SETUP

1. Inserting SIM Cards and MicroSD Card

1. Locate the SIM tray on the side of your phone.
2. Insert the SIM tray ejector pin into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano SIM card(s) into the designated slots. The POZZI Turbo supports dual Nano SIM cards.
4. If you wish to expand storage, insert a MicroSD card (sold separately, up to 512GB) into its dedicated slot on the tray.
5. Carefully reinsert the tray into the phone.

2. Charging the Device

- Connect the Type-C cable to the charging port at the bottom of the phone.
- Connect the other end of the cable to the power adapter, then plug the adapter into a wall outlet.
- Allow the phone to charge fully before initial use. The battery indicator on the screen will show charging status.

3. Powering On and Initial Setup

- Press and hold the Power button (usually on the right side) until the POZZI logo appears.

- Follow the on-screen prompts to select your language, connect to a Wi-Fi network, and set up your Google account.

OPERATING INSTRUCTIONS

Display and Navigation

The POZZI Turbo features a 6.79-inch HD+ display. Navigate through the interface using touch gestures: tap to select, swipe to scroll, pinch to zoom. The Android 14 operating system provides an intuitive user experience.

Camera Usage

Your device is equipped with a 50MP AI camera system.

1. Open the Camera application from your home screen or app drawer.
2. Select your desired mode (Photo, Video, Portrait, etc.).
3. Tap the screen to focus on a subject.
4. Press the shutter button to capture photos or start/stop video recording.

Connectivity

- **Mobile Data:** Ensure your SIM card is active and mobile data is enabled in Settings > Network & internet > Mobile network.
- **Wi-Fi:** Connect to Wi-Fi networks via Settings > Network & internet > Wi-Fi.
- **Bluetooth:** Pair with Bluetooth devices in Settings > Connected devices > Bluetooth.
- **Hotspot:** Share your phone's internet connection by enabling Mobile Hotspot in Settings > Network & internet > Hotspot & tethering.

Battery Management

The 5,000 mAh battery provides extended usage. To optimize battery life, adjust screen brightness, disable unused features like Bluetooth or GPS when not needed, and close background applications.

MAINTENANCE

Software Updates

Regularly check for and install software updates to ensure optimal performance and security. Go to Settings > System > System update.

Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid harsh chemicals or abrasive materials.

Storage Management

To manage your 128GB internal storage and any installed MicroSD card, go to Settings > Storage. You can free up space by deleting unnecessary files, uninstalling apps, or moving media to cloud storage.

TROUBLESHOOTING

Issue	Possible Solution
Phone does not power on	Ensure the battery is charged. Connect the phone to the charger for at least 30 minutes, then try powering on again.
Poor network signal	Check if your SIM card is properly inserted. Move to an area with better network coverage. Verify your carrier's compatibility (T-Mobile LTE and Wi-Fi Calling networks are supported).
Battery drains quickly	Reduce screen brightness, disable Wi-Fi/Bluetooth/GPS when not in use, close background apps, and check for power-intensive apps in Battery settings.
Apps are slow or unresponsive	Close unused applications. Restart the phone. Clear app cache (Settings > Apps > [App Name] > Storage & cache > Clear cache).
Cannot connect to Wi-Fi	Ensure Wi-Fi is enabled. Restart your phone and Wi-Fi router. Re-enter the Wi-Fi password.

For further assistance, please refer to the Warranty and Support section.
