Kokido XV100

KOKIDO 5-in-1 Rechargeable Pool & Spa Vacuum Cleaner Set

Model: XV100

Introduction

The KOKIDO XV100 is a versatile 5-in-1 rechargeable vacuum cleaner set designed for efficient light-duty debris cleaning in inflatable spas, hot tubs, and above-ground pools up to 10ft. This cordless vacuum eliminates the need for hoses and is suitable for both cold (41°F) and warm (107°F) water. It comes with essential hand tools for comprehensive maintenance, ensuring your spa or pool remains sparkling clean.

Package Contents

Verify that all items are included in your package:

- Rechargeable Pool & Spa Vacuum (Main Unit with Stainless Steel Filter)
- Multi-angled Triangular Suction Head with built-in brush
- 2-section Aluminum Pole (3.3ft total reach)
- Skimmer Net
- Spa Brush
- Spa Scrubber
- USB Charging Cable (5V USB charger not included)

Figure 1: All components of the KOKIDO XV100 set.

Setup

1. **Charge the Vacuum:** Connect the provided USB charging cable to the vacuum's charging port and a 5V USB charger (not included). Ensure the vacuum is fully charged before first use. A full charge provides over 30 minutes of cleaning time.

Figure 2: Charging the vacuum. An LED indicator shows charging status (red for charging, green for full).

2. **Assemble the Vacuum Head:** Install the stainless steel filter into the main unit. Attach the multi-angled triangular suction head to the main unit.

Video 1: Demonstrates the assembly of the Xtrovac 100 Spa Kit, including installing the stainless steel filter and vacuum head.

3. **Attach the Pole:** Connect the 2-section aluminum pole to the main vacuum unit. The pole extends up to 4.5ft for extended reach.

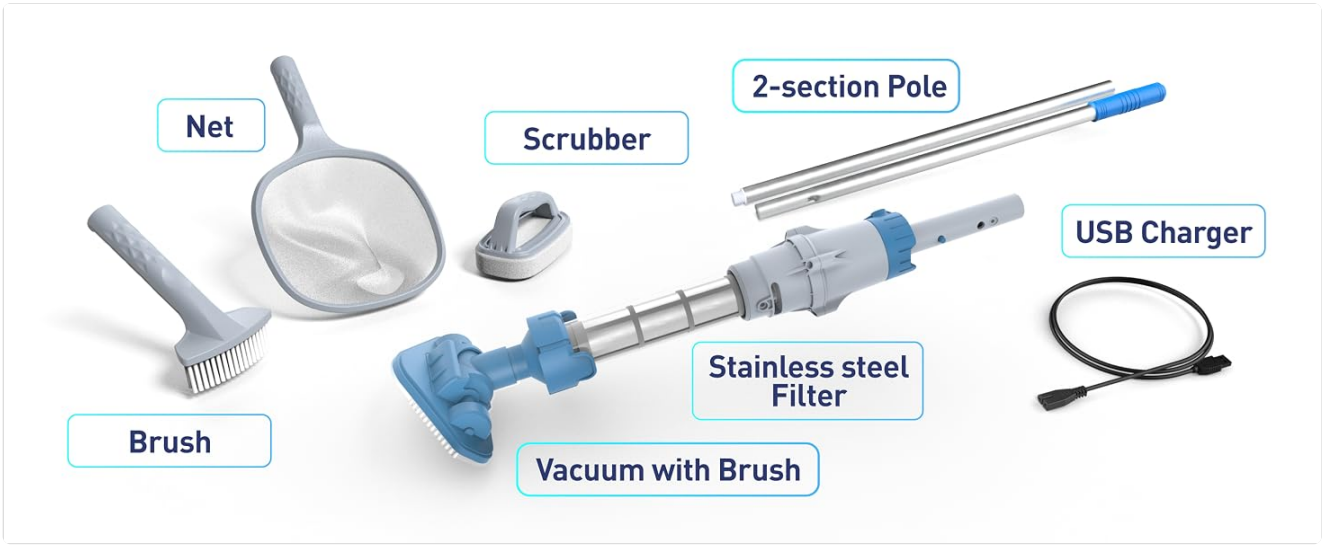

Figure 3: Fully assembled vacuum with the extension pole.

Operating Instructions

1. **Power On:** Twist the power switch on the main unit to turn on the vacuum. A green light will indicate it is active.

Figure 4: Easy power-on mechanism by twisting the unit.

2. **Submerge and Clean:** Submerge the vacuum into the water. Guide the suction head over debris on the bottom or sides of your spa/pool. The triangular head and built-in brush are effective for spot cleaning and reaching corners.

Video 2: Shows the Xtrovac 100 in action, demonstrating its cleaning performance on coarse sand, stones, and small leaves.

3. **Using Hand Tools:** For surface debris, use the provided skimmer net. For waterline grime, use the spa scrubber. The spa brush can be used for general scrubbing of surfaces.

Figure 5: The included skimmer net, brush, and scrubber for comprehensive cleaning.

4. **Power Off:** Once cleaning is complete, twist the power switch to the off position.

Maintenance

Regular maintenance ensures optimal performance and longevity of your KOKIDO XV100 vacuum.

- **Clean the Filter Cage:** After each use, remove the suction head and pull out the stainless steel filter cage. Rinse it thoroughly under running water to remove captured dirt, sand, and leaves.

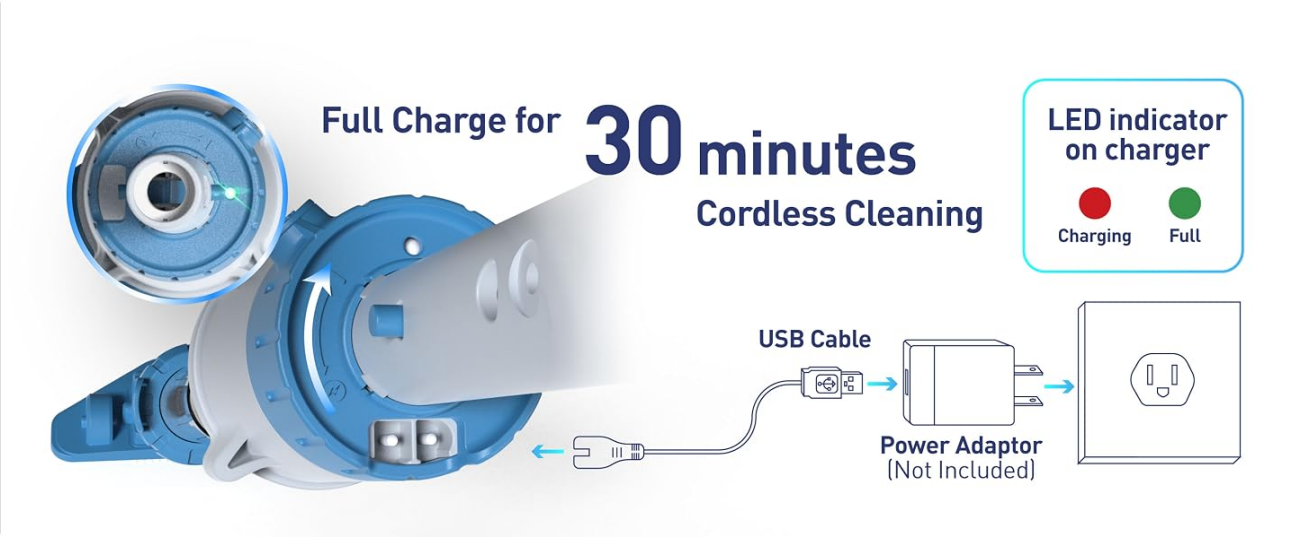

Figure 6: Easy removal and cleaning of the stainless steel filter.

- **Dry and Recharge:** After cleaning, dry the unit and recharge the battery when it is low to ensure it's ready for the next use.
- **Store Properly:** Store the vacuum and accessories in a dry, cool place away from direct sunlight.

Specifications

Feature	Detail
Model Name	XV100
Brand	Kokido
Power Source	AC (Rechargeable via USB)
Voltage	3.7 Volts
Product Dimensions	60.24"L x 2.95"W x 2.56"H
Item Weight	3.34 pounds
Material	Plastic, Metal
Color	Grey & Blue
Water Temperature Range	41 - 107°F (5 - 42°C)
Run Time per Charge	30+ minutes
Filter Micron Size	250 micron (Stainless Steel)
UPC	844268032690

Troubleshooting

- **Low Suction:** Ensure the battery is fully charged. Check the stainless steel filter cage for debris and clean if necessary.
- **Vacuum Not Turning On:** Verify the unit is fully charged. Ensure the power switch is twisted completely to the "ON" position.

- **Debris Not Being Picked Up:** Confirm the suction head is properly attached and sealed. Check for any blockages in the suction path. Note that the vacuum is designed for light-duty debris (sand, small leaves) and may not effectively pick up very fine sediment or algae.
