Lamshaw Screen Protector Instruction Manual for JOYELE H96 /
Mgaolo H96 Kids Smart Watch

Model: JOYELE H96 / Mgaolo H96 Kids Smart Watch Screen Protector

INTRODUCTION

This manual provides detailed instructions for the proper installation and care of your Lamshaw TPU Screen Protector, designed specifically for the JOYELE H96 and Mgaolo H96 Kids Smart Watches. Following these guidelines will ensure optimal protection and performance for your device's screen.

WHAT'S IN THE BOX

Verify that all components are present in your package before beginning installation.

- 6 x Screen Protectors
- 1 x Squeegee
- 1 x Microfiber Cloth
- 3 x Alcohol Cleaning Wipes (Wet & Dry)

INSTALLATION GUIDE

For a bubble-free and precise application, follow these steps carefully. Ensure you are in a dust-free environment.

1. **Clean the Screen:** Use the provided alcohol cleaning wipe (labeled "1") to thoroughly clean the smartwatch screen.
2. **Dry the Screen:** Use the dry wipe (labeled "2") or the microfiber cloth to remove any moisture or residue, ensuring the screen is completely dry and lint-free.
3. **Align the Protector:** Carefully peel off the first protective layer (often labeled "1" or "back") from the screen protector. Align the protector with the smartwatch screen, ensuring it is centered and straight.
4. **Apply and Smooth:** Gently lay the screen protector onto the watch face. Use the squeegee to push out any air bubbles from the center towards the edges.
5. **Remove Top Layer:** Once the protector is smoothly applied, peel off the final top protective layer (often labeled "2" or "front").
6. **Final Touches:** Use the microfiber cloth to gently wipe the screen, removing any fingerprints or smudges.

Easy Installation

Please watch our online video
before your installation

Image: A hand demonstrating the "Easy Installation" process, showing the careful peeling and application of the screen protector onto a smartwatch.

Note: Minor bubbles may disappear naturally within 24-48 hours due to the self-healing properties of the TPU material.

PRODUCT FEATURES

- **Sensitive Touch Response:** With an ultra-thin 0.1mm design, the protector maintains the original touch sensitivity of your smartwatch, ensuring quick application launches and smooth navigation.

Original Touch Response

Responds quickly without any lag or mistake

Image: A finger touching a smartwatch screen, illustrating the responsive touch experience maintained by the screen protector.

- **Maximum Coverage:** The flexible TPU material is designed to perfectly fit the curved edges of your smartwatch screen, providing comprehensive edge-to-edge protection.
- **Ultra Clear Transparency:** Enjoy 99% HD clarity with high-definition transparent film, preserving the bright and vibrant image quality of your smartwatch display.
- **Automatic Repair (Self-Healing):** The advanced self-healing technology actively eliminates minor scratches and small bubbles within 24 hours, keeping your screen looking new.

Automatic Repair

The self-healing technology constantly eliminates minor scratches and bubbles within 24hrs.

Image: Two smartwatches, one with a visible scratch and another appearing clear, illustrating the "Automatic Repair" capability of the screen protector over time.

- **Special Oleophobic Coating:** An integrated oleophobic coating helps repel fingerprints, smudges, and oil residue, making your screen easier to clean and maintain clarity.

Special Oleophobic Coating

Keep clean and clear against smudges and oil residue

- **Scratch Resistance:** Provides robust protection against daily scratches and abrasions, safeguarding your smartwatch screen from damage.

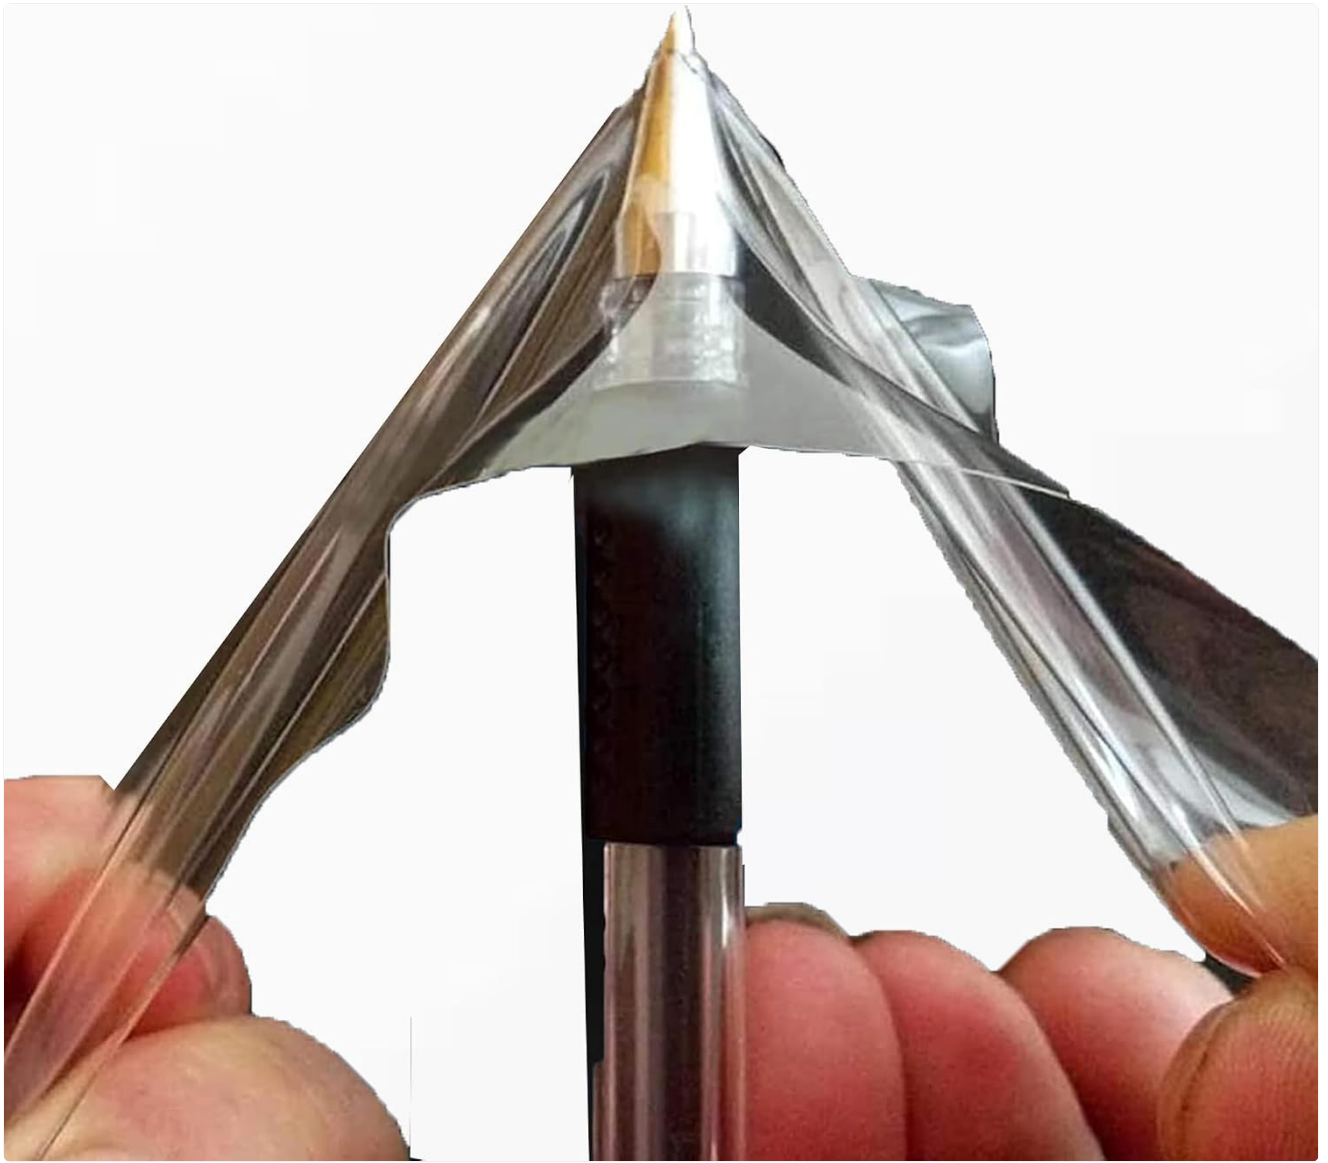

Image: A screen protector being bent around a sharp object, demonstrating its flexibility and resistance to punctures or scratches.

MAINTENANCE

To ensure the longevity and clarity of your screen protector:

- **Cleaning:** Regularly wipe the screen with the provided microfiber cloth to remove dust and fingerprints. For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaner.
- **Self-Healing:** Allow up to 24 hours for minor scratches and small bubbles to naturally disappear due to the protector's self-healing properties. Avoid picking at or attempting to manually remove small imperfections immediately after installation.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals on the screen protector, as this can damage the oleophobic coating and the TPU material.

TROUBLESHOOTING

If you encounter issues during or after installation, consider the following:

- **Persistent Bubbles:** Ensure the screen was thoroughly cleaned before application. Use the squeegee to gently push bubbles towards the nearest edge. For very small bubbles, allow 24-48 hours for the self-healing feature to work.
- **Dust Particles Under Protector:** This usually occurs if the screen was not completely dust-free during installation. If dust is causing a significant issue, you may need to carefully lift a corner of the protector, use a dust-removal sticker (not included, but common in screen protector kits) to remove the dust, and reapply. If unsuccessful, use a new protector from the pack.

- **Misalignment:** If the protector is significantly misaligned, carefully peel it off slowly and reapply. If the adhesive is compromised or dust has accumulated, use a new protector.
- **Reduced Touch Sensitivity:** Ensure the protector is fully adhered without air gaps. If the issue persists, verify that the protector is correctly sized for your watch model.

SPECIFICATIONS

Brand	Lamshaw
Compatible Devices	JOYELE H96 / Mgaolo H96 Kids Smart Watch
Material	Thermoplastic Polyurethane (TPU)
Product Dimensions	10L x 1W centimeters (approximate, specific to watch model)
Finish Type	Glossy
Quantity	6 Packs

WARRANTY AND SUPPORT

Lamshaw screen protectors are designed for durability and performance. For any questions regarding installation, product features, or support, please refer to the retailer's return policy or contact Lamshaw customer service through your purchase platform. Please retain your proof of purchase for any warranty claims.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
