PRODUCT OVERVIEW

Noorio B210 2K Wireless Outdoor Security Camera

The Noorio B210 is designed for robust outdoor surveillance, offering high-resolution video and advanced detection capabilities.

Key Features:

- **2K Resolution with HDR Video:** Provides clear and detailed footage.
- **Two-Way Talk with Audio+:** Enables clear communication through the camera.
- **Motion-Activated Spotlights:** Deters intruders and enhances color night vision.
- **Color Night Vision:** Offers full-color video even in low-light conditions.
- **Customizable Motion Zones:** Allows users to define specific areas for motion detection.
- **16GB Local Storage:** Built-in storage for video clips, no monthly fees required.
- **2.4G Wi-Fi & Alexa Compatibility:** Easy connectivity and smart home integration.
- **100% Wireless & Battery Powered:** Flexible placement without wiring constraints.
- **Magnetic Mounting:** Simple and secure installation on iron surfaces.
- **IP66 Weather Resistant:** Ensures reliable performance in various weather conditions.
- **AI Detection:** Reduces false alerts by distinguishing between objects.

Noorio CL200 2-Way Video Calling Indoor Camera

The Noorio CL200 is an innovative indoor camera designed for seamless two-way video and voice communication, ideal for families with children or elderly members.

Key Features:

- **Two-Way Video & Voice Communication:** Facilitates real-time, face-to-face conversations.
- **Built-in 2.4-inch Screen:** Provides a clear display for video calls directly on the device.
- **High-Quality Audio:** Features noise reduction and echo cancellation for clear sound.
- **Convenient One-Button Video Call:** Simplifies initiating video calls to linked mobile phones.
- **2K 3MP Resolution:** Delivers sharp and detailed video quality.
- **360° Pan & Tilt:** Allows for comprehensive room coverage and remote adjustment.

- **Auto Tracking:** Automatically follows moving subjects within its field of view.
- **APP Push Notifications:** Alerts users to detected activity via the mobile application.

All-in-One Solution

Perserving everyday memories,
constant Care for your loved ones

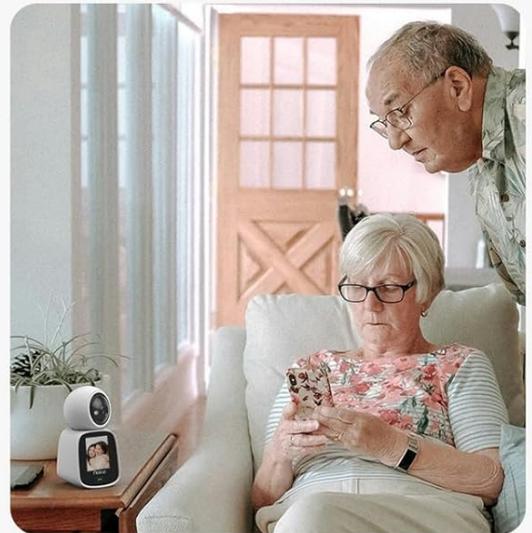

Image: A collage of images showing the Noorio CL200 in various family settings, highlighting its role as an all-in-one solution for preserving memories and providing constant care for loved ones.

SETUP GUIDE

Noorio B210 Installation

1. **Charge the Camera:** Before first use, fully charge the B210 camera using the provided USB cable.
2. **Choose a Location:** Select an outdoor location with good Wi-Fi signal and a clear view of the area you wish to monitor.
3. **Mounting:**
 - **Magnetic Mounting:** Affix the included magnetic bracket to an iron surface (e.g., refrigerator, electrical box). The camera can then be securely mounted onto this bracket without screws.
 - **Screw Mounting (Optional):** For non-magnetic surfaces, use the provided screws and anchors to secure the

bracket to a wall or ceiling, then attach the camera magnetically.

4. **Adjust Angle:** Once mounted, adjust the camera's angle to cover the desired area.

Noorio CL200 Setup

1. **Power On:** Place the CL200 on a stable surface indoors and connect it to a power outlet using the provided power adapter.
2. **Initial Boot:** The camera will power on and display a startup sequence on its screen.

Connecting to the Noorio App (Both Cameras)

1. **Download the App:** Search for "Noorio" in your mobile device's app store (iOS or Android) and download the official application.
2. **Create Account:** Open the app and follow the on-screen instructions to create a new Noorio account or log in if you already have one.
3. **Add Device:** Tap the "+" icon or "Add Device" button in the app.
4. **Select Model:** Choose the specific camera model you are setting up (B210 or CL200).
5. **Follow In-App Prompts:** The app will guide you through connecting the camera to your 2.4GHz Wi-Fi network. This typically involves scanning a QR code displayed on your phone with the camera's lens or entering Wi-Fi credentials.
6. **Name Your Camera:** Assign a name to your camera (e.g., "Front Door B210", "Living Room CL200") for easy identification.

OPERATING INSTRUCTIONS

Using the Noorio App

- **Live View:** Tap on a camera in the app to view its live feed.
- **Playback:** Access recorded events and review footage from the timeline.
- **Settings:** Adjust camera-specific settings such as motion detection sensitivity, notification preferences, and night vision modes.

B210 Specific Operations

- **Motion Detection:** Configure motion zones and sensitivity in the app to receive alerts for specific areas.
- **Spotlight Control:** Manually activate or set the motion-activated spotlights via the app.
- **Two-Way Talk:** Use the microphone and speaker icons in the live view to communicate with visitors or deter unwanted guests.

CL200 Specific Operations

- **One-Button Video Call:** Instruct family members to press the call button on the CL200 to initiate a video call to your linked mobile device.
- **Pan & Tilt Control:** In the live view, swipe on the screen to remotely control the camera's pan (horizontal) and tilt (vertical) movements.
- **Two-Way Video:** Engage in video calls directly from your phone to the CL200, allowing face-to-face interaction with

those near the camera.

- **Auto Tracking:** Enable this feature in settings to have the camera automatically follow detected motion.

MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid abrasive cleaners or solvents.
- **Battery Care (B210):** For optimal battery life, avoid extreme temperatures. Recharge the camera when the battery level is low.
- **Software Updates:** Regularly check the Noorio app for firmware updates to ensure your cameras have the latest features and security enhancements.
- **Storage Management:** While the B210 has local storage, periodically review and manage recorded footage if needed.

TROUBLESHOOTING

Issue	Possible Solution
Camera not connecting to Wi-Fi	Ensure your Wi-Fi is 2.4GHz. Check Wi-Fi password. Move camera closer to router. Restart camera and router.
Poor video quality	Check Wi-Fi signal strength. Ensure lens is clean. Adjust camera placement for better lighting.
B210 battery draining fast	Reduce motion detection sensitivity. Decrease live view usage. Ensure camera is not in an area with constant motion.
CL200 one-button call not working	Ensure the CL200 is connected to Wi-Fi. Verify the linked mobile device is online and has the Noorio app running.
No motion alerts	Check motion detection settings in the app. Ensure notifications are enabled for the app on your phone. Verify motion zones are correctly set.
