1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Hitachi GP-75F 002 Vacuum Cleaner Pack Filter. Please read these instructions carefully before use to ensure optimal performance and safety.

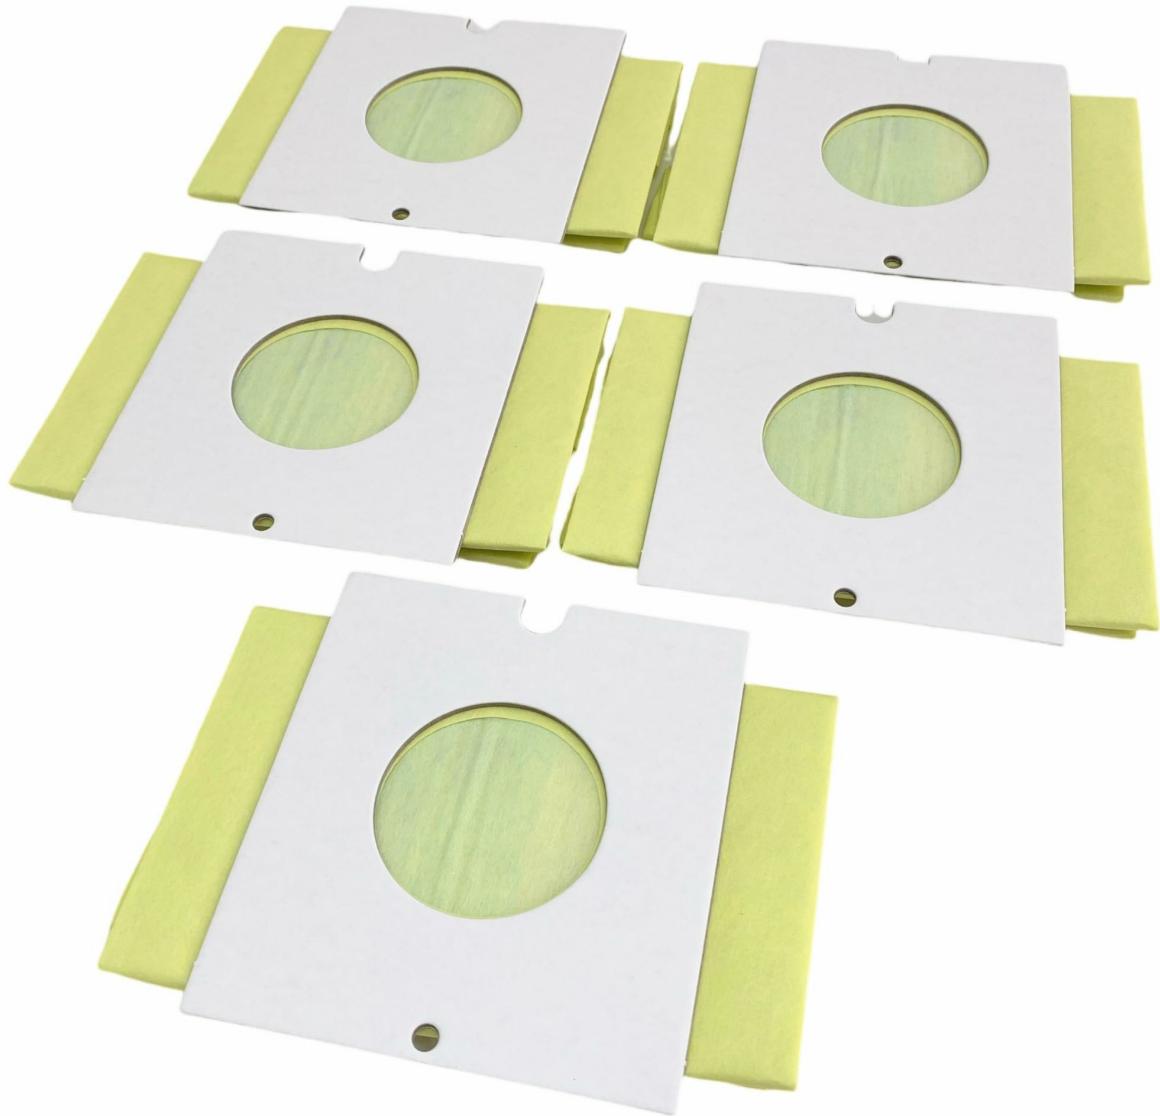

Image 1: Packaging of the Hitachi GP-75F Vacuum Cleaner Pack Filter. The package clearly displays "HITACHI REPLACEMENT PARTS GP-75F 002" and indicates "5 pieces included".

2. COMPATIBILITY

The GP-75F 002 pack filter is designed for use with specific Hitachi vacuum cleaner models. Ensure your vacuum cleaner is compatible before installing this filter.

2.1 Compatible Models

This pack filter is generally compatible with Hitachi household cleaners (CV-type) released after 1989. Specific compatible models include:

- CV-PY30, CV-PY20, CV-PY9, CV-PY8

- CV-PH9, CV-PL800, CV-PM10, CV-PM7
- CV-PP10, CV-RP2100, CV-PP9, CV-PP8, CV-PP7
- CV-VP5, CV-PR200, CV-PR20, CV-PR10, CV-PR9, CV-PR8
- CV-PU300, CV-PU20, CV-PU10
- CV-PW300, CV-PW10, CV-PW9, CV-VW7

2.2 Incompatible Models

This pack filter is **not** suitable for the following types of cleaners. Please use the dedicated pack filter for these models:

- XV-type cleaners
- PV-type cleaners (upright and handy types)
- Store or commercial cleaners
- All Hitachi cleaners released before 1988

Always refer to your specific cleaner's instruction manual for definitive compatibility information.

3. INSTALLATION

To install the GP-75F 002 pack filter:

1. Ensure your vacuum cleaner is unplugged from the power outlet before attempting any installation or removal of parts.
2. Open the dust compartment of your vacuum cleaner according to its specific instructions.
3. Carefully remove the old, full pack filter. Dispose of it properly.

4. Unfold a new GP-75F pack filter.

Image 3: An unfolded Hitachi GP-75F pack filter, ready for installation.

5. Insert the new pack filter into the designated slot, ensuring it is securely seated and properly aligned.
6. Close the dust compartment firmly.
7. For detailed installation methods and specific handling precautions, always refer to your vacuum cleaner's original instruction manual.

4. MAINTENANCE

Regular replacement of the pack filter is crucial for maintaining your vacuum cleaner's performance and ensuring effective dust collection.

4.1 Filter Replacement

- Replace the pack filter when it is full, or when you notice a decrease in suction power.
- The frequency of replacement depends on usage and the amount of dust collected.
- Always use genuine Hitachi pack filters, such as the GP-75F 002, to ensure optimal performance and safety.

4.2 Storage

Store unused pack filters in their original packaging in a cool, dry place, away from direct sunlight and out of reach of children.

Image 4: Multiple Hitachi GP-75F pack filters, folded and ready for storage or use.

5. IMPORTANT SAFETY INFORMATION

The cleaner's pack filter is a vital component for maintaining the main unit's performance. Adhering to these safety guidelines is essential:

- **Use Genuine Hitachi Filters Only:** If a paper pack other than a genuine Hitachi filter is used, there is a risk of smoke and fire. The cleaner's performance and quality cannot be guaranteed under such circumstances. Always use genuine Hitachi pack filters.
- **Refer to Cleaner Manual:** For detailed installation methods and specific handling precautions, always refer to your vacuum cleaner's original instruction manual.

6. TROUBLESHOOTING

If you experience issues with your vacuum cleaner after installing a new filter, consider the following:

- **Reduced Suction Power:** Ensure the filter is correctly installed and the dust compartment is properly closed. If the issue persists, the filter might be full, or there might be an obstruction in the vacuum cleaner itself.
- **Smoke or Fire:** **Immediately unplug the vacuum cleaner.** This serious issue can occur if a non-genuine filter is used. Ensure you are always using genuine Hitachi pack filters. If smoke or fire occurs, do not attempt to use the vacuum cleaner again and contact customer support.

7. SPECIFICATIONS

Model	GP-75F 002
Product Type	Vacuum Cleaner Pack Filter
Quantity per Pack	5 pieces (as indicated on packaging)
Antibacterial Part	Inner paper of pack filter
Antibacterial Activity Value	2.0 or higher (based on JIS L 1902)
Weight	Approximately 150 g (for the product package)
Manufacturer	Hitachi

8. WARRANTY INFORMATION

The use of non-genuine Hitachi pack filters may void the warranty of your Hitachi vacuum cleaner and can lead to performance issues or safety hazards. Always use genuine Hitachi replacement parts to ensure your product warranty remains valid and for safe operation.

For specific warranty terms and conditions related to your vacuum cleaner, please refer to the warranty documentation provided with your vacuum cleaner unit.

9. CUSTOMER SUPPORT
