ibasenice Metal Microphone Grille Replacement Ball Head User Manual

Model: CQ419QR1Y43A154OJ1JW80
Brand: ibasenice

1. INTRODUCTION

This manual provides comprehensive instructions for the ibasenice Metal Microphone Grille Replacement Ball Head. This product is designed to replace damaged or worn microphone grilles, ensuring continued protection for the microphone capsule and maintaining optimal sound quality. Constructed from durable metal, it offers high hardness, corrosion resistance, and wear resistance.

METAL MICROPHONE NET HEAD —

Metal structure, electroplating process, durable, beautiful and good texture, good accessory and good decor for mic.

2. SETUP AND INSTALLATION

Follow these steps to correctly install the replacement microphone grille:

1. **Compatibility Check:** Ensure your microphone model is compatible with this replacement grille. This grille is designed to fit various standard microphones.
2. **Remove Old Grille (if applicable):** Carefully unscrew the existing grille from your microphone. Turn it counter-clockwise until it detaches.
3. **Align New Grille:** Position the ibasenice Metal Microphone Grille Replacement Ball Head over the microphone's threading.
4. **Screw into Place:** Gently turn the new grille clockwise, screwing it onto the microphone body. Continue until it is securely fastened. Avoid overtightening to prevent damage to the grille or microphone.

3. OPERATING INSTRUCTIONS

The ibasenice Metal Microphone Grille Replacement Ball Head functions as a protective cover for your microphone's sensitive capsule. Once installed, it operates passively by:

- **Physical Protection:** Shielding the microphone element from accidental impacts, drops, and general wear during use.
- **Pop Filter Functionality:** The mesh design helps to reduce plosive sounds (P, B, T, K) and breath noises, contributing to clearer audio.
- **Debris Barrier:** Preventing dust, dirt, and other small particles from entering and damaging the microphone's internal components.

4. MAINTENANCE

Proper maintenance ensures the longevity and performance of your microphone grille:

- **Regular Cleaning:** Periodically wipe the exterior of the grille with a soft, dry, lint-free cloth to remove dust and fingerprints.

- **Deep Cleaning (if necessary):** For more stubborn dirt, lightly dampen the cloth with water. Ensure no moisture enters the microphone itself. Allow the grille to air dry completely before reattaching it to the microphone.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong detergents, as these can damage the metal finish and protective coating.
- **Inspect for Damage:** Regularly check the grille for any dents, bends, or tears in the mesh. A damaged grille may compromise protection and sound quality.

Image 4.1: An exploded view of the grille, highlighting the internal foam layer which may require occasional cleaning or replacement.

5. TROUBLESHOOTING

If you encounter any issues with your replacement grille, consider the following:

- **Grille Does Not Fit:** Verify that your microphone model is compatible with the ibasenice replacement grille. Ensure you are attempting to screw it on correctly, aligning the threads.

- **Grille Feels Loose:** Ensure the grille is fully screwed onto the microphone. If it still feels loose, check for any damage to the threading on either the grille or the microphone.
- **Damaged Grille:** If the grille is visibly damaged (e.g., dented, torn mesh), its protective capabilities may be compromised. Consider replacing it with a new one.

6. SPECIFICATIONS

Feature	Detail
Model Number	CQ419QR1Y43A154OJ1JW80
Item Weight	2.4 ounces (approx. 68 grams)
Product Dimensions	1.97 x 1.97 x 2.56 inches (5.00 x 5.00 x 6.50 cm)
Material Type	Metal
Color	Golden
Package Contents	1 x Microphone Metal Ball Head Replacement
