MAQQL RB-1

MAQQL Beige Stick Headboard Instruction Manual

Brand: MAQQL | Model: RB-1

INTRODUCTION

Thank you for choosing the MAQQL Beige Stick Headboard. This 6-piece wall-mounted bed backboard is designed to provide a modern and elegant upgrade to your bedroom with its easy-to-install peel and stick design. Each panel measures 24 x 12 inches, offering versatility to create a custom look while enhancing comfort and protecting your wall.

SAFETY INFORMATION

- Ensure the wall surface is clean, dry, and smooth before installation to ensure proper adhesion.
- Avoid installing on uneven, textured, or freshly painted surfaces (wait at least 3 weeks after painting).
- Keep the product away from excessive moisture or direct heat sources.
- Do not allow children to play with the adhesive backing or packaging materials.
- If repositioning, do so carefully to avoid damaging the wall or the adhesive.

PACKAGE CONTENTS

Your MAQQL Beige Stick Headboard package includes the following:

- 6 x Beige Upholstered Headboard Panels (24 x 12 inches each)

- Self-adhesive backing on each panel

SETUP AND INSTALLATION

Follow these steps for a smooth and secure installation of your headboard panels:

1. **Prepare the Wall Surface:** Ensure the wall where you plan to install the headboard is clean, dry, and free of dust, grease, or loose paint. A smooth, non-textured surface is ideal for optimal adhesion.
2. **Plan Your Layout:** Before peeling off the adhesive, arrange the panels on the floor or lightly hold them against the wall to visualize your desired layout. Use a measuring tape and a pencil to mark the starting points and ensure proper alignment. Consider the height of your bed and mattress for optimal placement.

Image: A person measuring the wall above a bed to plan the placement of the headboard panels, ensuring proper alignment and spacing.

3. **Peel and Stick:** Carefully peel off the protective backing from the adhesive side of one panel. Avoid touching the adhesive surface with your fingers to maintain its stickiness.

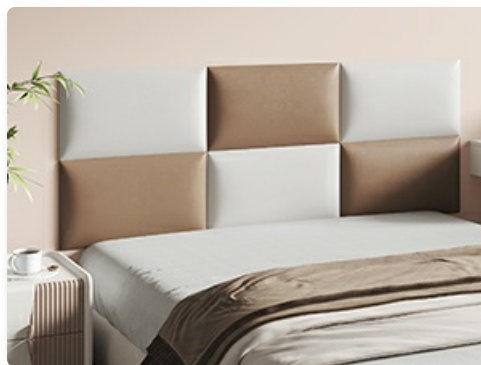

Image: A close-up view of a hand carefully peeling the protective paper from the self-adhesive backing of a headboard panel.

4. **Apply to Wall:** Align the panel with your pre-marked guides on the wall. Once aligned, press the panel firmly against

the wall, working from the center outwards to remove any air bubbles and ensure full contact with the adhesive.

Image: A hand pressing down on a headboard panel to secure it firmly to the wall, ensuring strong adhesion.

5. **Repeat for Remaining Panels:** Continue with the rest of the panels, ensuring they are closely aligned to create a seamless look. Use a level to check horizontal and vertical alignment as you go.

OPERATING INSTRUCTIONS

The MAQQL Stick Headboard is designed for passive use as a decorative and comfortable backrest. Once installed, it requires no active operation. Simply enjoy the enhanced aesthetic and comfort it brings to your bed.

MAINTENANCE

To keep your MAQQL Stick Headboard looking its best:

- **Cleaning:** Wipe clean with a dry cloth. For minor spills or marks, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent moisture absorption.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the upholstery.
- **Dusting:** Regularly dust the panels with a soft, dry cloth to prevent dust buildup.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Panels are not sticking or fall off.	Wall surface is not clean, dry, or smooth. Wall is freshly painted or has high texture. Insufficient pressure applied during installation. High humidity or temperature fluctuations.	Clean the wall thoroughly and ensure it's completely dry. Wait at least 3 weeks after painting before installation. Consider using a primer for textured walls. Apply firm, even pressure across the entire panel for at least 30 seconds. For persistent issues, consider supplementing with additional strong double-sided adhesive tape (not included).

Problem	Possible Cause	Solution
Panels are misaligned.	Improper initial placement. Lack of measurement or leveling during installation.	If recently installed, carefully peel off and re-align. Always use a measuring tape and level to mark guides before applying panels.

SPECIFICATIONS

Feature	Detail
Product Name	Beige Stick Headboard
Model Number	RB-1
Brand	MAQQL
Color	Beige
Panel Dimensions (each)	12"W x 24"H (approx. 30.5 cm x 61 cm)
