YoLink YS1605

YoLink Hub 3 Smart Home Gateway Instruction Manual

Model: YS1605

1. INTRODUCTION

The YoLink Hub 3 is a versatile smart home gateway designed to provide seamless connectivity for your YoLink smart devices. It offers multiple connection options including 4G LTE cellular, WiFi, and Ethernet, ensuring reliable operation even in areas without traditional internet access or during outages. This hub also features an internal rechargeable battery for power resilience.

Image: The YoLink Hub 3 device shown alongside a smartphone displaying the YoLink app interface, illustrating the hub's compact design and its integration with the mobile application for control and monitoring.

2. SETUP

Setting up your YoLink Hub 3 is a straightforward process designed for quick and easy installation.

1. **Power Connection:** Plug the USB cable and power adapter into a wall outlet.

2. **Network Connection:** Connect the Hub to your network. You have three options:

   - **Ethernet:** Plug an Ethernet cable from your router or switch into the Hub's Ethernet port.
   - **WiFi:** The Hub will attempt to connect via WiFi. Follow the in-app instructions to configure WiFi settings if needed.
   - **4G LTE Cellular:** The Hub has a built-in SIM card for cellular data. A subscription is required for cellular service.

3. **App Integration:** Download the intuitive YoLink app on your smartphone. Using the YoLink app, scan the QR code located on the underside of the Hub to add it to your account.

4. **Device Pairing:** Once the Hub is online, you can begin scanning and adding your other YoLink smart devices.

5. **Notification Preferences:** Set your desired notification preferences within the app.

6. **Testing:** Test your connected devices to ensure proper functionality.

Image: A visual guide demonstrating the three primary steps for setting up the YoLink Hub 3: connecting the power adapter, plugging in an Ethernet cable, and scanning the device's QR code using the YoLink mobile application.

3. OPERATING THE YOLINK HUB 3

Connectivity Options

The YoLink Hub 3 offers robust and flexible connectivity to ensure your smart home system remains online and responsive.

- **4G LTE Cellular:** Provides connectivity in areas without traditional internet or as a reliable backup. A monthly subscription fee of $6.99 applies for cellular data. The integrated SIM card is ready for activation.

- **WiFi:** Connects to your home's wireless network.
- **Ethernet:** Offers a stable and fast wired connection to your router.

Image: The YoLink Hub 3 is depicted with visual representations of its three primary connectivity methods: WiFi, Ethernet, and a cellular card, highlighting its versatile connection capabilities.

Built-in Data Subscription Ready SIM Card

Ready to activate with an integrated SIM card for cellular data (subscription required). Use as a regular hub when not activated, ensuring versatile and continuous connectivity.

* NOTE: YoLink use third-party payment platform stripe and does not save user's card's info.
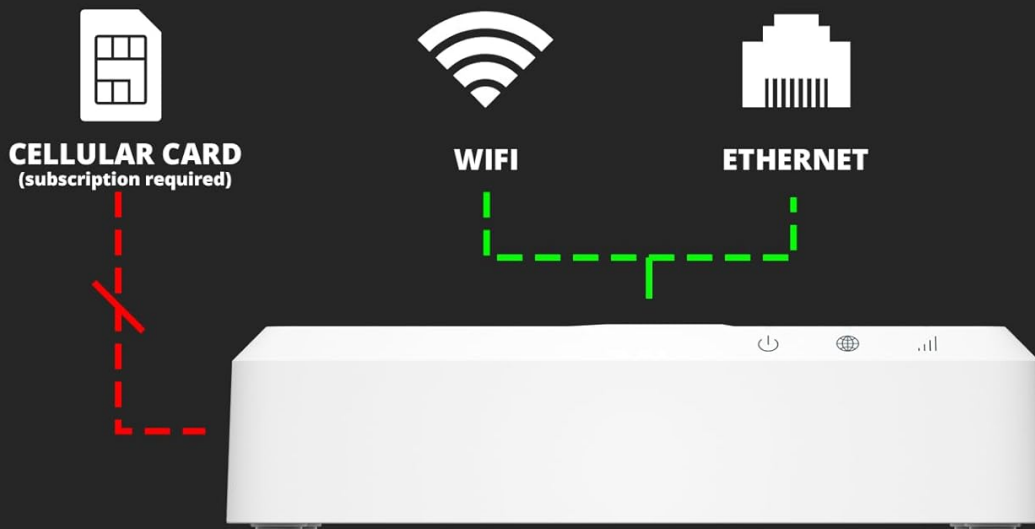

CELLULAR CARD
(subscription required)

WIFI

ETHERNET

Image: This illustration clarifies the connectivity options of the YoLink Hub 3, indicating that WiFi and Ethernet are standard connections, while the cellular card requires a separate subscription for data services.
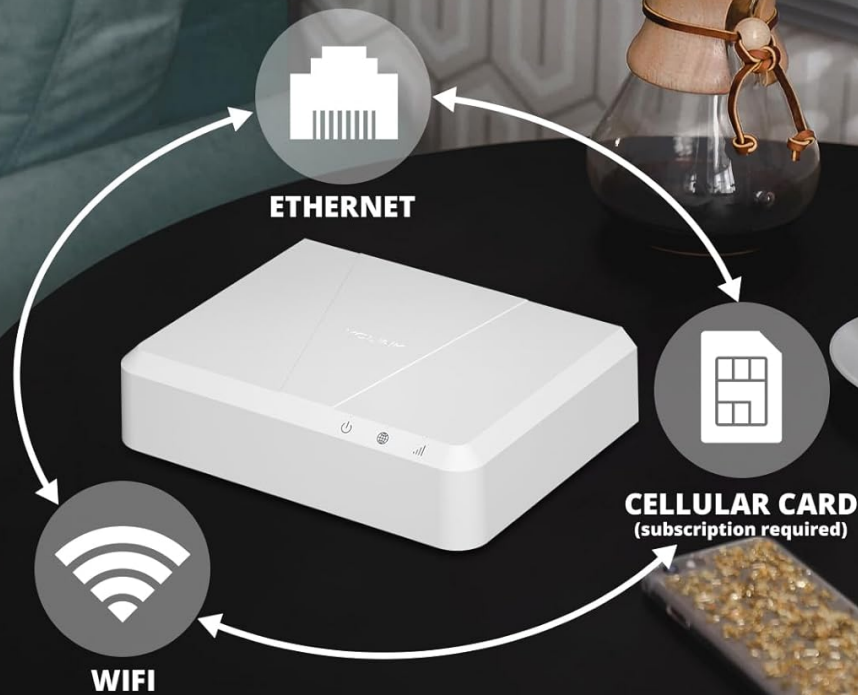

Adaptive Network Switching

The Hub 3 intelligently prioritizes connection types based on availability. If your primary internet connection (WiFi or Ethernet) goes offline, the hub can automatically switch to 4G LTE cellular connectivity (with an active subscription) to maintain continuous operation of your smart home devices.

Image: A diagram illustrating the YoLink Hub 3's adaptive network switching capability, showing how it can seamlessly transition between WiFi, Ethernet, and cellular card connections to ensure continuous operation.

Extended Range

The YoLink Hub 3 provides an extended open-air range of up to a quarter-mile, making it suitable for large homes or properties and ensuring comprehensive coverage for your smart devices.

Extended Range

Offers robust connectivity across a quarter-mile open-air range, ideal for large homes or properties, ensuring no corner is left uncovered.

User-Friendly App Control

Manage and control all your YoLink smart devices through the intuitive YoLink mobile application. The app allows you to customize settings, monitor device status, and control your smart home from any location with internet access.

4. MAINTENANCE

Power Resilience and Battery Backup

The YoLink Hub 3 is equipped with an internal rechargeable battery to ensure continued operation during power outages. This battery provides up to 4 hours of power, keeping your smart home online when the main power is interrupted. The battery fully charges in approximately 12 hours.

Image: A visual representation of the YoLink Hub 3's power resilience, indicating its ability to provide up to 4 hours of battery backup during power outages and requiring 12 hours for a full recharge.

To ensure optimal battery performance, avoid exposing the hub to extreme temperatures. Regularly check the power status through the YoLink app.

5. TROUBLESHOOTING

If you encounter issues with your YoLink Hub 3, consider the following troubleshooting steps:

- **Hub Offline Notifications:** The YoLink app provides real-time alerts if your Hub goes offline. Check the app for these notifications to identify connectivity issues promptly.

- **Power Check:** Ensure the Hub is properly plugged into a working power outlet. If operating on battery, check the battery level in the app.

- **Network Connectivity:** Verify your internet connection (WiFi or Ethernet) is active. If using cellular, ensure your subscription is active and there is cellular signal in the area.

- **Restart Hub:** Disconnect the power adapter, wait 10 seconds, and then reconnect it to restart the Hub.

- **App Issues:** Ensure your YoLink app is updated to the latest version. Try force-closing and reopening the app.
- **Device Pairing:** If a specific device is not connecting, try re-pairing it with the Hub according to its individual instruction manual.

For further assistance, refer to the YoLink support resources or contact their customer service.
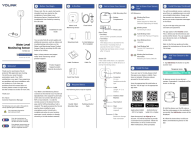

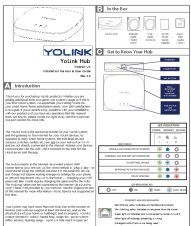

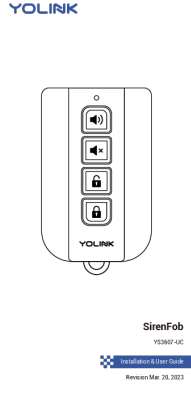

6. SPECIFICATIONS

| Feature	Detail
Model Number	YS1605
Manufacturer	YoSmart
Item Weight	12.5 ounces
Package Dimensions	5.2 x 4.49 x 3.03 inches
Style	Cellular with Battery Backup
Included Components	Hub
Color	White
Material	Plastic
UPC	810121541722
First Available Date	September 26, 2024

7. WARRANTY AND SUPPORT

While specific warranty details are not provided in this manual, YoLink products are generally known for their reliability and customer support. For any warranty claims, technical assistance, or product inquiries, please contact YoLink customer service directly.

You can find more information and support resources by visiting the official YoLink Store:YoLink Amazon Store.

Note: No official product videos were available in the provided data for embedding in this manual.
