6. Maintenance

6.1. Cleaning

- Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- The tabletop is water-resistant; however, promptly wipe up any spills to prevent potential damage.
- For metal parts, use a dry cloth to remove dust.

6.2. General Care

- Periodically check all screws and fasteners to ensure they remain tight. Retighten as needed.
- Avoid placing hot items directly on the tabletop. Use coasters or protective pads.
- Do not expose the table to direct sunlight or extreme temperature changes, as this may cause warping or discoloration.

7. Troubleshooting

- **Table Wobbles:** Adjust the leveling feet on the bottom of the legs until the table is stable.
- **Lift-Top Mechanism Stiff:** Ensure no objects are obstructing the mechanism. Apply a small amount of silicone lubricant to moving parts if necessary (avoid oil-based lubricants).
- **Screws Not Aligning During Assembly:** Double-check the orientation of the parts against the assembly guide. Sometimes loosening adjacent screws slightly can help with alignment before final tightening.
- **Barn Door Not Sliding Smoothly:** Check the track for any debris or obstructions. Ensure the door is properly seated on its rollers.
