Baseus LFZ103

Baseus Qpow2 10000mAh USB C Power Bank User Manual

Model: LFZ103

1. INTRODUCTION

Thank you for choosing the Baseus Qpow2 10000mAh USB C Power Bank. This portable power bank is designed to provide efficient and reliable charging for a wide range of electronic devices, including smartphones, tablets, and more. With its 30W Power Delivery (PD) capability and dual built-in USB-C cables, it offers convenience and versatility for users on the go. The integrated LED display allows for easy monitoring of the battery level.

2. KEY FEATURES

- **30W Power Delivery:** Supports fast charging for compatible devices, including iPhone 15 Pro Max and Samsung S24 Ultra.
- **Dual Built-in Type-C Cables:** Offers convenient charging for multiple USB-C devices without needing extra cables.
- **10000mAh Capacity:** Provides ample power to charge smartphones and tablets multiple times.
- **Compact and Ultra Portable Design:** Slim and lightweight, ideal for travel and daily use.
- **LED Digital Display:** Clearly shows the remaining battery percentage.
- **4 Output Ports:** Includes USB-A and Type-C ports for simultaneous charging of up to four devices.
- **Safety Features:** Equipped with over-charging protection and short-circuit protection for safe operation.

Ultra Portable & Mini Size

Travel Without Limits.

3. SETUP

3.1 Initial Charge

Before first use, it is recommended to fully charge your Baseus Qpow2 Power Bank. Connect the power bank to a suitable USB wall charger using one of the built-in USB-C cables or an external USB-C cable. The LED display will show the charging progress, indicating 100% when fully charged.

3.2 Checking Battery Level

The power bank features an LED digital display that shows the current battery percentage. Simply press the power button once to activate the display and view the remaining charge.

4. OPERATING INSTRUCTIONS

4.1 Charging Devices

To charge your electronic devices:

1. Identify the appropriate cable for your device. The Baseus Qpow2 comes with two built-in USB-C cables. You can also use your device's original charging cable with the available USB-A or USB-C output ports.

2. Connect the cable to your device and then to the power bank's corresponding output port (built-in USB-C cable, USB-A port, or external USB-C port).

3. The power bank will automatically begin charging your device. The LED display will show the power bank's remaining charge.

Charging 4 Devices Simultaneously

More Efficient, More Productive.

Image 4.1: The power bank's ability to charge up to four devices simultaneously, including phones, a fan, and earbuds.

4.2 Recharging the Power Bank

To recharge the Baseus Qpow2 Power Bank:

1. Connect one of the built-in USB-C cables or an external USB-C cable to the power bank's input port.

2. Connect the other end of the cable to a USB wall charger (not included) or a computer's USB port. For fastest charging, use a 30W PD compatible charger.

3. The LED display will show the charging status. It will indicate 100% when fully charged.

TWO-WAY FAST CHARGING USB-C CABLE

JUST ONE CABLE PROVIDES BOTH INPUT/OUTPUT FUNCTIONALITY.

30W

| 30min Charge iPhone 15 Pro | 0-57% [1] |
| 2h 10min Fully self-charge | 100% [1] |

Image 4.2: Illustrates the two-way fast charging capability of the USB-C cable, allowing for quick recharging of the power bank itself.

4.3 Low Current Mode

The power bank supports a low current mode, ideal for charging small devices like smartwatches, Bluetooth earbuds, or fitness trackers that require less power. This mode helps prevent overcharging and extends the battery life of these smaller devices.

Image 4.3: The power bank in low current mode, suitable for charging small electronic accessories.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** To prolong battery life, fully charge the power bank at least once every three months if not in regular use. Avoid completely draining the battery for extended periods.
- **Handling:** Do not drop, disassemble, or attempt to repair the power bank yourself. This may void the warranty and pose safety risks.

6. TROUBLESHOOTING

If you encounter issues with your Baseus Qpow2 Power Bank, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Power bank not charging devices.	Low battery on power bank; loose cable connection; incompatible device.	Recharge the power bank. Ensure cables are securely connected. Verify device compatibility.

Problem	Possible Cause	Solution
Power bank not recharging.	Faulty charging cable or adapter; power bank port issue.	Try a different charging cable and wall adapter. Ensure the charging port is clean and free of debris.
LED display not working.	Power bank is completely discharged; internal malfunction.	Attempt to charge the power bank for a few hours. If the issue persists, contact customer support.
Slow charging.	Using a non-fast charging cable/adapter; device not supporting fast charge; multiple devices charging.	Use a 30W PD compatible charger and cable. Ensure your device supports fast charging. Charging multiple devices simultaneously may reduce individual charging speeds.

If the problem persists after trying these solutions, please contact Baseus customer support for further assistance.
