

## APPASO APS2981

# APPASO 2 Handle Kitchen Faucet APS2981 Instruction Manual

Model: APS2981 | Brand: APPASO

## 1. PRODUCT OVERVIEW

The APPASO 2 Handle Kitchen Faucet (Model APS2981) is designed for modern kitchens, offering both functionality and aesthetic appeal. This faucet features a durable brushed nickel finish, dual handles for precise temperature control, and a versatile pull-down sprayer with multiple spray modes. It is suitable for 3-hole or 4-hole sink installations and includes a matching soap dispenser.

### Key Features:

- **Dual-Handle Design:** Separate metal lever handles for fine-tuning hot and cold water temperature.
- **Premium Ceramic Cartridge:** Tested for 500,000 cycles to ensure reliable, leak-free operation.
- **Durable Construction:** Made from high-quality SUS 304 stainless steel, resistant to fingerprints, scratches, rust, and corrosion.
- **Versatile Pull-Down Sprayer:** Features three spray modes (SINGLE BROOM, STREAM, SPRAY) and an 18-inch retractable hose with 360° swivel for comprehensive sink coverage.
- **Integrated Soap Dispenser:** Large capacity dispenser for hand soap, dish soap, or lotion, unifying kitchen style.
- **Easy Installation:** Designed for quick DIY installation in approximately 20 minutes.

## 2. INSTALLATION GUIDE

### Before You Begin:

- Ensure all necessary components are present as listed in the packaging.
- Turn off the main water supply to your kitchen sink.
- Clear the area under the sink for easy access.

- Gather basic tools: adjustable wrench, Phillips head screwdriver, plumber's putty or silicone sealant.

## Step-by-Step Installation:

1. **Prepare the Sink:** Ensure your sink has 3 or 4 pre-drilled holes. If replacing an old faucet, remove it and clean the mounting surface.
2. **Install Faucet Body:** Insert the main faucet body into the center hole of the sink. Secure it from underneath with the provided washer and mounting nut.
3. **Install Handles:** Insert the hot and cold water handles into their respective holes. Secure them from underneath with their washers and nuts.
4. **Connect Water Hoses:** Connect the hot and cold water supply lines from the faucet to your home's water supply valves. Ensure a tight, leak-free connection.
5. **Install Pull-Down Hose:** Connect the pull-down sprayer hose to the designated connection point on the main faucet body.
6. **Attach Gravity Ball:** Install the gravity ball onto the pull-down hose under the sink. This ensures the sprayer retracts smoothly.
7. **Install Soap Dispenser:** Insert the soap dispenser pump into its designated hole. Secure it from underneath with the provided nut and attach the soap bottle.
8. **Test for Leaks:** Turn on the main water supply and check all connections for leaks. Operate the faucet and sprayer to ensure proper function.

## SOAP DISPENSER

Just 3 Steps

### 3. OPERATING YOUR FAUCET

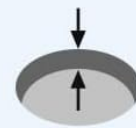

---

#### Water Flow and Temperature Control:

The faucet features two distinct handles for precise control over water temperature. The left handle controls hot water, and the right handle controls cold water. Adjust both handles to achieve your desired water temperature and flow rate.

Fits **4-hole**  
sinks

Max thickness of countertop:  
**2"** (5.1cm)

Mounting hole size:  
**1-1/4 ~ 1-2/5"** (3.2~3.5cm)

Image 4: Close-up view of the dual handles, clearly marked for hot and cold water, demonstrating independent temperature control.

## Spray Modes:

The pull-down sprayer offers three distinct spray modes to suit various tasks:

- **STREAM:** For filling pots and general washing.
- **SPRAY:** For powerful rinsing and cleaning.
- **SINGLE BROOM:** A concentrated, high-pressure stream for stubborn food debris.

Switch between modes using the buttons located on the sprayer head.

## DOUBLE BROOM

Clean in a Flash

## SPRAY

Powerful Cleaning

## STREAM

Gentle & No Splash

Image 5: Visual representation of the three spray modes available on the pull-down sprayer: Stream, Spray, and Single Broom.

### Pull-Down Sprayer:

The sprayer head can be pulled down from the main faucet body, extending up to 18 inches, and swivels 360 degrees. This flexibility allows for easy cleaning of all areas of your sink and filling containers outside the sink basin.

## 4. MAINTENANCE

---

### Cleaning:

The faucet's SUS 304 stainless steel construction with a brushed nickel finish is designed to be anti-fingerprint, rust-resistant, and corrosion-resistant. For daily cleaning, simply wipe the surface with a soft, dry cloth. For tougher spots, use a mild soap and water solution, then rinse and dry thoroughly. Avoid abrasive cleaners or harsh chemicals that can damage the finish.

## Nozzle Maintenance:

The sprayer head features multi-layer filtration and a removable nozzle for easy cleaning. If you notice reduced water flow or irregular spray patterns, the nozzle may need cleaning. Use the provided blue key to carefully remove the aerator/nozzle, clean any debris, and then reattach it securely.

## 20" EXTENSION HOSE

- ◆ Convenience at Your Fingertips
- ◆ Pull-Out Power for Tackling any Kitchen Task

Image 7: Instructions for removing and cleaning the multi-layer filtration nozzle to maintain optimal water flow and spray performance.

## 5. TROUBLESHOOTING

If you encounter any issues with your APPASO faucet, please refer to the following common troubleshooting tips:

- **Low Water Pressure:** Check if the water supply valves are fully open. Inspect the aerator/nozzle for clogs and clean if necessary (refer to Maintenance section).
- **Leaks:** Ensure all connections are tightened properly. Check the O-rings and washers for damage and replace if needed.
- **Sprayer Not Retracting:** Verify that the gravity ball is correctly installed on the pull-down hose and that there are no obstructions under the sink preventing its movement.
- **Temperature Control Issues:** Ensure both hot and cold water supply lines are connected correctly.

For persistent issues or further assistance, please contact APPASO customer support.

## 6. SPECIFICATIONS

Feature	Detail
Brand	APPASO
Model Name	APS2981
Color	Brushed Nickel
Material	SUS 304 Stainless Steel, PEX Hose, ABS Plastic Sprayhead
