› Faazy Tuya Smart Cat Litter Box (Model: Smart Cat Litter) - User Manual

Faazy Smart Cat Litter

Faazy Tuya Smart Cat Litter Box - User Manual

Model: Smart Cat Litter

1. INTRODUCTION

Thank you for choosing the Faazy Tuya Smart Cat Litter Box. This automatic litter box is designed to provide a clean and convenient solution for cat owners, featuring a large capacity, smart cleaning modes, app control, and advanced safety features. Please read this manual carefully before use to ensure proper operation and maintenance.

Important Safety Information

- Avoid violent impacts to the device.
- Ensure the device is placed on a stable, level surface.
- Keep out of reach of small children and pets not intended for use with this device.
- Do not immerse the main unit in water or other liquids.
- Use only the provided power adapter.

The Faazy Tuya Smart Cat Litter Box, designed for convenience and cleanliness.

2. SETUP GUIDE

Follow these steps to set up your Faazy Tuya Smart Cat Litter Box for the first time.

2.1 Unboxing and Placement

1. Carefully remove all components from the packaging.
2. Place the litter box on a firm, level surface in a suitable location, away from direct sunlight or heat sources.
3. Ensure there is enough space around the unit for proper ventilation and access.

2.2 Initial Litter Bag Installation

The litter box uses a disposable waste bag system for easy disposal.

Steps for installing or replacing the waste bag.

1. **Open the lid:** Press the release buttons on the top of the unit to open the main lid.
2. **Remove the bag:** If an old bag is present, carefully remove it.
3. **Replace with new bag:** Insert a new waste bag into the designated compartment, ensuring it is properly seated and secured. Close the lid firmly until it clicks.

2.3 Adding Cat Litter

1. Open the main lid of the litter box.
2. Pour suitable clumping cat litter into the main compartment. Do not exceed the maximum fill line indicated inside the drum.
3. Close the lid securely.

2.4 Power Connection

1. Connect the power adapter to the power input port on the back of the unit.

2. Plug the adapter into a standard electrical outlet.
3. The unit will power on, and the indicator lights will illuminate.

3. OPERATING INSTRUCTIONS

The Faazy Tuya Smart Cat Litter Box offers multiple cleaning modes and can be controlled via its integrated panel or a smartphone app.

3.1 Control Panel Overview

The control panel on the front of the unit allows for basic operations.

Overview of the control panel functions and app interface.

- **Clean:** Initiates a manual cleaning cycle.
- **Replace Litter:** Activates a cycle to empty all litter for replacement.

- **Auto:** Toggles automatic sensing mode.
- **Remove Odor:** Activates the deodorizing function.

3.2 Smart Cleaning Modes

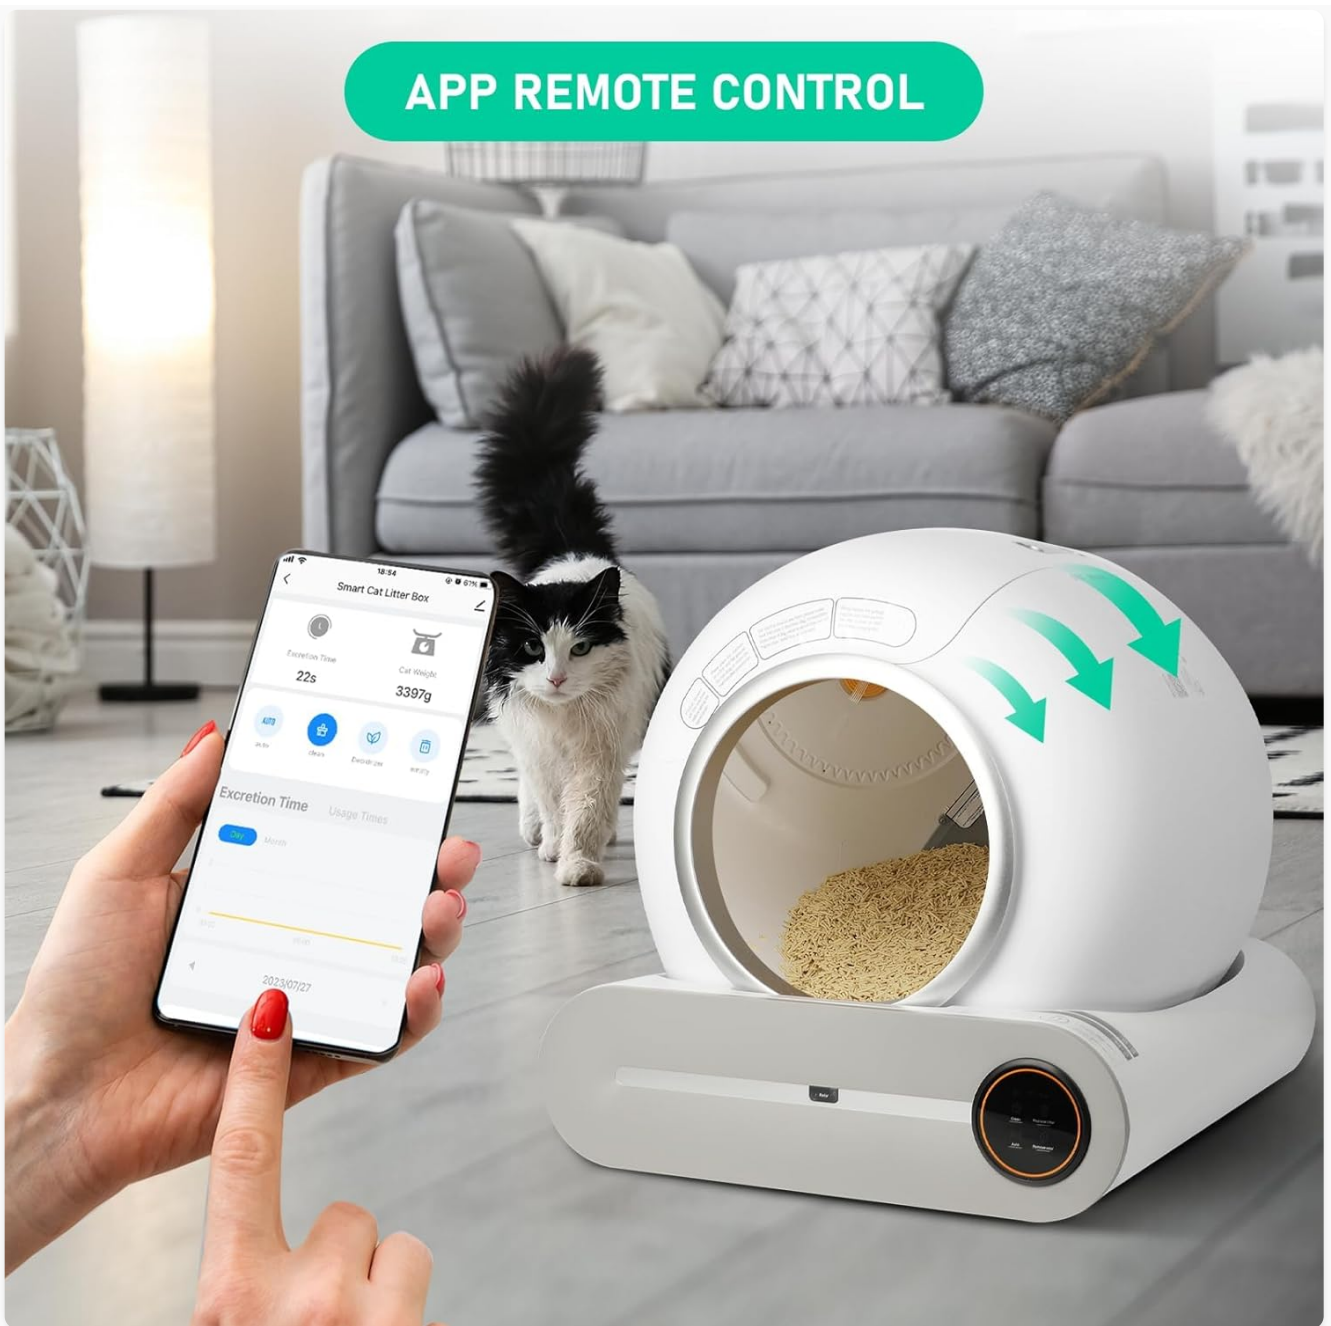

The litter box features four versatile cleaning modes:

- **Automatic Sensor Cleaning:** The device detects when your cat has used the litter box and automatically initiates a cleaning cycle after a set delay (configurable via app).
- **Timer Cleaning:** Schedule cleaning cycles at specific times of the day via the app.
- **One-Touch Litter Change:** Press the 'Replace Litter' button on the unit or in the app to empty all litter for a complete change.
- **Deodorizing Mode:** Activates the built-in deodorizer to neutralize odors, either manually or on a schedule.

3.3 App Control

For full functionality and remote management, download the Tuya Smart app (or compatible app) on your smartphone.

APP REMOTE CONTROL

Control your litter box remotely using the smartphone app.

1. Download the Tuya Smart app from your device's app store.
2. Register or log in to your account.
3. Add the Faazy Smart Cat Litter Box as a new device by following the in-app instructions (usually involves putting the device in pairing mode).
4. Once connected, you can control cleaning cycles, set schedules, monitor usage, and adjust settings from anywhere.

3.4 Safety Features

The litter box is equipped with advanced safety mechanisms to protect your cat.

AUTOMATIC SENSING, NO STUCK

Infrared sensing cat approaches and stop immediately.

The internal chip detects that the cat has left and starts to clean up the cat litter

Automatic sensing ensures cat safety during operation.

- **Infrared Induction Sensors:** Detect when a cat approaches or enters the unit, immediately pausing any ongoing cleaning cycle.
- **Weight Sensors:** Monitor the cat's presence inside the drum, ensuring the cleaning cycle only starts after the cat has safely exited.

4. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your litter box.

4.1 Waste Bag Replacement

Replace the waste bag regularly, typically every 7-15 days depending on cat usage and number of cats. Refer to section 2.2 for detailed steps.

4.2 Litter Replacement

Periodically, you may need to completely replace all the litter. Use the 'Replace Litter' function to empty the drum, then clean the drum and refill with fresh litter.

4.3 Cleaning the Unit

- **Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners.
- **Interior Drum:** For a deeper clean, the interior drum can be removed. Disconnect power before removing. Wash with mild soap and water, rinse thoroughly, and ensure it is completely dry before reassembling.
- **Sensors:** Gently wipe the infrared and weight sensors with a dry, soft cloth to ensure they remain free of dust or debris.

5. TROUBLESHOOTING

If you encounter issues with your Faazy Tuya Smart Cat Litter Box, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Unit does not power on.	Power cable not connected; power outlet issue.	Check power cable connection; try a different outlet.
Cleaning cycle does not start automatically.	Automatic mode off; sensors obstructed; cat still inside.	Ensure 'Auto' mode is active; clean sensors; wait for cat to exit.
App cannot connect to the device.	Wi-Fi issue; device not in pairing mode; incorrect app.	Check Wi-Fi connection; put device in pairing mode (refer to app instructions); ensure you are using the Tuya Smart app.
Odor persists.	Deodorizer off; waste bag full; unit needs cleaning.	Activate deodorizing mode; replace waste bag; perform a full unit cleaning.
Litter is not fully scooped.	Too much litter; incorrect litter type; mechanical obstruction.	Ensure litter is below max fill line; use high-quality clumping litter; check for obstructions in the drum.

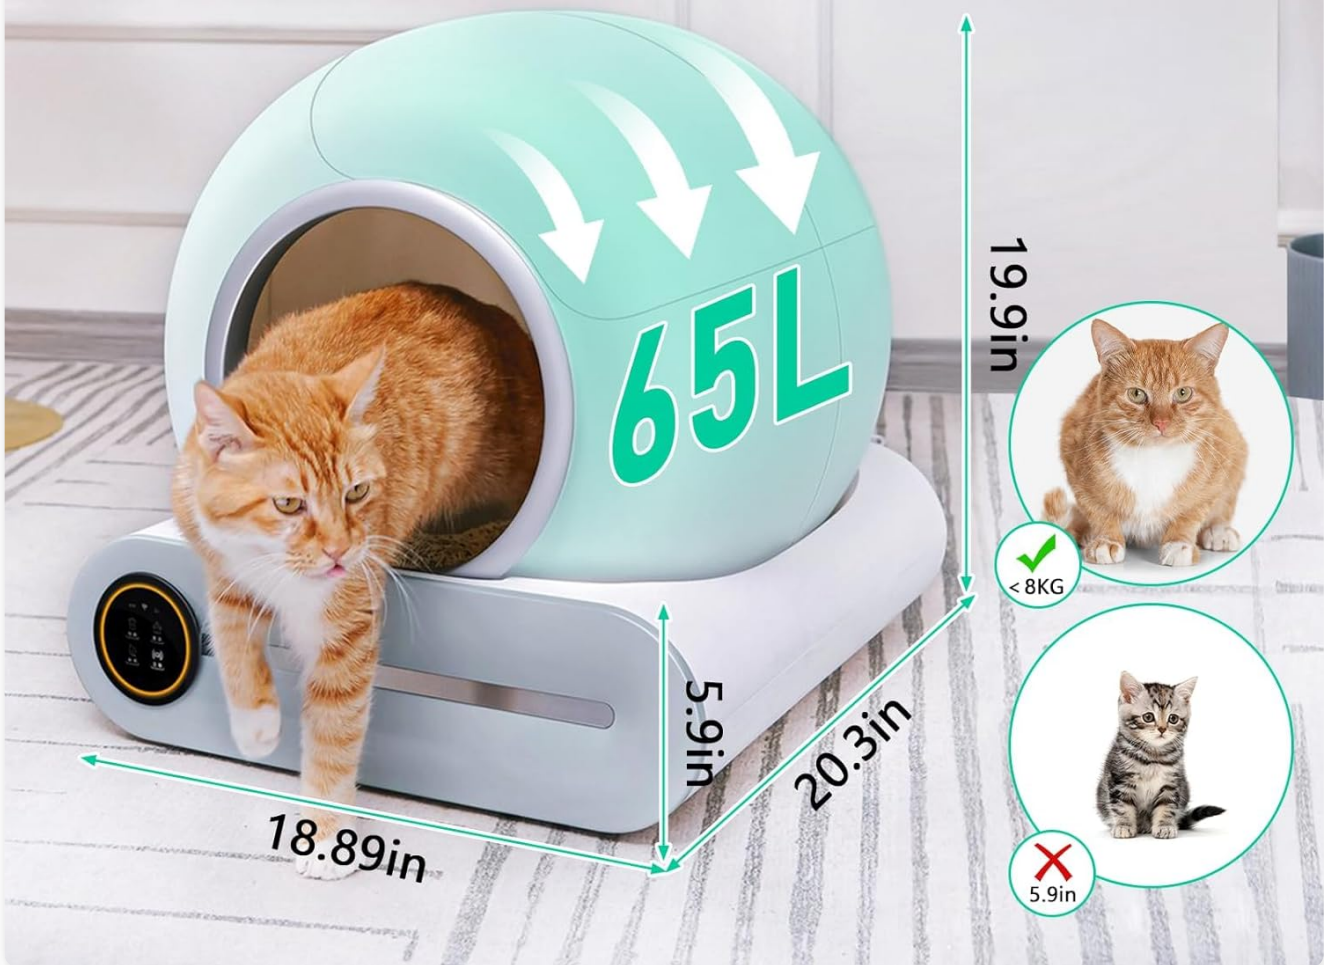

6. PRODUCT SPECIFICATIONS
