IAGREEA HB-B10KW1

IAGREEA 35oz Nut Milk Maker Machine User Manual

Model: HB-B10KW1

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the IAGREEA Nut Milk Maker Machine. Retain this manual for future reference.

- Always ensure the machine is placed on a stable, flat surface.
- Do not immerse the main unit in water or other liquids. Avoid wetting the power interface.
- Exercise caution as surfaces may become hot during operation.
- Keep out of reach of children.
- Ensure the lid is properly installed and locked before operation to prevent "E2 error" and ensure safety.
- The product may produce certain noise due to the high speed of the motor during operation. This is normal.

3. SETUP AND FIRST USE

3.1. Initial Cleaning

Before first use, clean all parts that will come into contact with food. Use a soft cloth and mild detergent. Rinse thoroughly and dry completely.

3.2. Placement

Place the machine on a dry, stable, and heat-resistant surface. Ensure there is adequate ventilation around the unit.

Figure 3.1: Product dimensions for proper placement and storage.

4. OPERATION GUIDE

Follow these steps to prepare your desired beverage:

1. **Add Ingredients:** Place your desired ingredients (e.g., nuts, soybeans, oats) into the machine's inner liner. Add water or milk according to your recipe, ensuring it stays within the MIN and MAX fill lines.

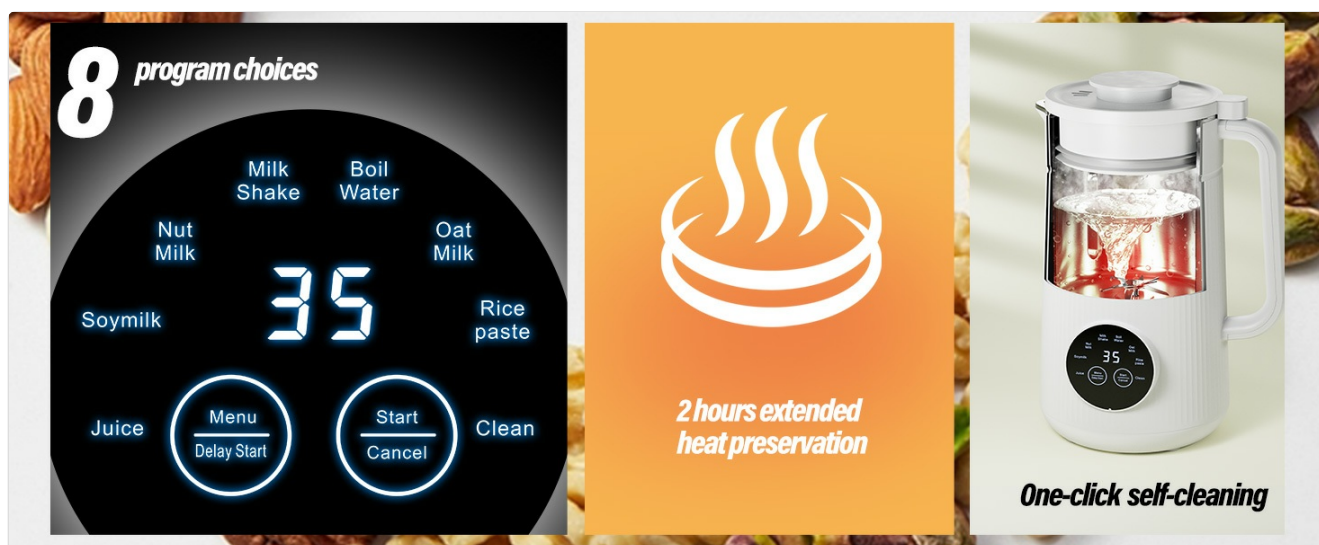

Figure 4.1: Steps for adding ingredients and starting the machine.

2. **Close the Lid:** Securely place the lid on the machine. Ensure it is properly aligned and locked into place. An "E2 error" will display if the lid is not correctly seated.
3. **Select Program:** Press the "Menu/Delay Start" button to cycle through the available programs: Milk Shake, Nut Milk, Soymilk, Juice, Boil Water, Oat Milk, Rice Paste, and Clean.

Figure 4.2: Program selection and details.

4. **Start Operation:** Once your desired program is selected, press the "Start/Cancel" button to begin.
5. **Delay Start (Optional):** To use the delay start function, select your program, then press and hold the "Menu/Delay Start" button. Adjust the delay time (up to 12 hours) using the same button. The machine will start automatically after the set delay.

Efficient operation, more thorough grinding

Figure 4.3: Setting the delay start function.

After the program finishes, the machine will indicate completion. Some programs may have a keep-warm function (approximately 0.5h-1h).

5. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and longevity of your IAGREEA Nut Milk Maker.

5.1. One-Click Self-Cleaning

For quick cleaning after use, select the "Clean" program on the control panel. This function helps remove residual fruit or nut particles from the machine.

5.2. Manual Cleaning

- Always unplug the machine and allow it to cool down before cleaning.
- The inner liner, made of 304 stainless steel, can be cleaned with a soft sponge and mild dish soap.
- Use the provided cleaning brush to reach detailed parts and remove small residues.

- Wipe the exterior of the machine with a damp cloth. Do not rinse the entire unit under water.
- After cleaning, wipe the inside of the machine thoroughly with a tissue or dry cloth to keep it dry before storage.

Figure 5.1: Important cleaning guidelines.

6. TROUBLESHOOTING

If you encounter any issues with your machine, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not start / Displays "E2"	Lid is not properly installed or locked.	Ensure the lid is securely placed and locked into position. The machine has a safety lock design.
Excessive noise during operation	High-speed motor operation.	This is normal for the powerful motor. The noise decibel is within an acceptable range (70-75dB).
Residue left after self-cleaning	Stubborn particles.	Use the provided long-handle cleaning brush for thorough manual cleaning of detailed parts.
Machine not heating	Selected program does not include heating.	Refer to the program chart (Figure 4.2) to confirm if the selected program has heating functionality.

Figure 6.1: Acceptable noise levels during operation.

7. PRODUCT SPECIFICATIONS
