Vangoa PB-1

Vangoa PB-1 Adjustable Piano Bench Instruction Manual

Model: PB-1

1. Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Vangoa PB-1 Adjustable Piano Bench. Please read this manual thoroughly before use to ensure proper setup and safe operation. This bench is designed to provide a comfortable and stable seating option for musicians using pianos, keyboards, and other musical instruments.

2. Safety Information

- **Maximum Weight Capacity:** Do not exceed the maximum weight recommendation of **400 pounds (181 kg)**. Exceeding this limit may cause damage to the bench or result in injury.
- **Stability Check:** Always ensure the bench is stable and secure before each use. Verify that all adjustment knobs are tightened and the legs are evenly placed on a flat surface.
- **Assembly:** Follow all assembly instructions carefully. Ensure all components are correctly installed and tightened.
- **Children:** Keep small parts away from children during assembly. Supervise children when they are using the bench.

3. Package Contents

Please verify that all components are present before beginning assembly:

- Padded Seat Cushion (1)
- H-Style Bench Frame (1)
- Adjustable Legs (2)
- Crossbeam (1)
- Adjustment Knobs (2)
- Assembly Hardware (screws, Allen wrench)

4. Assembly Instructions

Follow these steps to assemble your Vangoa PB-1 Piano Bench:

1. **Attach the Legs:** Secure the two adjustable legs to the main H-style bench frame using the provided screws and Allen wrench. Ensure they are firmly attached.
2. **Insert the Crossbeam:** Connect the crossbeam between the two legs. This enhances stability. Fasten it securely with the appropriate hardware.
3. **Attach the Seat:** Place the padded seat cushion onto the assembled frame. Align the mounting holes and secure the seat to the frame using the remaining screws.
4. **Install Adjustment Knobs:** Insert the two adjustment knobs into the designated holes on each leg. These will be used for height adjustment.

5. Operating Instructions: Height Adjustment

The Vangoa PB-1 Piano Bench offers adjustable height settings to accommodate various users and instruments.

1. **Loosen Knobs:** Locate the two adjustment knobs on the side of each leg. Turn them counter-clockwise to loosen them.
2. **Adjust Height:** Carefully pull the inner leg sections up or push them down to your desired height. The bench features multiple pre-drilled holes for height settings.
3. **Secure Height:** Once the desired height is achieved, align the holes in the inner and outer leg sections. Re-insert the adjustment knobs and turn them clockwise until they are firmly tightened. Ensure both knobs are equally secure to maintain stability.

The bench offers four seating heights, ranging from approximately 18.5 inches (47 cm) to 23.6 inches (60 cm).

6. Maintenance

- **Cleaning:** Wipe the bench with a dry cloth to remove dust and dirt. For the PU leather cushion, a damp cloth can be used for spills, then wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check all screws and adjustment knobs to ensure they remain tight. Re-tighten if necessary.
- **Storage:** When not in use for extended periods, store the bench in a dry, cool place away from direct sunlight to preserve the material. The foldable design allows for easy storage and transport.

7. Troubleshooting

- **Bench is Unstable:**
  - Ensure all assembly screws are tightened.
  - Verify that both height adjustment knobs are securely tightened.
  - Check that the bench is placed on a flat, even surface. The non-slip ABS end caps are designed to protect floors and provide grip.
- **Difficulty Adjusting Height:**
  - Ensure the adjustment knobs are fully loosened before attempting to change the height.
  - If the legs are stiff, gently wiggle them while adjusting. Do not force the adjustment.
  - Confirm that the inner leg sections are aligned with the pre-drilled holes for the knobs to re-engage properly.
- **Bench Does Not Reach Stated Maximum Height:**
  - The maximum height is 23.6 inches. Ensure the legs are fully extended to the highest possible hole and the adjustment knobs are securely fastened.
  - If you suspect a manufacturing defect preventing full extension, contact customer support.
