## Merax 01

# Merax Softside Luggage Set Instruction Manual

Model: 01

## INTRODUCTION

This manual provides detailed instructions for the Merax Softside Luggage Set, Model 01. This set includes a 22-inch suitcase, a 26-inch suitcase, a 30-inch suitcase, a travel duffel bag, and a toiletry bag, designed to meet various travel needs. Please read this manual thoroughly to ensure proper use and care of your luggage set.

## PRODUCT OVERVIEW

The Merax Softside Luggage Set is constructed from premium 100% Polyester fabric, offering a balance of lightweight design and durability. The material is water and stain resistant, contributing to long-lasting use. Key features include:

- **Lightweight Construction:** Designed for ease of transport without compromising durability.
- **Expandable Capacity:** The 26-inch and 30-inch suitcases feature an expansion zipper, providing up to 25% more packing space. The 22-inch carry-on is not expandable to comply with common airline carry-on size limits.
- **360-Degree Spinner Wheels:** Equipped with multi-directional spinner wheels for smooth and effortless maneuverability.
- **Telescopic Handle:** A multi-stage telescopic handle with a contoured grip ensures comfortable handling.
- **Integrated TSA Lock:** Provides security for your belongings while allowing airport security to inspect luggage without damage.
- **Organized Interior:** Features tie-down straps to secure contents and an inner zippered pocket for smaller items.
- **Exterior Pockets:** Two large front pockets offer quick access to travel essentials such as passports, boarding passes, and electronic devices.

- **Additional Bags:** Includes a matching duffel bag and a toiletry bag for coordinated travel.

## SETUP AND FIRST USE

### Setting the TSA Combination Lock

Your Merax luggage is equipped with a 3-digit TSA-approved combination lock. The default combination is 0-0-0. To set your personal combination, follow these steps:

1. Ensure the dials are set to the factory default combination of 0-0-0.
2. Locate the small reset button, usually a recessed hole, adjacent to the dials. Use a pen or a pointed object to press and hold this button.
3. While holding the reset button, rotate the dials to your desired 3-digit code.
4. Release the reset button. Your new combination is now set. Remember your combination, as there is no master key

for personal codes.

## OPERATING INSTRUCTIONS

---

### Using the Telescopic Handle

The telescopic handle can be adjusted to multiple heights for comfortable pulling. Press the button on the handle grip and extend or retract the handle to your preferred length. Release the button to lock it in place.

### Maneuvering with Spinner Wheels

The 360-degree spinner wheels allow the luggage to glide smoothly in any direction. For optimal performance, push the luggage upright rather than tilting and pulling it on two wheels, especially on smooth surfaces.

### Expanding Luggage Capacity

The 26-inch and 30-inch suitcases feature an expansion zipper. To expand the luggage, locate the secondary zipper running along the perimeter of the suitcase and unzip it. This will increase the depth of the suitcase, providing additional packing volume. The 22-inch carry-on does not have this expansion feature.

# Expandable Luggage

Provides More Space

Only 24" & 28" suitcase can expand for more space

Image: Illustration of the expandable feature on the Merax luggage, demonstrating how unzipping the secondary zipper increases the suitcase's capacity by 25%.

## Utilizing Front Pockets and Interior Organization

The two large zippered front pockets are designed for quick access to items like documents, small electronics, or reading materials. Inside the main compartment, use the tie-down straps to compress and secure your clothing. The internal zippered pocket is suitable for small accessories or toiletries.

# Easy to Take

The two pockets on the front of the suitcase can hold some personal belongings. Such as passports, ID cards, boarding passes, iPads, mobile phones, etc.

Image: Demonstrates the utility of the front pockets for storing personal belongings such as laptops, passports, and other travel essentials.

## MAINTENANCE

- **Cleaning:** For general cleaning, wipe the exterior fabric with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners.
- **Zippers:** Periodically check zippers for any debris and clean them if necessary. Lubricate with a silicone-based spray if they become stiff.
- **Wheels:** Inspect wheels regularly for hair or debris that may hinder smooth rolling. Clean as needed.
- **Storage:** Store luggage in a cool, dry place away from direct sunlight when not in use. The smaller suitcases can be nested inside the larger ones for compact storage.

## TROUBLESHOOTING

**Problem: Combination lock will not open.**

**Solution:** Ensure you are using the correct 3-digit code. If you forgot your code, there is no master reset. You may need to try combinations or contact a locksmith. For TSA inspection, the lock can be opened by authorized personnel without damage.

**Problem: Wheels are not rolling smoothly.**

**Solution:** Check for debris (hair, lint, dirt) caught in the wheel mechanisms. Carefully remove any obstructions. If the issue persists, the wheels may require lubrication or replacement.

**Problem: Telescopic handle is stuck or difficult to extend/retract.**

**Solution:** Ensure the button on the handle grip is fully depressed. Check for any items inside the luggage that might be obstructing the handle mechanism. Avoid forcing the handle.

## SPECIFICATIONS

### Merax Softside Luggage Set - Model 01

Component	Dimensions (L x W x H, excluding wheels)	Weight	Features
22" Carry-on Suitcase	12.9" x 8.5" x 20" (22" with wheels)	5.7 lbs	Non-expandable, Spinner Wheels, TSA Lock
