## INTRODUCTION

---

The NYX PROFESSIONAL MAKEUP Blade & Shade Brow Pencil is a dual-edged mechanical eyebrow pencil designed to create precisely filled and naturally shaded brows. Its innovative 2-in-1 tip allows for a nano-bladed look with up to 16 hours of wear. This product is smudge and transfer-resistant, providing a salon-at-home certified finish.

## KEY FEATURES

## **USAGE INSTRUCTIONS**

1. **Prepare the Brow Area:** Ensure your brows are clean and dry before application. Use the spoolie brush (located on the opposite end of the pencil) to comb your brow hairs into place.
2. **Create Hair-like Strokes (Blade Side):** Hold the pencil like a pen. Use the sharp, blade-thin edge of the pencil tip to draw small, upward strokes, mimicking the natural direction of your brow hairs. Focus on areas where you want to add definition or fill in sparse spots.
3. **Shade and Fill (Shade Side):** Flip the pencil to use the wider, flat edge of the tip. Gently glide this side over sparse areas to create a natural, shaded fill. Adjust pressure for desired intensity.
4. **Blend and Set:** Use the spoolie brush to gently blend the product through your brows. This softens any harsh lines and distributes the color evenly for a natural finish. For enhanced hold, follow with a brow gel.
