SETUP

1. Inserting SIM and TF Card

The DOOGEE Blade GT Ultra supports a Nano SIM + TF card in a 2-in-1 setup. Locate the SIM card tray on the side of the device. Use the provided SIM ejector tool to open the tray. Carefully place your Nano SIM card and/or TF card into the designated slots, ensuring correct orientation. Close the tray securely.

Up To 36GB RAM + 512GB ROM

2. Initial Charging

Before first use, fully charge the device using the provided Type-C USB cable and 33W charger. Connect the Type-C cable to the phone's charging port and the charger to a power outlet. The battery indicator on the screen will show charging progress. A full charge ensures optimal battery performance.

3. Powering On and Initial Configuration

Press and hold the power button (usually on the side) until the DOOGEE logo appears. Follow the on-screen prompts to complete the initial setup, including language selection, Wi-Fi connection, Google account setup, and security settings (fingerprint ID, face unlock).

OPERATING INSTRUCTIONS

1. Smart Dynamic LED Notifications

The Blade GT Ultra features dynamic LED lights that sync with music and notifications. These lights are located on the transparent back cover. You can customize the light effects for calls, messages, and applications through the phone's settings. This system provides vibrant visual alerts.

Three Ways To Unlock Smart Lighting Phones

1 Tap the "Light Elf" icon

2 From the system settings interface

3 Start the light effect in the control panel

1 Light Effect Setting

Light Elf → Click → Flashing → Click → Strobe → Click → Always-on/off

2 Brightness Setting
Users can long press "Light Elf" button to enter the brightness setting interface.

3. Camera Operation

The DOOGEE Blade GT Ultra is equipped with a 100MP AI main camera, a 5MP wide-angle lens, and a 32MP front camera. Open the camera application to access various modes such as HDR, Panorama, Night Mode, and AI features like AI Erase and AI Background Replacement. Tap the screen to focus and press the shutter button to capture photos or videos.

4. Security Features

Unlock your phone using the side-mounted fingerprint ID or face unlock. To set up, navigate to Security settings and follow the instructions to register your fingerprint or face data. These features provide quick and secure access to your device.

5. Connectivity

The phone supports 5G, Wi-Fi 6, NFC, Bluetooth 5.2, and GPS. To connect to Wi-Fi, go to Settings > Network & internet > Wi-Fi. For NFC payments, ensure NFC is enabled and your payment app is configured. GPS, Glonass, Galileo, and Beidou provide reliable navigation.

MAINTENANCE

1. Cleaning the Device

Use a soft, lint-free cloth to clean the screen and body of the phone. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner. Avoid using harsh chemicals or abrasive materials, as they may damage the device's surface or coatings.

2. Water and Dust Resistance

The DOOGEE Blade GT Ultra is IP68/IP69K/MIL-STD-810H certified, making it waterproof, dustproof, and drop-proof. While designed for rugged use, it is important to ensure all port covers (e.g., USB-C port) are securely closed to maintain water and dust resistance. Avoid exposing the phone to high-pressure water or extreme temperatures.

Figure 8: Visual demonstration of the DOOGEE Blade GT Ultra's rugged capabilities, including its waterproof, dustproof, and drop-proof design.

3. Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to new features. Go to Settings > System > System update to check for available updates.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Phone does not power on	Low battery; software crash	Charge the phone for at least 30 minutes. Press and hold the power button for 10-15 seconds to force restart.
Poor network signal	Out of network coverage; incorrect SIM card insertion	Move to an area with better signal. Reinsert the SIM card correctly. Check with your carrier for network compatibility.
Apps freezing or crashing	Insufficient RAM; app conflict; outdated software	Close background apps. Clear app cache. Update the app or phone software.
Battery drains quickly	High screen brightness; excessive background app usage; poor signal	Adjust screen brightness. Close unused apps. Enable Battery Saving Mode.

SPECIFICATIONS

Model: BLADEGTULTRA
