

EUHOMY XEF-72

EUHOMY 73-inch Electric Fireplace (Model XEF-72) Instruction Manual

User Guide for Recessed, Wall-Mounted, and Freestanding Installations

1. IMPORTANT SAFETY INFORMATION

Please read this entire instruction manual carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, property damage, or personal injury.

- Always disconnect power before cleaning, performing maintenance, or relocating the fireplace.
- This fireplace is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. Keep combustible materials, such as furniture, pillows, bedding, papers, clothes, and curtains, at least 3 feet (0.9 m) from the front of the fireplace and keep them away from the sides and rear.
- Extreme caution is necessary when any heater is used by or near children or invalids and whenever the fireplace is left operating and unattended.
- Do not operate any fireplace with a damaged cord or plug or after the fireplace malfunctions, has been dropped, or damaged in any manner.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the fireplace.
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
- This fireplace is not intended for use in bathrooms, laundry areas, and similar indoor locations. Never locate fireplace where it may fall into a bathtub or other water container.
- Connect to properly grounded outlets only.
- Do not use this fireplace outdoors.

2. PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- EUHOMY 73-inch Electric Fireplace Unit
- Remote Control
- Tempered Glass Panels
- Log Set
- Crystal Media
- Mounting Hardware (screws, brackets)
- Instruction Manual

3. INSTALLATION

The EUHOMY 73-inch Electric Fireplace offers versatile installation options: recessed, wall-mounted, or freestanding. Ensure the chosen location is near a grounded electrical outlet and away from flammable materials. Refer to the provided dimensions for precise measurements.

3.2 Installation Methods

PRODUCT DIMENSIONS

PRODUCT DIMENSIONS						
Model Number	A	B	C	D	E	F
EF-72	73.23"	17.72"	5.55"	58.7"	12.2"	68.0"

PRODUCT DIMENSIONS			
Model Number	W	H	D
EF-72	70.70" in	16.30" in	5.98" in

Image: Visual representation of the three available installation methods: fully recessed into a wall, mounted directly onto a wall, and freestanding with a base.

3.2.1 Recessed Installation

For a flush, built-in look, create an opening in your wall according to the fireplace's dimensions (73"W x 17.7"H x 5.6"D). Ensure proper framing and electrical access. Secure the unit within the opening using the provided mounting brackets and screws.

3.2.2 Wall-Mounted Installation

Attach the wall-mounting bracket securely to a wall stud at the desired height. Lift the fireplace unit and hook it onto the bracket. Ensure it is level and stable before final tightening.

3.2.3 Freestanding Installation

Attach the included freestanding base to the bottom of the fireplace unit using the provided screws. Place the unit on a flat, stable surface.

3.3 Media Installation (Logs & Crystals)

Carefully place the decorative log set and crystal media into the designated fuel bed area of the fireplace. Ensure they are evenly distributed for optimal visual effect.

4.1.4 Timer Function

Use the timer button () to set an automatic shut-off time between 0.5 and 8 hours.

5. MAINTENANCE

- **Cleaning:** Ensure the fireplace is turned off and unplugged before cleaning. Use a soft, damp cloth to wipe down the exterior surfaces. Do not use abrasive cleaners or sprays.
- **Air Vents:** Regularly check and clean the air inlet and outlet vents to ensure unobstructed airflow. Blocked vents can lead to overheating.
- **Storage:** If storing the fireplace for an extended period, ensure it is clean, dry, and stored in a safe location.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fireplace does not turn on.	No power, main switch off, remote battery low.	Check power outlet, ensure main power switch is on, replace remote batteries.
No heat output.	Heater function not activated, thermostat set too low, air vents blocked.	Activate heater, adjust thermostat, clear air vents.
Flame effect not working.	Flame effect off, LED lights malfunction.	Activate flame effect. If issue persists, contact customer support.
Remote control not working.	Batteries dead, obstruction, remote out of range.	Replace batteries, remove obstructions, operate within range.
