## MAINTENANCE

---

### Cleaning

To clean the remote control, gently wipe its surface with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or wet cloths, as these can damage the remote's finish or internal components.

### Battery Replacement

Replace batteries when the remote's response becomes sluggish or the display dims. Always replace both AAA batteries simultaneously with new ones. Do not mix old and new batteries, or different types of batteries.

### Storage

If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage to the device.

## TROUBLESHOOTING

---

If you experience issues with your ZWP Replacement Remote Control, please refer to the following common solutions:

- **Remote not responding:**
  - Check if the batteries are correctly inserted with the correct polarity.
  - Replace old batteries with new AAA alkaline batteries.
  - Ensure there are no obstructions between the remote control and the air conditioner's infrared receiver.
  - Verify that your air conditioner model is listed in the compatibility section.
- **Limited range or intermittent control:**
  - Ensure batteries are fresh.
  - Reduce the distance between the remote and the air conditioner.
  - Remove any potential sources of infrared interference.

If the problem persists after attempting these solutions, please refer to the Warranty and Support section for further assistance.
