## 2. SETUP AND ASSEMBLY

---

The HOUROM dresser is designed for straightforward assembly. All necessary components are individually wrapped and labeled, and clear installation instructions are provided to guide you through each step. It is recommended to assemble the dresser in the room where it will be used due to its assembled weight.

### 2.1 Safety First: Anti-Tipping Device

For the safety of your household, especially children, it is crucial to install the included anti-tipping device. This device securely anchors the dresser to the wall, preventing accidental tipping. Follow the specific instructions in your assembly manual for proper installation.

## 4. MAINTENANCE

Proper care will ensure the longevity and appearance of your HOUROM dresser.

### 4.1 Cleaning

The dresser is coated with a water-based varnish, making it waterproof and easy to clean. Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the finish. Dry immediately with a clean, soft cloth.

### 4.2 General Care

- Avoid placing hot items directly on the tabletop. Use coasters or protective pads.
- Keep the dresser away from direct sunlight and heat sources to prevent warping or discoloration.
- Periodically check and tighten any loose screws or hardware to maintain structural integrity.

## 5. TROUBLESHOOTING

### 5.1 Drawers Sticking or Not Closing Smoothly

If a drawer is difficult to open or close, or appears to be sticking, check the following:

- **Check for Obstructions:** Ensure no items inside the drawer are preventing it from closing fully or interfering with the sliding mechanism.
- **Inspect Rails:** Verify that the metal sliding rails are clean and free of debris. A small amount of silicone lubricant can be applied to the rails if they feel rough.
- **Verify Assembly:** Confirm that all screws securing the drawer slides and the dresser frame are properly tightened. Loose screws can cause misalignment.

### 5.2 Dresser Instability

If the dresser feels wobbly or unstable, ensure that the anti-tipping device is correctly installed and securely anchored to the wall. Also, check that the dresser is placed on a level surface. Adjust any leveling feet if present, or place shims under the base if necessary.
