bixdo A30 Pro

bixdo A30 Pro Water Flosser User Manual

Model: A30 Pro

INTRODUCTION

The bixdo A30 Pro Water Flosser is a portable and efficient oral irrigator designed for comprehensive dental cleaning. Utilizing advanced dual-stream technology and multiple cleaning modes, it provides effective plaque removal and gum care for both adults and children, including those with braces, crowns, or bridges. Its compact, collapsible design makes it ideal for travel and daily home use.

SAFETY INFORMATION

Please read and understand all safety instructions before using the bixdo A30 Pro Water Flosser to ensure safe and effective operation.

- Always unplug and turn off the device when not in use.
- Do not use if you have a heart condition, are pregnant, or have any other medical condition that may be affected by water pressure. Consult your healthcare provider if unsure.
- Keep out of reach of children. This device is not a toy.
- Do not submerge the device in water for extended periods, despite its IPX7 rating.
- Always follow the instructions provided in this user manual.

PACKAGE CONTENTS

Upon opening your bixdo A30 Pro Water Flosser package, you should find the following items:

Image: A visual representation of the bixdo A30 Pro Water Flosser and its accessories, including the main unit, storage bag, instruction manual, three jet tips, and USB charging cable.

- 1 x bixdo A30 Pro Travel Water Flosser Unit
- 1 x Soft Clean Dual Stream Jet Tip
- 1 x Standard Jet Tip
- 1 x Orthodontic Jet Tip
- 1 x USB Charging Cable
- 1 x Portable Storage Bag
- 1 x Instruction Manual

PRODUCT FEATURES

- **Premium Quality Materials:** Crafted from Tritan, a durable material commonly used in baby bottles, ensuring longevity and safety.

Image: A close-up view emphasizing the Tritan material used for the water tank and nozzle tips, indicating durability and safety.

- **Compact & Portable Design:** Features a space-saving, collapsible design ideal for travel. Includes a built-in compartment for nozzles and a storage bag for organization.

Water Flosser Travel Size

SETUP

Follow these steps to set up your bixdo A30 Pro Water Flosser for first use:

1. **Charge the Device:** Before initial use, fully charge the water flosser using the provided USB charging cable. Connect the cable to the device's charging port and a compatible USB power source (e.g., wall adapter, computer, power bank). The indicator lights will show charging status.
2. **Fill the Water Tank:** Open the water tank cap and fill the 165ml tank with lukewarm water. Ensure the tank is

securely closed after filling to prevent leaks.

3. **Attach the Jet Tip:** Select the desired jet tip (Soft Clean Dual Stream, Standard, or Orthodontic) and firmly insert it into the opening at the top of the flosser until it clicks into place.

OPERATING INSTRUCTIONS

Using your bixdo A30 Pro Water Flosser for effective oral cleaning:

1. **Select Cleaning Mode:** Press the mode button to cycle through the three available cleaning modes: Gentle, Standard, and Pulse. Choose the mode that best suits your oral care needs and comfort level.
2. **Position the Tip:** Lean over a sink and place the jet tip in your mouth, pointing it at your teeth and gum line. Keep your mouth slightly open to allow water to flow into the sink.
3. **Turn On and Floss:** Press the power button to turn on the device. Guide the water stream along your gum line and between your teeth. Pause briefly between teeth to ensure thorough cleaning.
4. **Clean All Areas:** Systematically clean all areas of your mouth, including the front and back surfaces of your teeth, and around any dental work like braces or crowns.
5. **Turn Off:** Once finished, press the power button to turn off the device.

Understanding the Jet Tips:

- **Soft Clean Dual Stream Jet Tip:** Ideal for sensitive teeth and gums, providing a gentle yet effective clean.
- **Standard Jet Tip:** For general daily cleaning, effectively removing plaque and food debris.
- **Orthodontic Jet Tip:** Specifically designed to clean around braces, wires, and other orthodontic appliances.

MAINTENANCE

Proper maintenance ensures the longevity and hygiene of your bixdo A30 Pro Water Flosser:

- **Empty and Rinse Tank:** After each use, empty any remaining water from the tank and rinse it thoroughly with clean water.
- **Clean Jet Tips:** Remove the jet tip and rinse it under running water. For a deeper clean, tips can be soaked in a solution of 2 parts water to 1 part white vinegar once a week.
- **Wipe Down Unit:** Wipe the exterior of the flosser unit with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Air Dry:** Allow all components to air dry completely before reassembling or storing the device.
- **Store Properly:** Store the flosser and its accessories in the provided storage bag in a cool, dry place when

not in use.

TROUBLESHOOTING

If you encounter any issues with your bixdo A30 Pro Water Flosser, please refer to the common solutions below:

Problem	Possible Cause	Solution
Device does not turn on	Low battery; Power button not pressed firmly	Charge the device fully; Press and hold the power button for 2-3 seconds.
Weak water pressure	Low battery; Clogged jet tip; Insufficient water in tank	Recharge the device; Clean the jet tip; Refill the water tank.
Water leakage	Water tank not properly sealed; Jet tip not fully inserted	Ensure water tank cap is tightly closed; Re-insert jet tip until it clicks.
Device stops unexpectedly	Low battery; Overheating (unlikely with normal use)	Charge the device; Allow device to cool down before resuming use.

If the problem persists after attempting these solutions, please contact customer support for further assistance.
