# Beliani Aluminum Garden Storage Box - Instruction Manual

Model: 557654

## PRODUCT OVERVIEW

This manual provides detailed instructions for the assembly, operation, and maintenance of your Beliani Aluminum Garden Storage Box. This outdoor storage solution is designed for modern gardens and outdoor spaces, offering a durable and functional area for various items.

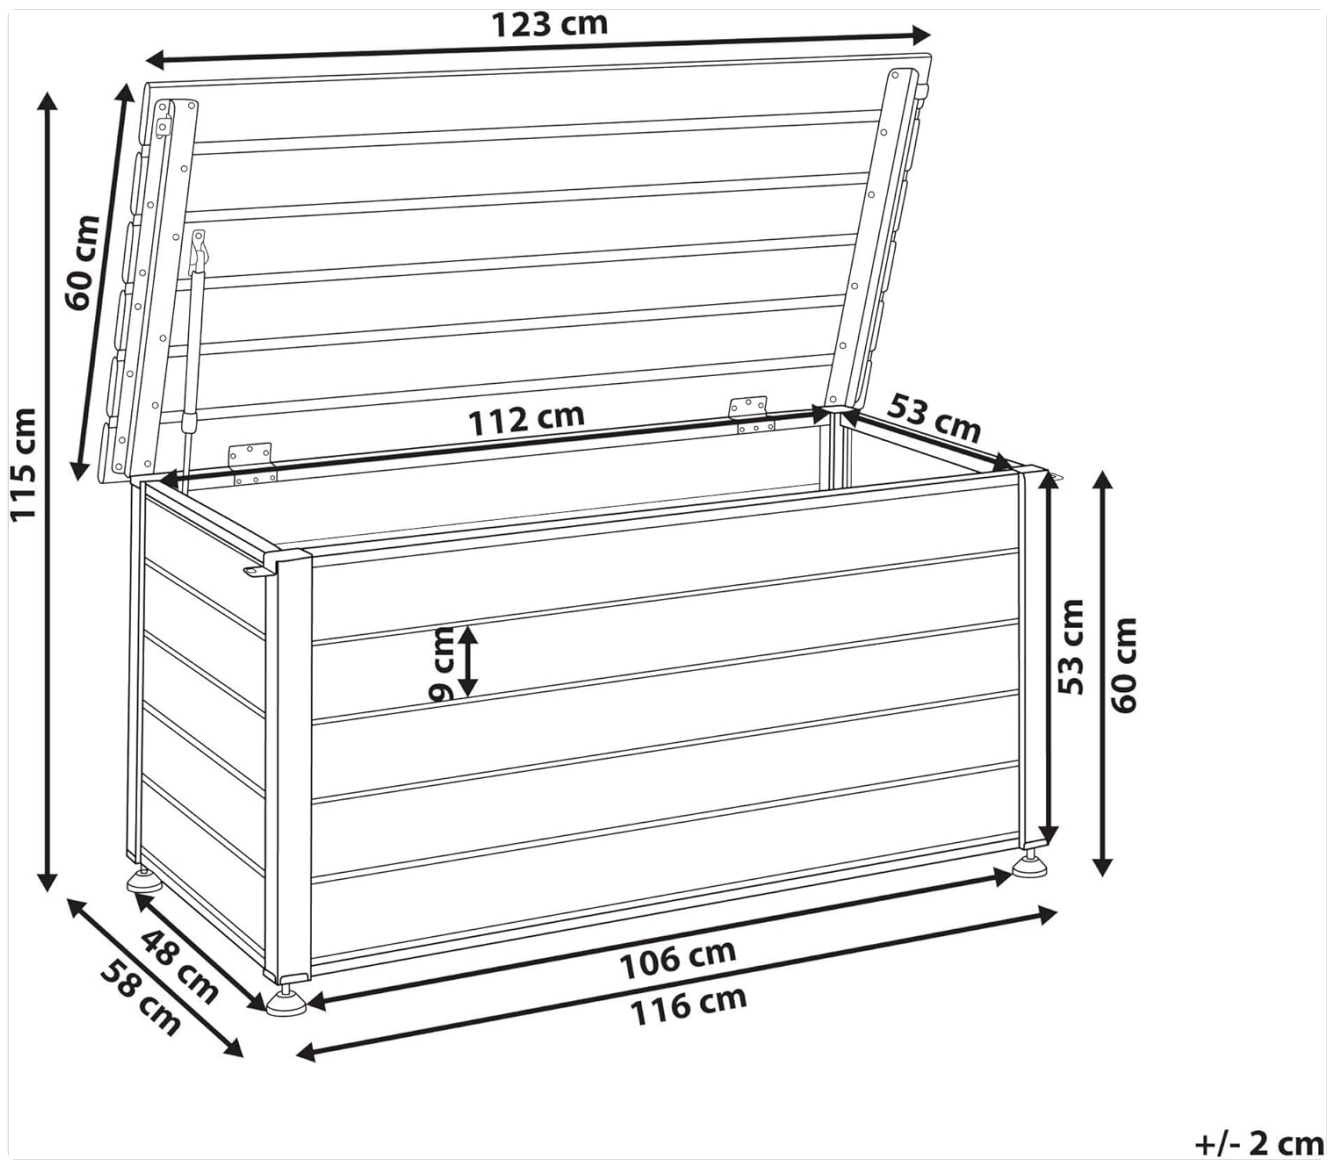

Image: The Beliani Aluminum Garden Storage Box with its lid open, revealing the spacious interior. A blanket and cushion are placed inside, demonstrating its capacity for outdoor essentials. The box features a dark grey finish and a sturdy construction.

## SAFETY INFORMATION

- Ensure all components are securely fastened during assembly to prevent instability.
- Do not allow children to play inside the storage box to avoid entrapment.
- Do not overload the storage box beyond its stated capacity to prevent damage or injury.
- Keep hands clear of hinges and moving parts when opening or closing the lid.
- Place the storage box on a flat, stable surface to ensure proper function and prevent tipping.

## PACKAGE CONTENTS

Please verify that all parts are present before beginning assembly:

- Aluminum panels (sides, front, back, bottom, lid)
- Support frames and corner connectors

- Gas lift mechanism for lid
- Adjustable feet
- Fasteners (screws, bolts, nuts)
- Assembly tools (if included, otherwise standard household tools are required)
- Instruction manual

---

## SETUP AND ASSEMBLY

Assembly is required for this product and typically takes 60-90 minutes. It is recommended to have two people for easier assembly. Ensure you have adequate space and the necessary tools before starting.

Image: A technical diagram illustrating the dimensions of the Beliani Garden Storage Box. Key measurements include a width of 123 cm, depth of 60 cm, and height of 60 cm, with internal dimensions also detailed.

### Assembly Steps:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare with the parts list to ensure everything is present.
2. **Assemble the Base Frame:** Connect the base frame components using the provided fasteners. Ensure all connections are tight.
3. **Attach Side Panels:** Securely attach the side, front, and back aluminum panels to the base frame and to each other using the designated connectors and screws.
4. **Install the Bottom Panel:** Place the bottom panel into the assembled frame and secure it.
5. **Attach the Lid Hinges:** Mount the hinges to the back panel and the lid according to the instructions.
6. **Install Gas Lift Mechanism:** Attach the gas lift mechanism to the lid and the side panel. This mechanism assists

in opening and holding the lid open.

7. **Attach Adjustable Feet:** Screw the adjustable feet into the bottom corners of the storage box. Adjust them to ensure the box is level on your chosen surface.
8. **Final Check:** Verify that all screws are tightened and the box is stable. Test the lid operation.

---

## OPERATING INSTRUCTIONS

- **Opening the Lid:** Gently lift the lid. The gas lift mechanism will assist in raising it and holding it in the open position.
- **Closing the Lid:** Carefully push the lid down. The gas lift mechanism will provide resistance for a controlled closure. Ensure no objects or body parts are in the way of the closing lid.
- **Storage:** Place items evenly inside the box. Avoid placing heavy or sharp objects directly against the interior walls to prevent damage.

## Maintenance and Care

To ensure the longevity and appearance of your aluminum garden storage box, follow these care guidelines:

- Regular Cleaning:** Clean the aluminum surfaces with water and mild soap. Use a soft cloth to wipe away dirt and debris. Avoid abrasive cleaners or harsh chemicals that can damage the powder-coated finish.
- Drying:** After cleaning, dry the surfaces thoroughly to prevent water spots or streaks.
- Seasonal Protection:** During the off-season or periods of extreme weather, it is recommended to use a protective cover or store the box in a cool, dry place to minimize exposure to harsh elements.
- Hinge and Gas Lift Maintenance:** Periodically check the hinges and gas lift mechanism for smooth operation. Apply a silicone-based lubricant if necessary, avoiding oil-based products that can attract dirt.
- Inspection:** Regularly inspect the box for any loose fasteners or signs of wear. Tighten screws as needed.

## Troubleshooting

Problem	Possible Cause	Solution
Lid does not open smoothly or stay open.	Gas lift mechanism faulty or improperly installed.	Check gas lift installation. Ensure it is securely attached. If faulty, contact support for replacement.
Box feels unstable or wobbly.	Uneven surface or loose fasteners.	Adjust the feet to level the box. Tighten all assembly screws.
Water accumulates inside the box.	Lid not fully closed or seals compromised.	Ensure the lid is fully closed. Inspect lid seals for damage and replace if necessary.

## Specifications
