Important Safety Information

Adhere to the following safety guidelines to prevent injury or damage to the product:

- Always ensure the cabinet is stable before use.
- Keep fingers and other body parts away from the locking mechanism when closing or opening the cabinet doors.
- Do not overload the cabinet as it may tip over.
- Place the cabinet on a level surface to ensure stability.
- Avoid climbing on or leaning heavily on the cabinet.

Package Contents

Before assembly, verify that all components are present and undamaged. Refer to the included parts list in your physical package for exact quantities. The main types of components include:

- **Metal Frame Components:** Various lengths of metal rods, spherical connectors, and adjustable feet.
- **Panels:** Top, bottom, side, back, and door/drawer panels.

- **Hardware:** Screws (various sizes), lock mechanisms, and hinges.
- **Tools:** Allen wrench and screwdriver (typically included).

Assembly Instructions

Follow these steps to assemble your ARVORA Modern Storage Cabinet Sideboard. An assembly video is provided for visual guidance. Note that the specific configuration in the video may vary slightly from your product, but the assembly principles remain consistent.

Video 1: Storage Cabinet Assembly Guide. This video demonstrates the step-by-step process for assembling an ARVORA modular storage cabinet, including frame construction, panel insertion, and door/drawer attachment.

1. **Frame Construction:** Begin by assembling the vertical frame sections using the metal rods and spherical connectors. Ensure the adjustable feet are attached to the bottom rods.
2. **Horizontal Connections:** Connect the vertical frame sections using horizontal rods. *Important: Do not fully tighten the screws (M screws) at this stage. Leave them slightly loose to allow for adjustments.*
3. **Complete Frame:** Once all frame sections are connected and the overall structure is formed, ensure the frame is square and level. Then, fully tighten all screws (M screws) to secure the frame.
4. **Insert Panels:** Slide the top, bottom, and side panels into their designated slots within the metal frame.
5. **Prepare Doors/Drawers:** Attach the lock mechanisms and hinges to the door and drawer panels as indicated in the instructions. Partially unscrew any pre-installed screws on the lock mechanisms before installation.
6. **Attach Doors/Drawers:** Carefully attach the prepared doors and drawers to the frame. Ensure proper alignment and smooth operation.
7. **Install Back Panels:** Insert the back panels into the rear slots of the cabinet.
8. **Final Adjustments:** Check all connections for tightness and ensure all doors and drawers operate correctly. Adjust the leveling feet as needed to stabilize the cabinet.

Operating Instructions

Your ARVORA Storage Cabinet is designed for versatile storage. To operate:

- **Opening Doors/Drawers:** Use the integrated handles or knobs to open and close the doors and drawers.
- **Locking Mechanism:** If your model includes a lock, insert the key and turn to secure or unlock the compartment.
- **Storage Capacity:** Distribute items evenly across shelves and within drawers. Avoid placing excessively heavy items on upper shelves to maintain stability.

Maintenance

To ensure the longevity and appearance of your storage cabinet:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized steel finish.
- **Regular Checks:** Periodically inspect all screws and connections to ensure they remain tight. Retighten if necessary.

- **Avoid Moisture:** Keep the cabinet in a dry environment to prevent corrosion.

Troubleshooting

If you encounter issues during assembly or use, consider the following:

- **Difficulty with Screw Tightening:** Ensure all components are correctly aligned before attempting to fully tighten screws. If a screw hole seems stripped, do not force it; contact customer support.
- **Unstable Cabinet:** Verify that the cabinet is on a level surface. Adjust the leveling feet at the bottom of the frame to eliminate wobbling. Ensure all frame screws are fully tightened.
- **Doors/Drawers Not Closing Properly:** Check that hinges and lock mechanisms are correctly installed and not obstructed. Ensure the frame is square.

Product Specifications

Feature	Detail
Brand	ARVORA
Model Number	A0026-2
Color	Brown
Material	Galvanized Steel
Product Dimensions (D x W x H)	14.8"D x 89.6"W x 29.1"H
Item Weight	60 Pounds
Number of Drawers	3
Number of Shelves	3
Mounting Type	Free-standing
Required Assembly	Yes
