## 6. TROUBLESHOOTING

---

If you encounter issues with your HOPPUP Xo6 Gaming Earbuds, refer to the following common solutions:

- **Earbuds not pairing:** Ensure both earbuds are in the charging case, then open the lid to activate pairing mode. Make sure Bluetooth is enabled on your device and try searching again. If issues persist, try forgetting the device on your phone and re-pairing.
- **Only one earbud working:** Place both earbuds back into the charging case, close the lid, wait a few seconds, then open it again. This often re-syncs them.
- **No sound:** Check the volume level on both your device and the earbuds. Ensure the earbuds are properly connected to your device.
- **Charging issues:** Verify that the charging cable is securely connected to both the case and the power source. Ensure the charging contacts on the earbuds and inside the case are clean and free of debris.
- **Low latency not active:** Ensure you have activated 'Rage Mode' via the touch controls as described in section 4.1.
