VIKIO HOME VK-RB30-30SI

VIKIO HOME Range Hood Insert Instruction Manual

MODEL: VK-RB30-30SI

Introduction

Welcome to your new VIKIO HOME Range Hood Insert. This manual provides detailed instructions for the safe and efficient operation, installation, and maintenance of your appliance. Please read this manual thoroughly before installation and use, and keep it for future reference.

Important Safety Instructions

- Always disconnect power before servicing or cleaning the unit.
- Follow all local building codes and regulations for installation and ventilation.
- Ensure proper grounding of the electrical connection to prevent electric shock.
- Use only as intended for general ventilating use in a kitchen environment. Do not use to exhaust hazardous or explosive materials.
- Keep children and pets away from the appliance during operation and maintenance.

Package Contents

Your VIKIO HOME Range Hood Insert package includes the following items:

- Instruction Manual
- Activated carbon filter (for ductless operation)
- Mounting screws
- 6-inch top round adapter
- Stainless steel baffle filters (2 Pcs)

Setup and Installation

The VIKIO HOME Range Hood Insert is designed for both ducted and ductless configurations, offering flexibility for your kitchen setup. For detailed installation instructions, please refer to the official Installation Manual PDF: [Download Installation Manual \(PDF\)](#).

Operating Your Range Hood

Control Panel and Gesture Control

Your range hood features a new generation gesture and touch control panel for convenient operation. The 29° bevel design makes the switch more conspicuous and operation more precise, with a gesture success rate of 99.5%.

Hands-Free Control Just a Wave

Touch
3 Levels Speed

Wave
Hand Control

3 Mins
Delay Shutdown

Detailed view of the gesture and touch control panel, highlighting the sensing points for hands-free operation.

- **On/Off/Delay:** Use touch or gesture to power the unit on or off. The upgraded delayed shutdown function allows the range hood to automatically shut down after 3 minutes, effectively removing remaining fumes.
- **Light:** Control the dual 3W LED lights for bright, natural illumination (4000K). These lights provide true food colors, eye protection, and are energy-saving and long-lasting.
- **Speed Settings:** Choose from 3 adjustable fan speeds: Low, Medium, and High. Swipe your hand to the right over the sensing points to increase speed, and to the left to decrease speed.

Powerful and Quiet Ventilation

Equipped with an upgraded 980 CFM motor, this range hood provides powerful suction to quickly remove smoke and odors, ensuring a clean kitchen environment. It offers 18% more airtightness and 40% more suction compared to previous models.

Let the Aroma Stay, Not the Smoke.

18%
More Airtight

40% ↑
Air intake increased

980 CFM
Suction Power

The range hood effectively removing smoke and odors from the cooking area.

The range hood's advanced duct system minimizes airflow noise, operating as low as 35 dBA at low speed and less than 65 dBA at high speed (less than 65 dBA overall). This ensures a quiet cooking environment even during powerful ventilation.

Let the Smoke Know where to Go

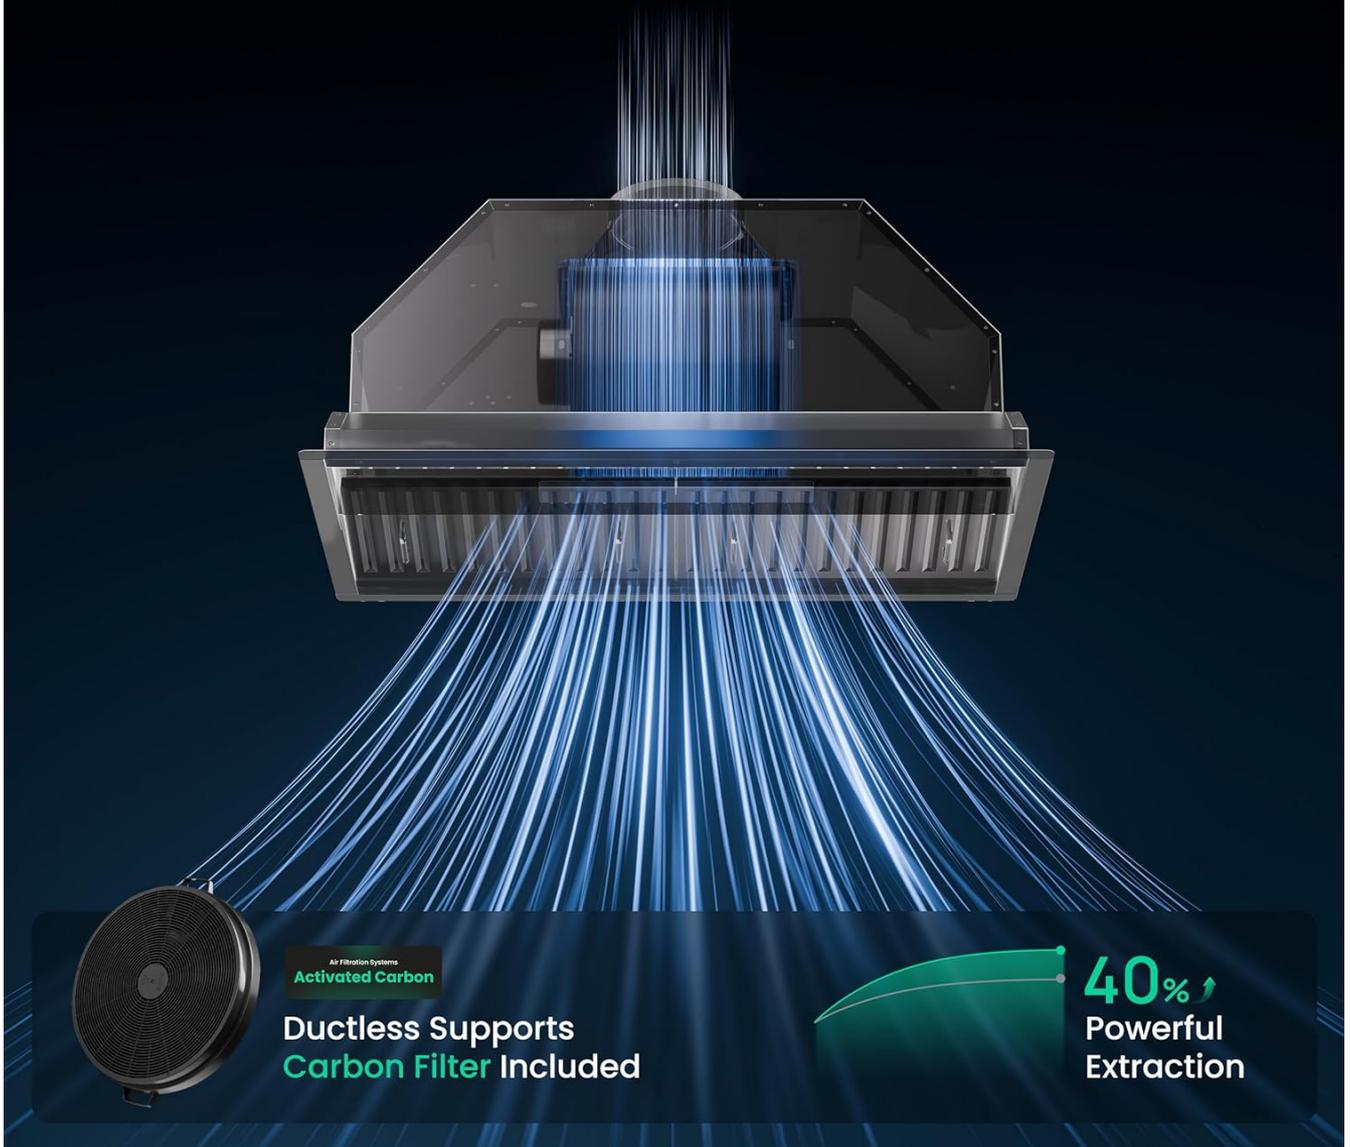

Illustration of the range hood's quiet operation, with noise levels as low as 35 dBA.

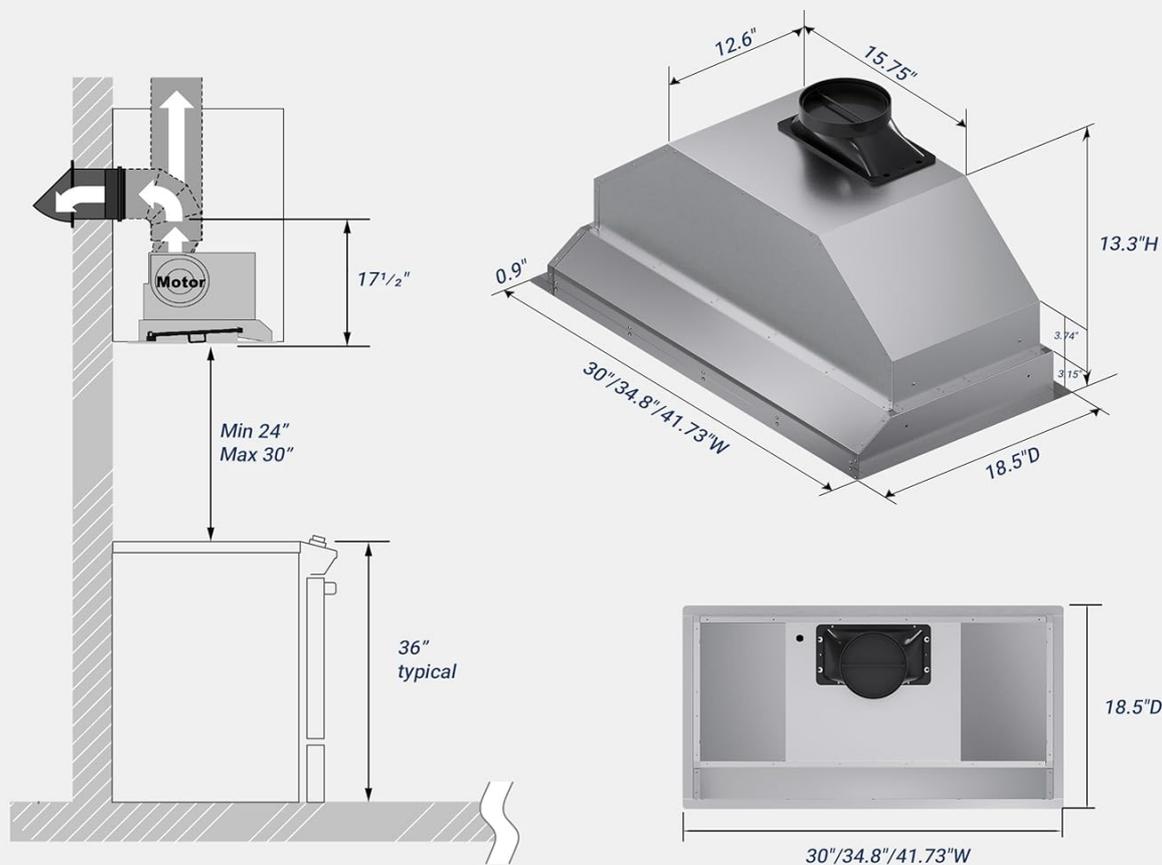

Cleaning and Maintenance

Filter Cleaning

The range hood features 2 removable stainless steel baffle filters that effectively block cooking grease. Regular cleaning is essential for optimal performance.

Demension

Range Hood RB30

Compatible types:

Wall Mount Range Hoods	⊗
Under Cabinet Range Hoods	⊗
Max.Installation Height	30"

Island Range Hoods	⊗
Built-In Range Hoods	⊙
Min.Installation Height	24"

The removable stainless steel filters can be easily cleaned by rinsing them off or placing them in a dishwasher.

- **Stainless Steel Baffle Filters:** These filters are dishwasher safe for easy and thorough cleaning. Alternatively, they can be rinsed off with warm, soapy water.
- **Activated Carbon Filter:** For ductless use, the activated carbon filter helps remove remaining fumes and odors. These filters are typically not washable and should be replaced periodically based on usage.

Exterior Cleaning

Clean the stainless steel exterior with a soft cloth and a non-abrasive stainless steel cleaner. Avoid using harsh chemicals or abrasive pads that could scratch the surface.

Troubleshooting Common Issues

If you encounter any issues with your VIKIO HOME Range Hood, please refer to the following general guidelines. For specific problems, consult the full instruction manual or contact customer support.

- **Fan not operating:** Check power connection and ensure the unit is properly plugged in. Verify that the control

panel is responsive and not in a locked mode.

- **Low suction:** Clean the baffle filters thoroughly. For ducted models, ensure ducting is clear and not obstructed. For ductless models, check if the activated carbon filter needs replacement.
- **Excessive noise:** Check for loose components or obstructions in the fan area. Ensure proper installation and secure mounting within the cabinet.
- **Lights not working:** Check light connections. If individual lights are out, they may need replacement. Contact customer service for replacement lights if needed.

Product Specifications

Feature	Specification
Air Flow Capacity	980 Cubic Feet Per Minute
Material	Stainless Steel
Noise Level	Less than 65 dB (as low as 35 dBA)
Mounting Type	Insert Mount
Included Components	Mounting screws, 6-inch top round adapter, Activated carbon filter, Stainless steel baffle filter, Instruction Manual
Controls Type	Touch, Gesture
Voltage	110 Volts
Number of Speeds	3
Item Weight	45.32 Pounds
