## 2. WHAT'S INCLUDED

Please verify that all items are present in the package:

- EURANS Fitness Tracker Watch (Black)
- Charging Cable
- Quick Start Guide

### 3. SETUP GUIDE

#### 3.1 Initial Charging

Before first use, fully charge your EURANS Smart Watch. A full charge typically takes approximately 1 hour.

1. Connect the charging cable to the charging contacts on the back of the watch.
2. Plug the USB end of the charging cable into a standard USB power adapter (not included) or a computer's USB port.
3. The watch display will show a charging indicator.

## 7-Day Battery Life

**7**  Days  
Battery Life

**1**  Hour  
Charging Time

**30**  Days  
Standby Time

## 3.2 Powering On/Off

- **Power On:** Press and hold the side button until the screen illuminates.
- **Power Off:** Navigate to the settings menu on the watch, then select "Power Off" or "Shutdown". Confirm your selection.

## 3.3 Basic Navigation

The EURANS Smart Watch features a 1.8-inch HD touchscreen for easy interaction.

- **Swipe Up/Down:** Scroll through menus and notifications.
- **Swipe Left/Right:** Access different feature screens or quick settings.
- **Tap:** Select an option or open an application.
- **Side Button:** Press to return to the home screen or wake the device.

#### 4.3 Other Functions

- **Alarm Clock:** Set alarms directly on the watch for reminders.
- **Timer Function:** Utilize the built-in timer for various activities.
- **Stopwatch:** Measure elapsed time with precision.
- **Flashlight:** A simple screen-based flashlight function.
- **Find Phone:** If connected via Bluetooth (optional), this feature can help locate your paired phone.
- **Weather:** (Requires optional app connection for real-time updates) View current weather conditions.
- **Music Control:** (Requires optional app connection) Control music playback on your paired smartphone.

### 5. CARE AND MAINTENANCE

#### 5.1 Cleaning Your Watch

To maintain the watch's appearance and functionality:

- Wipe the screen and strap regularly with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or solvents.
- Ensure the charging contacts are clean and dry before charging.

#### 5.2 Water Resistance

The EURANS Smart Watch is IP68 waterproof. This means it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for daily use, such as hand washing or light rain. However, it is not recommended for swimming, diving, or prolonged exposure to water, especially hot water or steam.

#### 5.3 Battery Care

- Charge the watch fully before its first use.
- Avoid completely draining the battery frequently, as this can reduce its lifespan.
- Store the watch in a cool, dry place when not in use for extended periods.

## 6. TROUBLESHOOTING

Problem	Possible Solution
Watch does not power on.	Ensure the watch is fully charged. Connect it to the charger for at least 1 hour.
Screen is unresponsive.	Restart the watch by pressing and holding the side button. If unresponsive, allow the battery to fully drain and then recharge.
Activity data (steps, calories) seems inaccurate.	Ensure the watch is worn snugly on your wrist. Movement patterns can affect accuracy. Data is an estimate and not for medical use.
Heart rate/Blood oxygen readings are inconsistent.	Ensure the watch is worn correctly and the sensor is clean. Remain still during measurements. These readings are for reference only and not for medical diagnosis.
Watch not charging.	Check if the charging cable is securely connected to both the watch and the power source. Ensure charging contacts on the watch are clean and free of debris. Try a different USB port or power adapter.

## 7. SPECIFICATIONS

Feature	Detail
