Kepswin PB26W

Kepswin 49800mAh Portable Power Bank User Manual

Model: PB26W

Brand: Kepswin

1. INTRODUCTION

Thank you for choosing the Kepswin 49800mAh Portable Power Bank. This device is designed to provide reliable and fast charging for your electronic devices on the go. Please read this manual carefully before use to ensure optimal performance and safety.

2. PRODUCT OVERVIEW

Key Features:

- **High Capacity:** 49800mAh battery to keep your devices powered throughout the day.
- **Built-in Cables:** Includes integrated iOS, USB-C, and USB-A cables for universal compatibility.
- **Fast Charging:** Supports 22.5W PD ultra-fast charging, capable of charging an iPhone to 60% in 30 minutes.
- **Multiple Ports:** Features 4 outputs and 3 inputs, allowing simultaneous charging of up to 4 devices.
- **Smart LED Display:** Accurate digital display shows remaining battery charge.
- **Advanced Safety:** Built-in multi-layer protection system (temperature, overvoltage, overcurrent, short circuit, overcharge, overdischarge).

What's in the Box:

- 1 x Kepswin 49800mAh Portable Power Bank with 3 Built-in Cables and 3 Ports
- 1 x USB-C Charging Cable (for recharging the power bank)
- 1 x User Manual

Charge 4 Devices Simultaneously

3. SAFETY INFORMATION

- Do not expose the power bank to extreme temperatures (above 60°C/140°F) or direct sunlight.
- Avoid dropping, disassembling, or attempting to repair the device yourself.
- Keep away from water, moisture, and flammable materials.
- Do not use if the power bank is damaged, swollen, or leaking.

- Use only certified charging cables and adapters.
- Due to its high capacity, this power bank may exceed airline carry-on restrictions for lithium batteries. Always check with your specific airline before flying.
- Keep out of reach of children.

Why Choose Yelomin—High Capacity, Portable, Fast Charging

Ours	VS	Others
		
49800mAh Large capacity 		 20000mAh
22.5W Fast Charger 		 10W Slow Charger
Built in Cables 		 Without Cable
Up to 4 Devices 		 3 Devices
LED power display 		 Battery indicator light

4. SETUP

4.1 Charging the Power Bank

Before first use, fully charge your Kepswin Power Bank. Use the provided USB-C cable or any compatible USB-C or USB-A cable to connect the power bank to a power adapter (not included) or a computer's USB port.

1. Connect the included USB-C cable to one of the input ports (Type-C1/2 or USB-A cable input) on the power bank.
2. Connect the other end of the cable to a suitable power source (e.g., wall adapter, computer USB port).
3. The LED display will show the charging progress. It is fully charged when the display shows "100%".

Charge Anywhere

Image: The power bank connected to a wall adapter for recharging, showing the LED display at 100%.

Image: Visual representation of three different methods to recharge the power bank: via Type-C Port 1, Type-C Port 2, and USB-A Cable Input.

4.2 Charging Your Devices

The power bank offers multiple ways to charge your devices:

- **Using Built-in Cables:**

- a. Locate the appropriate built-in cable (iOS, USB-C, or USB-A) for your device.
- b. Gently pull out the desired cable from its slot on the power bank.
- c. Connect the cable to your device's charging port.
- d. The power bank will automatically begin charging your device.

- **Using External Ports:**

- a. Use your device's original charging cable.
- b. Connect one end of your cable to one of the output ports (Type-C1/2 or USB-A) on the power bank.
- c. Connect the other end of the cable to your device.
- d. The power bank will automatically begin charging your device.

ACCURACY, EVEN 1%

100%

Built-in high-precision power monitoring, LED screen, real-time display accurate, stable, and no flickering

Unlike ordinary power banks with 3% display error, our revolutionary AI technology ensures within 1% error, tripling the display accuracy

Image: The power bank connected to a laptop, smartphone, and earbuds, demonstrating its ability to charge four devices at once.

5. OPERATING INSTRUCTIONS

5.1 Checking Battery Level

Press the power button on the side of the power bank once. The smart LED display will illuminate, showing the remaining battery percentage. The display is designed for high accuracy, ensuring less than 1% error.

AI Smart Chip

5.2 Automatic On/Off

The power bank features automatic load detection. It will automatically turn on when a device is connected for charging and turn off when charging is complete or no device is connected for a period of time to conserve power.

6. MAINTENANCE

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- If not used for extended periods, charge the power bank at least once every three months to maintain battery health.
- Avoid bending or stressing the built-in cables excessively to prevent damage.

Extremely Durable
10000+ Bending Tests

Strong Material
50KG

Fast Charging

Our Cables

Withstands up to 10,000 bends

Can withstand pet chewing

VS

Other Cables

Easily Pulled Apart

Can't stand pet chewing

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging.	Cable not properly connected; faulty cable/adaptor; power bank fully charged.	Ensure all connections are secure. Try a different cable or adaptor. Check LED display for "100%".
Device not charging from power bank.	Power bank battery low; incorrect cable/port; device incompatibility.	Recharge the power bank. Ensure correct cable type and port are used. Verify device compatibility.
Slow charging.	Non-fast charging cable/adaptor; multiple devices charging simultaneously.	Use a fast-charging compatible cable and adaptor. Charge fewer devices at once for faster speeds.
LED display not working.	Power button not pressed; device malfunction.	Press the power button once. If still unresponsive, contact customer support.

8. SPECIFICATIONS

- **Model Number:** PB26W
- **Battery Capacity:** 49800mAh
- **Product Dimensions:** 7.1 x 3.2 x 1.1 inches
- **Item Weight:** 1.04 pounds
- **Input Ports:** Type-C1 (18W), Type-C2 (18W), USB-A (via built-in cable)
- **Output Ports:** Type-C (22.5W PD), USB-A (22.5W QC3.0), Built-in iOS Cable (DC 5V/2A), Built-in USB-A Cable (5V/3A), Built-in Type-C Cable (22.5W)
- **Special Features:** 22.5W QC3.0 Fast Charging, 3 Built-in Cables (USB-C, iOS, USB-A), LED Display, Charge 4 devices Simultaneously
- **Certifications:** UL, CE, FCC, RoHS, UN38.3

9. WARRANTY AND SUPPORT

Kepswin products come with a 365-Day Quality Guarantee. For any questions, issues, or warranty claims, please contact our customer service team. We offer 24-hour friendly customer service.

Contact Information: Please refer to the contact details provided on the product packaging or the official Kepswin website.
