2. Safety Information

Adherence to the following safety guidelines is crucial for preventing injury and ensuring proper device function.

- **Eye Protection:** Always wear the provided eye protection glasses during operation to shield your eyes from direct light exposure.
- **Medical Conditions:** Consult a healthcare professional before using this device if you have any pre-existing medical conditions, are pregnant, or are taking photosensitizing medications.
- **Contraindications:** Do not use this device on areas with cancer or cancerous lesions. Avoid use on open wounds or broken skin.
- **Heat:** The device may become warm during extended use. Avoid prolonged direct contact with a single skin area to prevent discomfort.
- **Children and Pets:** Keep the device out of reach of children and pets.
- **Water Exposure:** This device is not water resistant. Avoid contact with water or other liquids.
- **Power Source:** Use only the specified battery and charging components.

3. Product Overview

4. Setup

1. **Unpack:** Carefully remove all components from the packaging.
2. **Charge Battery:** Before first use, fully charge the included lithium battery using the provided charger. Insert the battery into the device once fully charged.
3. **Attach Wrist Strap:** If desired, attach the wrist strap to the device for secure handling.

5. Operating Instructions

Follow these steps for effective and safe use of your LumiCure device.

1. **Wear Eye Protection:** Always put on the provided eye protection glasses before turning on the device.
2. **Power On:** Press and hold the power button located on the device body until the light activates.
3. **Apply to Area:** Hold the device approximately 1-3 inches from the skin over the desired area for therapy.
4. **Treatment Duration:** For optimal results, apply the light for approximately 3 minutes per area. You may treat an area up to 3 times per day.
5. **Power Off:** After your session, press and hold the power button again to turn off the device.

Recommended Usage: Consistent use over several weeks is often recommended to observe benefits. For example, a common protocol suggests 3 minutes per area, up to 3 times a day, for 3 weeks.

6. Maintenance

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the device in its carrying case in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Battery Care:** If the device will not be used for an extended period, remove the battery and store it separately. Recharge the battery periodically to maintain its lifespan.

7. Troubleshooting

If you encounter issues with your Lifepro LumiCure device, please refer to the following common solutions:

- **Device Not Turning On:**
  - Ensure the battery is fully charged and correctly inserted.
  - Check if the power button is being pressed and held sufficiently.
- **Light Appears Dim:**
  - Recharge the battery.
  - Ensure the light aperture is clean and free from obstructions.
- **Device Overheating:**
  - Discontinue use immediately and allow the device to cool down.
  - Ensure adequate ventilation around the device during use.

For further assistance, please contact Lifepro Customer Support.

8. Warranty and Support

Your Lifepro LumiCure device is backed by a **Lifetime Warranty**. Additionally, a **2-year manufacturer warranty** covers defects in materials and workmanship from the date of purchase.

For warranty claims, technical support, or any questions regarding your device, please visit the official Lifepro website or contact their customer service department. You can also access exclusive training videos and live support through their online community.
