## SUDEHO SUD004

# SUDEHO MFi Certified 256GB 4-in-1 Flash Drive User Manual

Model: SUD004

## 1. PRODUCT OVERVIEW

The SUDEHO MFi Certified 256GB 4-in-1 Flash Drive is designed to expand storage for various devices, including iPhones, iPads, Android phones, and PCs. This versatile flash drive features multiple ports for broad compatibility and offers a convenient solution for backing up and transferring photos, videos, and files.

It is MFi certified, ensuring full support and compatibility with iOS devices running iOS 12.1 and above.

## 2. SETUP INSTRUCTIONS

### 2.1 For iOS Devices (iPhone/iPad)

1. **Download the App:** Before using the flash drive with your iPhone or iPad, you must download the required application. Search for "ROSPE" in the App Store and install it.
2. **Connect the Drive:** Insert the Lightning connector of the flash drive into your iOS device's charging port.
3. **Launch the App:** Open the "ROSPE" app. The app will guide you through the initial setup and allow you to manage your files.

Video: A detailed guide on how to use the "ROSPE" app with the SUDEHO Memory Stick for file management on iOS devices.

## 2.2 For Android Devices

1. **Enable OTG Function:** Ensure your Android device has the OTG (On-The-Go) function enabled. This setting is usually found in your device's system settings under "Connected devices" or "OTG connection."
2. **Connect the Drive:** Use the appropriate connector (Micro USB or the provided Type-C adapter) to connect the flash drive to your Android device.
3. **Access Files:** Once connected, you can access the flash drive through your device's file manager.

## 2.3 For PC/Mac

1. **Connect the Drive:** Insert the standard USB connector of the flash drive into an available USB port on your computer. For devices with only Type-C ports, use the provided Type-C adapter.
2. **Access Files:** The flash drive will appear as a removable storage device. You can then drag and drop files as needed.

# 3. OPERATING INSTRUCTIONS

---

## 3.1 File Transfer and Backup

The flash drive allows for easy transfer and backup of photos, videos, and other files between your device and the drive.

- **From Device to Flash Drive:** Use the "ROSPE" app on iOS or your file manager on Android to select files and transfer them to the external storage. The app often features a "one-click backup" option for convenience.
- **From Flash Drive to Computer:** Connect the drive to your PC/Mac and drag files from the drive to your computer's local storage.

# CAPTURE & STORE INSTANTLY

Plug-and-Play USB Flash Drive  
Effortlessly save your memories anytime, anywhere.

## 3.2 Viewing Files

You can view photos and play videos directly from the flash drive without transferring them back to your device. Use the "ROSPE" app (iOS) or your device's media player/file manager (Android/PC) to browse and access content.

## 3.3 Encryption Protection

For enhanced security, the "ROSPE" app provides an option to encrypt your personal files, photos, and videos with a password. This ensures privacy for your stored memories.

Image: An icon symbolizing encryption protection, indicating the ability to secure your files with a password.

### 3.4 Direct Photo/Video Capture

The "ROSPE" app allows you to take photos and record videos directly to the flash drive, saving your device's internal storage.

### 3.5 Sharing Content

Easily share your stored photos, videos, and files with friends and family on social media platforms with just one click through the app.

## 4. MAINTENANCE

- **Handle with Care:** Avoid dropping the flash drive or exposing it to excessive force, as this may cause physical damage.

- **Temperature:** Store the device in a cool, dry place away from extreme temperatures.
- **Type-C Adapter:** The Type-C adapter is shipped randomly in black or silver. This does not affect functionality.

## 5. TROUBLESHOOTING

---

- **Displayed Capacity Discrepancy:** The displayed storage capacity may differ slightly from the advertised 256GB/512GB. This is due to different calculation methods used by storage manufacturers (1GB=1000MB) and computers (1GB=1024MB). This is normal and does not indicate a defect.
- **Transfer Speed Variation:** Actual read and write speeds may vary based on the connected device, processor performance, and file types being transferred.
- **iOS App Requirement:** For iPhone and iPad users, ensure the "ROSPE" app is downloaded and installed from the App Store for proper functionality.

## 6. SPECIFICATIONS

---

<b>Brand</b>	SUDEHO
