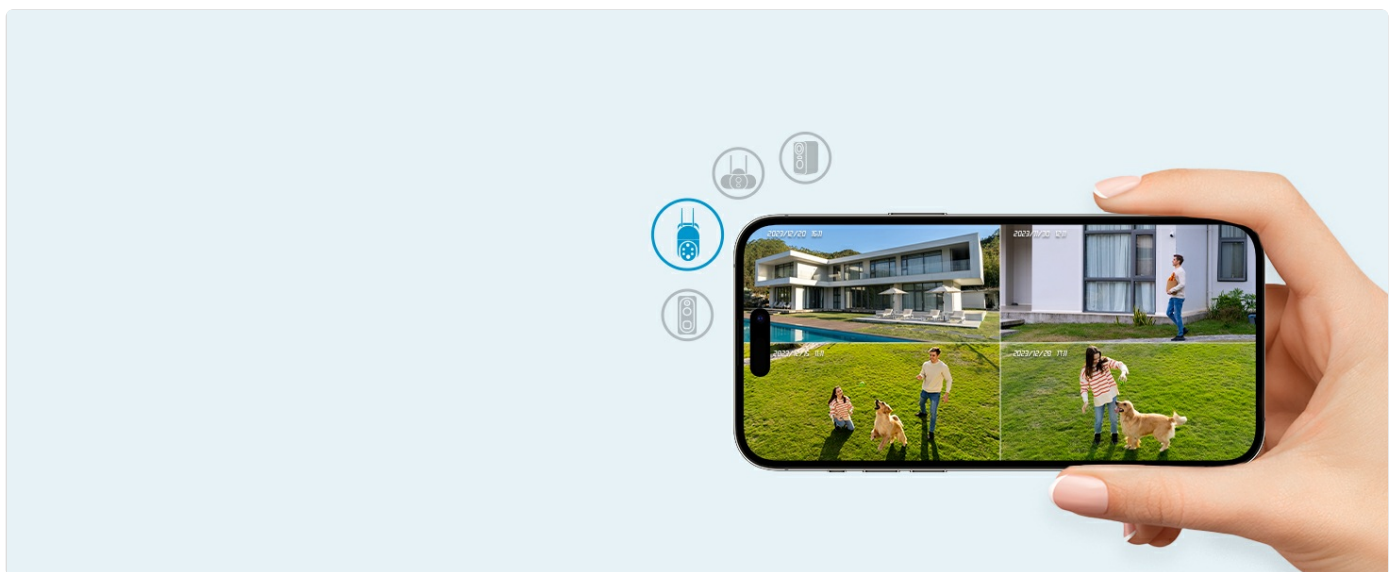

Image: A three-step visual guide demonstrating camera installation: Step 1 (Fix the bracket with screws), Step 2 (Snap camera into bracket), and Step 3 (Easy to remove out the camera).

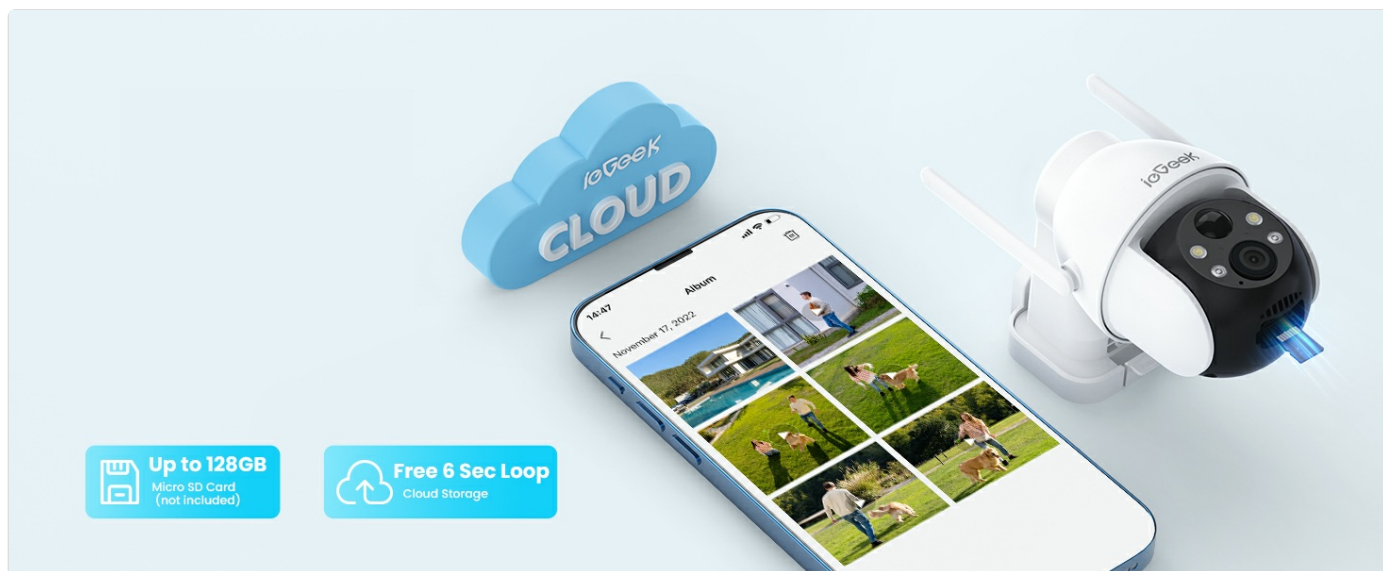

Image: Illustrations showing two mounting options for the ieGeek camera: Wall Mounting and Ceiling Mounting, both with solar panels.

A surveillance sticker is included to deter potential intruders. Place it in a visible location.

Surveillance Sticker Included

5. OPERATING INSTRUCTIONS

5.1 Live View and Playback

Open the "ieGeek Cam" app to access live video feeds from your cameras. You can pan (355°) and tilt (120°) the camera remotely for 360° coverage. Review recorded footage from the cloud storage or an inserted Micro SD card (up to 128GB,

not included).

360° Coverage for Your Home

APP Remote Control

The image features a white ieGeek security camera in the foreground. Two blue curved arrows indicate its range of motion: one horizontal arrow labeled "355° Pan" and one vertical arrow labeled "120° Tilt". The camera has two white antennas and the "ieGeek" logo on its top. To the right, a smartphone displays the ieGeek mobile application. The app's interface includes a status bar at the top with the time "10:50", signal strength, and battery level. Below this is a header with a back arrow, the ID "115166418", and a settings icon. The main content area shows a live video feed of a modern, two-story house with large glass windows and a balcony. Above the feed is a timestamp "2023/12/20 13:11". Below the feed, there's a status bar with a Wi-Fi icon, "0KB/s", and a storage dropdown menu set to "SD". At the bottom of the app interface are three tabs: "Live", "History", and "Cloud". Below the tabs is a large circular control pad with four directional arrows (up, down, left, right) and a central circle.

Image: A smartphone screen showing the ieGeek Cam app with options for Live view, History, and Cloud storage, along with various video playback thumbnails.

5.2 Motion Detection and Alerts

The camera features advanced PIR motion detection. When motion is detected, you will receive instant notifications on your phone, and the camera will record video. You can customize motion zones and schedule alert plans within the app to reduce false alarms.

Your Privacy Is Our Top Priority.

ieGeek security cameras use the Advanced Encryption Standard technology AES128, which is a commercial and government data encryption standard adopted by the US federal government. AES provides a 128-bit key. Assuming that it is possible to manufacture a machine that can crack the DES cipher within 1 second, it will take about 14.9 billion years to crack a 128-bit AES cipher using this machine.

5.3 Two-Way Audio

Utilize the built-in speaker and microphone for two-way communication. This allows you to speak to visitors or deter unwanted guests directly through the app.

Image: A person relaxing outdoors, using a smartphone to communicate through the ieGeek camera, with a speech bubble showing "Please put it at the door, thanks!"

5.4 Night Vision

The camera provides 2K full-color night vision thanks to its built-in IR lights and white lights, offering clear surveillance even in low-light conditions up to 50 feet.

One-Touch Pairing

Automatically pops up when connecting devices

 **50%
Faster**

5.5 Alexa Integration

The ieGeek camera works with Alexa. You can use voice commands to view your camera feed on compatible Alexa-enabled devices.

Image: A woman exercising indoors, using an Alexa-enabled smart display to view the camera feed, with a speech bubble indicating "Alexa, show me the front yard."

6. MAINTENANCE

- **Cleaning:** Regularly wipe the camera lens and solar panel with a soft, damp cloth to ensure optimal performance. Avoid abrasive cleaners.
- **Battery Life:** The solar panel is designed to keep the battery charged. In prolonged periods of low sunlight, you may need to manually charge the camera using the Type-C cable.
- **Firmware Updates:** Check the "ieGeek Cam" app periodically for firmware updates to ensure your camera has the latest features and security enhancements.
- **Storage Management:** Regularly review and manage your recorded footage. Delete unnecessary files to free up space on your Micro SD card or cloud storage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera not connecting to Wi-Fi	Incorrect Wi-Fi password; Camera too far from router; Only 5GHz Wi-Fi network available.	Ensure correct 2.4GHz Wi-Fi password; Move camera closer to router or use a Wi-Fi extender; Ensure your router broadcasts a 2.4GHz network.
Poor image quality	Dirty lens; Low light conditions; Network bandwidth issues.	Clean the lens; Ensure adequate lighting or rely on color night vision; Check Wi-Fi signal strength.
Battery not charging via solar panel	Insufficient sunlight; Dirty solar panel; Panel not connected properly.	Relocate solar panel to an area with more direct sunlight; Clean the solar panel; Ensure cable is securely connected.
Frequent false alarms	PIR sensitivity too high; Motion detection zone too wide.	Adjust PIR sensitivity in the app; Define specific motion detection zones to exclude irrelevant areas (e.g., busy street).
Two-way audio not working	Microphone/speaker muted in app; Network issues.	Check app settings to ensure audio is enabled; Verify network connection.

8. SPECIFICATIONS

Model: ZY C2

Indoor/Outdoor Usage: Outdoor

Power Source: Battery & Solar Powered

Connectivity Protocol: Wi-Fi (2.4GHz only)

Video Capture Resolution: 2K (3MP Effective Still Resolution)

Pan/Tilt Range: 355° Pan, 120° Tilt

Night Vision Range: 50 Feet (Color Night Vision)

Water Resistance Level: IP65 Waterproof

Operating Temperature: -4°F to 140°F (-20°C to 60°C)

Storage: Micro SD Card (up to 128GB, not included), Free Cloud Storage (6s & 7 days loop coverage)

Special Features: PIR Motion Detection, Two-Way Audio, Spotlight & Siren, Alexa Compatibility, Multi-User Sharing

Dimensions: 6.3 x 5.91 x 3.54 inches

Weight: 3.98 pounds

9. WARRANTY AND SUPPORT

ieGeek offers a **2-year warranty** for this product. If you encounter any problems using your ieGeek security cameras, please contact our customer support team. We are committed to providing satisfactory solutions.

Customer Support Email: service@iegeek.com

For more information and FAQs, please visit the official ieGeek website or refer to the "ieGeek Cam" app's help section.
