# Greenvelly 72" H Metal Storage Cabinet Instruction Manual

Model: B0DHX7X7MP

## 1. INTRODUCTION

Thank you for choosing the Greenvelly 72" H Metal Storage Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage cabinet. Please read these instructions thoroughly before beginning assembly and retain them for future reference.

### Safety Information

- Always assemble the cabinet on a clean, flat, and stable surface.
- Ensure all parts are present before assembly. Do not proceed if parts are missing or damaged.
- Use appropriate tools as specified in the assembly instructions.
- It is recommended that two people assemble this cabinet for safety and ease.
- Secure the cabinet to a wall using the provided anti-tip hardware to prevent accidental tipping, especially in households with children or pets.
- Do not overload shelves. Refer to the specifications for maximum weight capacity per shelf.
- Keep fingers clear of moving parts during assembly and operation.

## 2. PACKAGE CONTENTS

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact Greenvelly customer support.

- Cabinet Panels (Top, Bottom, Sides, Back)
- Doors (2)
- Adjustable Shelves (4)
- Locking Mechanism and Handle
- Keys (2)
- Anti-Tip Hardware
- Assembly Hardware (Screws, bolts, nuts, etc.)
- Instruction Manual

## 3. SETUP AND ASSEMBLY

## Preparation

- Clear a spacious area for assembly.
- Lay out all components and hardware, organizing them for easy access.
- Ensure you have a Phillips head screwdriver and possibly a wrench (not always included).

## Assembly Steps

Follow the detailed assembly instructions provided in the separate assembly guide included with your product. The general steps are outlined below:

1. **Assemble the Frame:** Connect the side panels to the back panel, then attach the top and bottom panels. Ensure all connections are secure.
2. **Install Shelves:** Insert the shelf clips into the desired slots on the side panels. Place the adjustable shelves onto the clips. The shelves can be repositioned later as needed.
3. **Attach Doors:** Mount the doors to the cabinet frame using the provided hinges. Adjust hinges if necessary for proper door alignment.
4. **Install Locking Mechanism:** Attach the handle and locking mechanism to one of the doors as per the instructions. Test the lock with the provided keys.
5. **Secure to Wall (Anti-Tip):** Position the cabinet in its final location. Use the anti-tip hardware to secure the cabinet to a wall stud. This is a critical safety step.

# EASY TO ASSEMBLE!

1 on 1 instruction

**Figure 3.1:** The assembly process is designed to be straightforward, typically taking around 40 minutes with two people.

# LONG-LIFE TO USE

we selected high-thickness cold-rolled steel, electric painted with environmental protection, easy to clean and maintain, great for indoor or outdoor using

rust  
prevention

corrosion  
prevention

Moisture  
proof

**Figure 3.2:** Overview of cabinet dimensions, the anti-tipping mechanism for safety, and the two included locking keys.

# ADJUSTABLE SHELF

Figure 3.3: The cabinet features a robust multi-layer steel construction for enhanced durability, rust, corrosion, and moisture resistance.

## 4. OPERATING INSTRUCTIONS

### Locking Mechanism

The Greenvelly storage cabinet is equipped with a 3-point locking system for enhanced security. To lock the cabinet, ensure both doors are fully closed. Insert one of the provided keys into the lock cylinder on the handle and turn it to engage the locking bolts. To unlock, insert the key and turn it in the opposite direction.

# SECURITY YOUR STUFF

Figure 4.1: The secure locking mechanism with two backup keys ensures the safety of your stored items.

## Adjusting Shelves

The cabinet includes four adjustable shelves, allowing you to customize the internal storage space. To adjust a shelf:

1. Empty the shelf completely.
2. Carefully lift the shelf to disengage it from the shelf clips.
3. Remove the shelf clips from their current slots.
4. Reinsert the shelf clips into the desired new slots, ensuring they are level and securely seated.
5. Place the shelf back onto the clips.

# STRONG CAPACITY

Each shelf thickness up to 0.789inch=2.5times  
the thickness of the phone

Figure 4.2: The adjustable shelves provide flexible storage solutions for various item sizes and types.

Figure 4.3: Example of Greenvelly cabinets used for organized storage in a garage environment.

## 5. MAINTENANCE

---

Proper maintenance will ensure the longevity and appearance of your Greenvelly metal storage cabinet.

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used. Avoid abrasive cleaners or harsh chemicals, as they may damage the finish.
- **Inspection:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Lock Care:** If the lock mechanism becomes stiff, a small amount of graphite lubricant can be applied to the keyhole.
- **Rust Prevention:** Although the cabinet has a rust-resistant coating, avoid prolonged exposure to excessive moisture or corrosive substances. Promptly clean any spills.

## 6. TROUBLESHOOTING

---

Below are common issues and their potential solutions:

| Problem  | Possible Cause   | Solution  |
|--|--|---|
| Doors do not close properly or are misaligned. | Hinges are loose or improperly adjusted.   | Tighten hinge screws. Adjust hinges as per assembly instructions to align doors. Ensure the cabinet is on a level surface.                                    |
| Lock mechanism is stiff or difficult to turn.  | Lack of lubrication or minor obstruction.  | Apply a small amount of graphite lubricant into the keyhole. Ensure the key is fully inserted.  |
| Cabinet feels unstable or wobbly.              | Not all fasteners are tightened; cabinet not level; anti-tip hardware not installed. | Check and tighten all assembly fasteners. Ensure the cabinet is on a level surface. Install the anti-tip hardware securely to a wall stud.                    |
| Shelves sag or cannot hold weight.             | Overloaded shelf; shelf clips not properly seated.                                   | Reduce the weight on the shelf. Ensure shelf clips are fully inserted and seated correctly in the slots. Refer to specifications for maximum weight capacity. |
