SETUP GUIDE

- 1. Connect Power Adapter:** Connect the provided USB-C to C charging cable to the charging station's input port.
- 2. Power Source:** Connect the other end of the USB-C cable to a **30W or above USB-C Power Delivery (PD) wall charger** (not included). Using an adapter with less than 30W may result in suboptimal charging performance or inability to charge all devices simultaneously.
- 3. Power On:** Once connected, the indicator light on the charging station will illuminate, indicating it is ready for use.

The adapter power must be greater than 30W

Adapters above 30W can achieve better charging efficiency

OPERATING INSTRUCTIONS

1. Charging Your iPhone (MagSafe Compatible)

- Ensure your iPhone is MagSafe compatible (iPhone 12 series or later).
- For optimal 15W fast charging, update your iPhone's operating system to **iOS 17.5 or higher**.
- Align your iPhone with the magnetic charging pad. The strong magnets will secure your device in place.
- The charging indicator on your iPhone screen will confirm charging has begun.
- Only compatible with MagSafe phone cases. Non-MagSafe cases may hinder magnetic connection and charging efficiency.

2. Charging Your Apple Watch

- Unfold the Apple Watch charging module.
- Place your Apple Watch (compatible with Series 2-10, SE, Ultra/Ultra 2) onto the charging module.
- Ensure the watch is properly seated and the charging icon appears on its screen.

- The watch charger provides up to 2.5W of power.

3. Charging Your AirPods

- Place your AirPods charging case (compatible with AirPods 2/3/4/Pro/Pro 2 with wireless charging case) onto the designated charging area at the base of the station.
- Ensure the case is centered on the charging area. The indicator light on the AirPods case will confirm charging.
- Note: This charger does **not** support AirPods 2/3/4 charging cases with model numbers A3058, A2897, or A1602. Please verify your AirPods case model for compatibility.
- The AirPods charger provides up to 3W of power.
