1. PRODUCT OVERVIEW

The Cumrige M2 Waterproof Pad is designed as an essential accessory for the Cumrige Self-Cleaning Litter Box. This pad provides a protective, waterproof, and scratch-resistant surface within the litter box, enhancing hygiene and extending the lifespan of the main unit. Its high flexibility allows for easy installation and removal.

2. SETUP AND INSTALLATION

This pad is specifically designed for the Cumrige Self-Cleaning Cat Litter Box. Ensure your litter box model is compatible before installation.

1. **Prepare the Litter Box:** Ensure the Cumrige Self-Cleaning Litter Box is clean and empty before installing the pad.
2. **Position the Pad:** Carefully place the M2 Waterproof Pad into the designated area within the litter box. The pad is designed to fit snugly.
3. **Secure the Pad:** Align the edges of the pad with the interior contours of the litter box. The flexible material allows for easy adjustment to ensure a seamless fit, preventing litter or waste from getting underneath.

3. DAILY USAGE AND BENEFITS

The M2 Waterproof Pad serves as a critical component in maintaining the cleanliness and longevity of your Cumrige Self-Cleaning Litter Box. Its design focuses on preventing common issues associated with traditional litter box liners.

- **Waterproof Protection:** The surface features a PP waterproof coating, effectively preventing liquid waste from seeping through and damaging the litter box mechanism or interior.
- **Scratch Resistance:** Constructed with high flexibility and scratch resistance, the pad withstands typical feline scratching, protecting the underlying litter box surface from wear and tear.
- **Seamless Design:** The pad's seamless construction is engineered to prevent leakage, even if urine or liquid waste accumulates along the edges, ensuring a cleaner environment.

4. CLEANING AND MAINTENANCE

Regular cleaning of the M2 Waterproof Pad is crucial for maintaining hygiene and extending its lifespan. The pad is designed for easy disassembly and cleaning.

1. **Removal:** Gently lift and remove the pad from the Cumrige Self-Cleaning Litter Box.
2. **Cleaning:** The pad can be easily wiped clean with a damp cloth and mild detergent. For more thorough cleaning, it can be rinsed under running water.
3. **Drying:** Allow the pad to air dry completely before re-installing it into the litter box. Ensure no moisture remains to prevent odor or bacterial growth.
4. **Inspection:** Periodically inspect the pad for any signs of significant wear, tears, or damage that might compromise its waterproof or protective qualities.

5. TROUBLESHOOTING

Issue	Possible Cause	Solution
Leakage observed despite pad installation.	Pad not correctly seated or aligned; significant damage to the pad.	Remove and re-install the pad, ensuring it is snugly fitted and all edges are properly aligned. Inspect the pad for tears or holes; if damaged, replacement may be necessary.
Pad shows signs of excessive wear or tearing.	Aggressive scratching by pet; prolonged use beyond expected lifespan.	While designed for scratch resistance, extreme or prolonged scratching can cause wear. Consider trimming pet's claws. If wear compromises function, replace the pad.
Unpleasant odor persists after cleaning.	Incomplete drying; deep-seated odors from prolonged exposure.	Ensure the pad is completely dry before re-installation. For persistent odors, a more thorough cleaning with an enzymatic cleaner designed for pet odors may be required. If the material has absorbed odors over time, replacement might be necessary.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	M2 Waterproof pad
Brand	Cumrige
Material	Fabric with PP waterproof coating
Product Dimensions (L x W x H)	17 x 14 x 1.7 inches (43.18 x 35.56 x 4.32 cm)
