Mophie 15W Wireless Charging Pad with Kickstand User Manual

Model: B0DJCLGPR8

INTRODUCTION

The Mophie 15W Wireless Charging Pad with Kickstand is designed to provide fast, efficient, and convenient wireless charging for your compatible devices. Featuring Qi2 and MagSafe compatibility, it ensures a secure magnetic connection for optimal power delivery. The integrated kickstand offers versatile viewing angles, making it ideal for hands-free use while charging. Its compact design and durable braided cable make it a reliable companion for home, office, or travel.

WHAT'S IN THE BOX

- Wireless Charging Pad (with integrated cable)

KEY FEATURES

- **Fast 15W Wireless Power:** Charges your device with up to 15W of power using Qi2-certified technology for rapid, efficient charging.
- **MagSafe & Qi2 Compatible:** Works seamlessly with iPhone 16, 15, 14, 13, 12 series and AirPods Pro (2nd & 3rd Gen), ensuring a perfect magnetic snap alignment.
- **Built-in Kickstand for Flexibility:** Foldable kickstand design allows you to prop up your phone while it charges, perfect for using standby mode, taking calls, or streaming videos hands-free.
- **Compact and Travel-Ready:** Slim and portable with an integrated cable, making it ideal for charging at home, in the office, or while traveling.
- **Durable Integrated Braided Cable:** Features a flexible braided cable tested for over 30,000 bends with an integrated silicone strap for organization and tangle-free use.

Built-in, Deployable Kickstand

The integrated kickstand can also function as a secure finger grip, enhancing usability while holding your device.

The charger features secure magnetic alignment, ensuring your device is perfectly positioned for efficient wireless charging.

Premium Materials

MADE WITH
ALUMINUM

TESTED TO
WITHSTAND
**30,000
BENDS**

Its simple and compact design makes the Mophie charging pad easy to integrate into any space, whether at home or on the go.

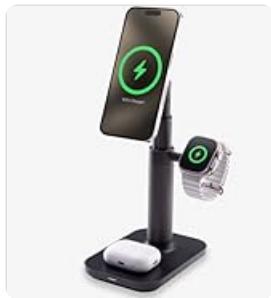

YEAR
WARRANTY

The built-in, deployable kickstand allows you to prop up your iPhone, perfect for utilizing iOS StandBy mode or hands-free viewing.

This versatile charging pad is designed to charge both iPhones and AirPods, providing a convenient power solution for multiple devices.

Constructed with premium materials, including a durable braided cable tested for over 30,000 bends, ensuring long-lasting reliability.

SETUP

Follow these steps to set up your Mophie 15W Wireless Charging Pad:

- 1. Unpack:** Carefully remove the charging pad and its integrated cable from the packaging.
- 2. Connect to Power:** Insert the USB-C end of the integrated cable into a compatible USB-C power adapter (not included). For optimal 15W charging, a 20W or higher USB-C power adapter is recommended.
- 3. Plug In:** Plug the power adapter into a functional wall outlet. The charging pad is now ready for use.

The Mophie 15W Wireless Charging Pad with Kickstand, demonstrating its versatile use with an iPhone in both upright and landscape positions.

OPERATING INSTRUCTIONS

Using your Mophie Wireless Charging Pad is simple and intuitive:

- 1. Magnetic Alignment:** Place your MagSafe or Qi2 compatible iPhone (iPhone 12 series or newer) or AirPods Pro (2nd & 3rd Gen) directly onto the charging pad. The strong magnetic connection will automatically snap your device into the correct position for efficient charging.
- 2. Using the Kickstand:** To utilize the integrated kickstand, gently pull it out from the back of the charging pad. You can adjust the angle to prop up your device in either portrait or landscape orientation. This is ideal for hands-free viewing, video calls, or using iOS StandBy mode.
- 3. Charging Indication:** Your device's screen will typically display a charging indicator or percentage to confirm that it is receiving power.
- 4. Folding the Kickstand:** When you are finished using the kickstand, simply fold it flat against the charging pad. This keeps the charger compact and easy to store or transport.

MAINTENANCE

To ensure the longevity and optimal performance of your Mophie Wireless Charging Pad, follow these maintenance guidelines:

- Cleaning:** Use a soft, dry, lint-free cloth to gently wipe the surface of the charging pad. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the product.
- Cable Care:** While the braided cable is designed for durability, avoid excessive bending, twisting, or pulling on the cable,

especially near the connectors. Use the integrated silicone strap to keep the cable neatly coiled and organized when not in use, preventing tangles and damage.

- Storage:** Store the charging pad in a cool, dry environment away from direct sunlight, extreme temperatures, and high humidity.

TROUBLESHOOTING

If you encounter any issues with your Mophie Wireless Charging Pad, refer to the following common problems and solutions:

Problem	Solution
Device is not charging.	<p>Ensure the charging pad is securely connected to a working power adapter and wall outlet.</p> <p>Verify your device is correctly centered and aligned on the charging pad. The magnetic connection should be firm.</p> <p>Remove any thick phone cases (over 3mm) or metallic objects between your device and the charging pad.</p> <p>Try using a different power adapter or wall outlet.</p>
Charging is slow.	<p>Ensure you are using a power adapter capable of delivering at least 15W (e.g., a 20W USB-C power adapter).</p> <p>Check for proper device alignment on the charging pad.</p> <p>Close any unnecessary background applications on your device.</p>
Charger or device is overheating.	<p>It is normal for the charger and device to become slightly warm during charging.</p> <p>If it becomes excessively hot, disconnect it immediately.</p> <p>Ensure adequate ventilation around the charger and device. Avoid charging on soft surfaces that can trap heat.</p> <p>If overheating persists, discontinue use and contact customer support.</p>
