

Rolife TG415

Rolife 3D Wooden Sakura Bonsai Tree Puzzle

MODEL: TG415 - INSTRUCTION MANUAL

1. Product Overview

The Rolife 3D Wooden Sakura Bonsai Tree Puzzle (Model TG415) is a DIY model building kit designed for adults. This kit allows you to construct a detailed and decorative cherry blossom bonsai tree using precision-cut wooden pieces. Once assembled, it serves as an aesthetic home decor item, bringing a touch of natural beauty to any space.

The assembly process is intended to be a rewarding experience, promoting problem-solving skills, spatial awareness, and hand-eye coordination. The kit contains 263 pieces and typically takes approximately 1.5 hours to complete.

What's in the Box:

- Laser-cut wooden sheets for the bonsai tree and pot components.
- Bags of small pink and white flower pieces.
- Detailed instruction manual.

Gift Choice

The kit includes laser-cut wooden sheets for the bonsai tree and pot, along with bags of small pink and white flower pieces.

2. Safety Information

- **Age Recommendation:** This product is recommended for individuals aged 14 years and older.
- **Small Parts Warning:** The kit contains small pieces that may pose a choking hazard. Keep out of reach of young children.
- **Fire Hazard:** Do not expose the wooden components to open flames or high heat sources.

- **Handling:** Handle delicate pieces with care during assembly to prevent breakage.

3. Assembly Instructions

Follow these steps to assemble your Rolife 3D Wooden Sakura Bonsai Tree Puzzle. Refer to the included printed manual for detailed diagrams.

Step 1: Prepare the Components

1. Carefully detach all wooden pieces from their sheets. Use a small tool if necessary to ensure clean breaks.
2. Organize the pieces by type or number as indicated in the manual to streamline the assembly process.

Step 2: Assemble the Pot Base

1. Begin by interlocking the designated wooden pieces to form the rectangular base of the bonsai pot.
2. Ensure all connections are secure and flush.

EVERYTHING YOU NEED

Carefully connect the interlocking wooden pieces to form the base of the bonsai pot.

Step 3: Construct the Tree Trunk and Branches

1. Identify the pieces that form the main trunk and larger branches of the sakura tree.
2. Interlock these pieces according to the manual's diagrams, building the tree structure from the base upwards.
3. Insert the assembled trunk into the designated slot in the pot base.

NICE BOOKSHELF DECOR

Interlock the larger wooden pieces to construct the main trunk and branches of the sakura tree.

Step 4: Attach the Flower Petals

1. Begin attaching the small pink and white flower pieces to the branches.
2. Gently press each flower piece into its corresponding slot on the branches. Distribute them evenly to create a full, blooming effect.

Gently press the individual flower pieces onto the designated slots on the tree branches to create the cherry blossoms.

4. Operating Instructions

The Rolife 3D Wooden Sakura Bonsai Tree Puzzle is a static display model. No operational steps are required after assembly. Simply place it on a flat, stable surface as a decorative item.

ENJOY DIY TIME WITH FAMILY

The fully assembled sakura bonsai tree, showcasing its delicate pink and white blossoms and intricate wooden trunk.

5. Maintenance

- **Cleaning:** Dust the model gently with a soft, dry cloth or a soft brush. Avoid using water or cleaning solutions, as

they may damage the wood.

- **Placement:** Keep the model away from direct sunlight, excessive humidity, or extreme temperature changes to prevent warping or fading of the wood.
- **Handling:** When moving the model, support it from the base to prevent stress on the delicate branches and connections.

6. Troubleshooting

- **Fragile Pieces:** Some pieces, especially smaller ones, can be delicate. If a piece breaks during assembly, check if a spare is provided in the kit. For minor breaks, a small amount of wood glue can be used to reattach.
- **Loose Connections:** If any parts feel loose after assembly, ensure they are fully inserted into their slots. For added stability, a small drop of wood glue can be applied to the joints (allow to dry completely).
- **Missing Pieces:** In the rare event of missing pieces, please contact Rolife customer support for assistance.
